NEW TIRES

It was announced Monday by M. E. Rawlings, Sioux City District OPA Director, that effective immediately, a new amendment, No. 86, Ration Order 1-A, becomes effective, requiring all tires (cars which contain) shall be in their stock to any person who presents a valid tire rationing certificate and the purchase price of the tire. This action is being taken, Mr. Rawlings said, because some dealers, as their stocks got short, resorted to tire ration certificate holders that they did not have tires for sale, when in fact tires were available.

The result has been that persons who were found by their ration boards to be eligible for new tires were unable to use the tire certificates issued them. This action, effective immediately, is designed to help correct this inequity, Mr. Rawlings said.

All tire dealers will also be required to post daily inventories of their stock of tires with a cross section size of 8.25 or larger. For failure to post the inventory or refusal to sell to ration certificate holders, the dealer may be prohibited from transferring them to consumers. A special Hearing Officer has been appointed by the District Director, and his duties are to conduct hearings to determine if a dealer is complying with the regulation, Mr. Rawlings said.

All Processed Food Point Values In Units Of Ten

After October 1 the little blue tokens used in purchasing rationed processed foods will have finished their war job, and will be honorably discharged by the OPA.

Beginning this week blue tokens may be used only in units of

was the announcement made by the Sioux City OPA District Director, and he advised consumers that each blue stamp will represent ten points, regardless of the number appearing on the face thereof. Effective September 17 the principal blue point canned foods remaining on the ration list will be canned fruit, canned juices, canned tomatoes, catsup and chili sauce, all of which, the Director said, would have higher point values. For example, the No. 2 1/2 size can of peaches whose point value was 43 is now 80 blue points.

INSPECTOR FRANK MAGOLAN
KEEPS THE "400s" ROLLING
WHILE HIS 4 SONS FIGHT

When a sleek, streamlined "400" stops at Milwaukee to discharge or take on passengers, it's more than likely that Frank Magolan is a member of the efficient crew that inspects the cars of this famous train. Frank has been a "North Western" car inspector for years—an alert, keen-eyed workman who prides himself on doing a thorough job.

Frank's thoughts, these days, are largely with his boys, especially the four in service. Harry, the oldest, is the family's representative in the Navy—he's an aviation radio technician. Raymond and Arnold enlisted for service with the Marines. Raymond is somewhere in the South Pacific; Arnold at present is at Pearl Harbor. Corporal Jerry favored the Army. He first went to Africa, then saw service in Sicily, then moved on to Italy where he was seriously wounded in the Battle of Cassino. He's now recuperating in this country.

Wonder if you feel as we do about the Magolan family. Somehow they seem to exemplify the spirit of the thousands of other families whose boys have gone into service. While the older folks are doing what they can on the home front, their uniformed sons are overseas, moving determinedly forward toward victory. "North Western" families are represented on fighting fronts all over the world. To say we are proud of them is putting it mildly.
