

NEBRASKA WAR PLANTS HELP BOMB TOKYO

Major General L. N. Campbell, Jr., chief of ordnance, told WMC directors that industry had achieved miracles of production in this war.

"It is the policy of all American generals to apply firepower by means of thousands of tons of bombs and high explosive shells to win victories and to save the lives of our fighting men."

J. R. Kinder, state director of the War Manpower Commission, says that "When General MacArthur invaded the Philippines, he made it hot for the Japanese."

Nebraska played a big part in putting General MacArthur in the Philippines. Let's continue to pave the way for him on the road to Tokyo.

American workers, facing the battle of licking the axis production system, should know something about their personal enemy, the Japanese workman.

Just as Berlin has been the target in Germany, Tokyo is the target in Japan. It is far larger than Berlin, with a population of more than seven million.

METHODISTS OF CHAMBERS TO HELP IN CRUSADE

Methodists of Chambers are being called by the Rev. William C. Martin, bishop of the Methodist church, to take part in raising \$25,000,000 for world relief and reconstruction.

The local appeal, for which the goal is \$487, will begin February 11th, Rev. Dawson Park, has announced. The Methodist congregation is part of nearly 8,000,000 members of 41,000 churches in the United States who are participating in the four-year, five-fold crusade.

14 PER CENT DROP IN TRAFFIC FATALITIES

The Nebraska Safety Patrol has announced that a splendid reduction in traffic fatalities has taken place during the past year.

Over 26,000 motorists, who made violations which make up the causes of most accidents, were given warnings, violation or "must repair" cards or—in flagrant cases—were arrested during the past year of 1944 by the Nebraska Safety Patrol.

High in the patrol's 1944 activities were the 15,053 violation or "must repair" cards given motorists for faulty equipment. Faulty head and tail lights made up most of the equipment violations.

Written warnings for dangerous driving practices were given 4,455 other motorists. Motorists in distress, also received the attention of the patrolmen with 11,620 being given various forms of aid.

In addition to helping or warning all these motorists, the patrol also arrested 6,516 violators who disregarded their own safety and that of their fellow motorists by making dangerous violations. Heading this list, were 1,347 speedsters, 611 who were too reckless, 520 who didn't believe in "stop" signs and the 421 who forgot that driving and drinking don't mix.

The patrol recovered 117 stolen cars which have an estimated value of \$71,443.

Through the efforts of the patrol, Nebraska and outstate truckers paid \$86,637.62 in tonnage fees to the county treasurers.

With \$50,208.49 in fines which went to the common school fund, brought the valuation of the patrol's activities to \$208,289.11.

To complete the activities of the patrol, several hundreds army convoys were escorted over Nebraska highways by the patrol. This included military personnel, wrecked planes and explosives.

W. P. B. Orders Restriction Of Certain Lighting Effective Feb. 1, 1945

Important Notice To Electric Users-

The War Production Board has requested us to notify you of the issuance of Utilities Order U-9 prohibiting certain uses of electricity. The purpose of the Order is to save scarce fuels used in the generation of electricity as a part of the over-all wartime fuel conservation program of the United States Government.

The uses of electricity which are prohibited under paragraph (C) of the Order are:

- 1. Outdoor advertising and outdoor promotional lighting. 2. Outdoor display lighting except where necessary for the conduct of the business of outdoor establishments. 3. Outdoor decorative and outdoor ornamental lighting. 4. Show window lighting except where necessary for interior illumination. 5. Marquee lighting in excess of 60 watts for each marquee. 6. White way street lighting in excess of the amount determined by local public authority to be necessary for public safety. 7. Outdoor sign lighting with limited specified exceptions which you will note in the Order.

You will wish to comply fully with the Order and we urge that you undertake immediately whatever arrangements are necessary to be sure that you do not violate the Order when the mandatory provisions become effective on February 1, 1945.

Any consumer who violates the Order is subject to penalties prescribed by Federal Law which may include the discontinuance of electric service at the direction of the War Production Board. Under the terms of the Order we must report to the War Production Board the name and location of any consumer who refuses to discontinue a violation of the Order.

We have been requested by the War Production Board to urge your immediate voluntary compliance in eliminating your uses of electricity which are prohibited effective February 1, 1945. The Board has also requested that we urge upon you maximum conservation in your uses of electricity.

This notice is published in compliance with instructions from the War Production Board and constitutes official notification.

A limited number of copies of the complete order are available at our office
