aware of the opening of the pheasant season, with the rising of the sun Saturday morning. Cars from many counties and a few bearing out-of-state licenses are seen driving slowly up and down the sand hill roads in search of ther "Feathered Friends." Sometimes we have to smile to see the hunters pass slowly along, and then see a cocky rooster pheasant strut quietly across the road behind them and disappear into the thick cover of brush at the roadside. Some folks can brag that they have bagged their limit, and others simply report

that they have been "Hunting."

While on his annual visit to his children, in Wyoming, a short time ago, Mr. Richards went hunting and was fortunate enough to kill a fine young deer, hence the celebration. The two long tables in the dining room were beautifully arraigned with the Hallow'een colors and hunting scenes on place cards designed by Patty Carson. The dinner was a masterpiece of culinary art. Walt was ably assisted by Mrs. Reed Bell, Mrs. Clarence Tibbett, Mrs. Walter Mordthoest, Mrs. Clarence Wyant and Mrs. Jane Robertson. Leonard Thomizan acted as toastmaster and Mrs. Tibbett gave an interesting talk on deer hunting. The guests long tables in the dining room talk on deer hunting. NEBRASKA families served by Consumers Public Power District, day by day, realize the additional benefits made possible by Nebraska's own state-wide electric system. For, while providing an efficient and dependable electric service for thousands of Nebraska homes, farms and industries, Consumers Public Power District has made possible savings of more than \$869,000.00 per year for its customers who are the owners of this great state-wide electric system.

Yes, even while other costs have increased sharply, electric rates in virtually every community served by Consumers have been reduced.

Owned By The People It Serves

At Bat With the Bases Loaded

In the 1944 livestock production "game," the farmers and ranchers of America are certain to win another pennant for patriotic effort by an even wider margin than in 1943. An "official box score," with figures showing the numbers of livestock slaughtered in all meatpacking plants operating under federal inspection, tells the story:

STATE-WIDE RATE STANDARD-IZATION BENEFITS NEBRASKA

COMMUNITIES ALIKE

Equalization of electric rates

throughout Consumers inter-connected state-wide system has

made available the same low rates for communities in com-

parable population groups.
This standardization, along with bringing additional savings of more than \$415,000.00 per year, will enable communi-

ties in the various groups to benefit alike from future re-

ductions.

1943 Totals 1st 7 months of 1944 (Increase over same months of 1943) (An all time Hogs-63,431,000 30.3 per cent Lembs-23,363,000 3.3 per cent Cattle-11,727,000 24.3 per cent Calves - 5,209,000 55.9 per cent

During these first seven months of 1944, the meet-packing industry often found itself "at hat with the bases loaded." So many aminals arrived that facilities for the handling of livestock and preparing of meats were taxed to the limit. When the bases are full, the batter is under a strain. Like the batter, Swift & Company found its capacity strained during the heavy marketings. In spite of this, however, we have bought and handled more livestock than in any similar periods in our history. This was done even with the shortage of experienced help, difficulty in obtaining containers and of finding storage space with coolers already filled to the doors.

We did our best "hitting in the pinches" by buying several days' supply of livestock ahead of slaughtering capacity. This was a costly practice—but an essential one.

We are proud of the meat production records of 1943 and 1944. We had a hard job to do and we did it! But the greatest share of the credit goes properly to our team mates, the producers of livestock. For we know that these outstanding records were made under difficulties and are the result of hard work on their part, long hours, and extra effort all the way around.

SWIFT & COMPANY CHICAGO 9, ILLINOIS

Livestock prices are the result of competitive buying by 3,500 meat-packing plants in the United States and 22,500 other concerns and individuals who slaughter livestock commercially.
