POWER
Owned By The People -
Serving The People
Consider the many advantages which have come to Nebraska since the advent of Public Power. Through unified operation of Nebraska's power facilities welded into an efficient state-wide system owned by the people, each community enjoys the benefits of mass production and distribution. Economies and efficiencies resulting from this integration have brought constant reductions in electric rates and improved service for Nebraska electric users.
The abundant supply of power available through this state-wide system, coupled with Nebraska's hydro generating plants, has enabled vital industries to locate in Nebraska—bringing more progress and more opportunities to Nebraska communities.
Owned by the people and operated for the people on a cooperative, non-profit basis, the state-wide system of your Consumers Public Power District brings to the people themselves the benefits of the state's combined power facilities.
Ample Electric Power
for Better Living and
Industrial Progress.
