P. BUGINSO Begarde on Our War With Japan

The Sixth War Loan marks a new turn in the war both on the fighting and the home fronts. It points our tremendous war effort definitely in the direction of the Pacific. During make her home here with her the first five war loans Americans were primarily thinking in mother, Mrs. Elsie Slattery. Mrs. E. J. Huebert and daughterms of beating Hitler.

Now our government asks us for a loan of 14 billion more dollars of which five billion dollars must come from indi- where they spent several days viduals. Why? Haven't we nearly finished off our so-called on business Number 1 Enemy? Can Japan hold up our powerful war machine very long? Your son, brother and friend in his Pacific foxhole wouldn't raise such questions because they are up against realities, not day dreams. They kill or are killed. They pray every waking moment for a sky-darkening cover of Ardell Bright returned last Satagainst realities, not day dreams. They kill or are killed. They triendly planes. They thank America for giving them the finest medical care in the world when their rendezvous with finest medical care in the world when their rendezvous with destiny in a Pacific jungle is at hand. They know the war with had spent several days visiting his parents, Mr and Mrs. Raymon the Japs is just beginning.

Here are some other Pacific realities so that you will understand why there must be a Sixth War Loan and why it is absolutely necessary that it be a success:

The Allied Military Command has estimated that it will take years, not months, to lick Japan.

Japan's present army numbers about 4,000,000 with 2,000, 000 more men available and fit for military service who 000 more men available and fit for military service who haven't been called up to date. Another 1,500,000, between and other relatives and friends. the ages of 17 and 20, are not yet subject to the draft.

The Jap Air Force is growing.

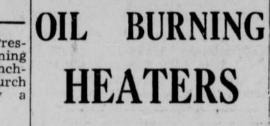

In addition to millions of native workers, Japan has a potential slave force of 400,000,000 conquered people. 50% of Japan's labor force is made up of women. Another 25% boys and girls under 20, the balance men. The Jap workday is twelve to sixteen hours with two days off a month. The Jap cannot leave his job, change it, or strike. The highest daily wage equals about three American dollars-30% to 75% of which goes to taxes and compulsory savings.

The Jap, as our men in the Pacific know, will fight to the death. As far as the Jap is concerned, the outer Empire-and the men who defend it-are the expendables. The Jap will fight the Battle from inside the inner Empire.

The Jap believes that we shall weary of war too easily and too early.

In the invasion of France, supply ships had an overnight run to make. In the coming Battle of Japan, ships in the Pacific will have long-reached round trips that often take five months to make.

These realities are worth thinking about before you keep your home front rendezvous with a Victory Volunteer. Perhaps you will feel that the national personal Sixth War Loan objective—purchase of at least one extra \$100 War Bond— is entirely too small for you. The better we face the realities confronting our forces in the Pacific the quicker the whole bloody business will be over and the sooner we will welcome home our fighting men. That's an American reality to work for with all our dollars and our sweat.

Miss Patricia Scott spent the week-end in Atkinson visiting her parents and friends.

Glen Tomlinson had the misfortune to pick up several stray shot in his side and arms while out duck hunting with Fred Lowery Monday.

Mrs. George Davies left last Fri-day for her home in Deer Trail, Col., after a two weeks' visit here with her mother Mrs. Clara Rockey Imp. Co., They had crawled up on opposite sides of the pond, where there were a flock of ducks. When the ducks rose they started shooting, with the result that Glen picked uup four stray shot. Finley dressed the wounds, which are not very serious.

To the People of this Community

Five billion dollars of the 14 billion dollars our country needs to press the war against our ene-mies must come from individual

investors. That sounds like, and is, a lot of money. Actually success or fail-ure of the Sixth War Loan is up to each individua American. Every war loan has been oversubscribed

because Ameri-cans by the mil-lions have shared its responsibility. Americans such as you have recognized the need of extra War Bond purchases over and above their normal payroll sav-

above their normal payroll sav-ings. There is no such thing as a little fellow in a War Bond drive, Your War Bond purchases, mul-tiplied by the War Bond pur-chases of your friends and neigh-bors, become fighting power which saves lives of Americans on the battlefronts and brings ins-nearer our common objective.
