**"The Up and At It"**

The "Up and At It" 4-H sewing club was reorganized, Friday, March 1, at the home of Doris Pierson.

The girls elected the officers as follows: Twila Whaley, president; Doris Pierson, vice-president; Donna Whaley, secretary; Helen Johnson, song leader; Helen Bowden, news reporter. The leaders are Mrs. Lloyd Whaley, leader A; Mrs. C. M. Pierson, leader B.

There are nine girls in our club, Margie Hungaryford is a new member. All of the girls plan to do part of the following: "Learning to sew," "Home making," "Summer wardrobe," "Problems in room improvement," "The room, a place to live."

The next meeting is to be held at the home of Glea and Helen Bowden, Sunday, April 8, at 2 o'clock p. m.

The meeting was adjourned by Twila Whaley, president.

After the meeting a delicious lunch was served by the hostess.

**CLUB REPORTER.**

**Fewer "Hands" Make Heavier Work!**

**BUY WAR BONDS**

**SPRING brings a new lamb crop to the western ranges—and a new crop of wartime problems.** For instance, experienced lambing crews are increasingly hard to find. But in spite of fewer hands and other difficulties, millions of lambs are being dropped and raised to provide the nation's wool and meat. Beyond the "romance" of sheep ranching lies a great deal of hard work. When early lambs arrive in wintry weather, there's no time to be lost in moving them from the "drop corrals" to the lambing shed. Chilled lambs often must be revived in heated incubators. It's not unusual for a good "night man" to "lamb out" 125 ewes in a night—and that is work. There's the feeding and, later on, trimming, docking, bunch herding, shearing, and finally the trailing of the bands to the summer ranges in the high mountain country. And always herders must be on the alert to protect their bands from coyotes and other predatory animals. Yanks are the best-fed, best-clothed fighting force in the world. They know the comfort of warm wool uniforms. And nutritious lamb has helped prevent meat shortages at home. Sheep ranchers, like other livestock producers of the nation, deserve the thanks of a grateful America.

Ideas, special tools or gadgets which have helped you in your farm or ranch work can help others. We will pay you \$5 for each one you send us which we publish on this page. Address: Agricultural Good Idea Editor, Swift & Company, Chicago 9, Illinois. We cannot return unused items—sorry.

**Martha Logan's Recipe for BARBECUED SPARERIBS**

(Yield: about 6 servings)  
3 lbs. spareribs      ¼ cup mustard catsup  
1 onion             1 tsp. dry mustard  
¼ cup vinegar       ½ cup water  
¾ cup tomato juice   1 lbs. paprika  
2 lbs. brown sugar   ¼ tsp. chili powder  
1 tsp. salt            ¼ tsp. cayenne pepper

Cut spareribs in pieces. Brown lightly about 10 minutes. Dice onion and combine with all other ingredients and simmer 15 minutes. Pour over browned spareribs. Cover. Simmer or bake in a moderate oven (350°F.) 1½ hours. Remove cover. Baste ribs. Cook about 15 minutes uncovered.

**WHAT'S HAPPENING TO THE MEAT SUPPLY**

**WE** are faced with a serious shortage of meat for the civilian population. The current meat situation is not peculiar to any local area. The problem is national in scope.

**LARGE DECREASE COMPARED WITH LAST YEAR**  
Government figures indicate a decrease of 38% of civilian meat supplies is expected during this quarter (January to March, inclusive), as compared with a year ago. The decrease will vary on the different types of meats.  
It is also estimated that during the second quarter of this year (April to June, inclusive) a decrease of 35% is expected.

**GOVERNMENT REQUIREMENTS**  
Few people realize how much beef, pork, lamb and veal must be set aside by meat packers operating under federal inspection to be purchased by the Government for the Armed Forces and for Lend-Lease. As of February 20, 1945, we are required to set aside:  
**BEEF:** 60% of choice, good, and commercial steers and heifers, except extremely light weights.  
70% of all utility steers, heifers and cows.  
80% of all cutters and canners.  
**PORK:** 50%, approximately, of dressed weight.  
**LAMB:** 75%, approximately, of production in accordance with recent order.  
The Government is also taking a large proportion of Swift & Company's lamb and veal production:  
**LAMB:** 40 to 50% of choice and good lambs.  
**VEAL:** 50%, approximately, of choice, good and commercial veal produced within specifications.

Whether these percentages will continue at the same level throughout the year cannot be foretold. The above percentages are as of February 20, 1945. Consumer misunderstanding and dissatisfaction also arises from

**HOW THE DOLLAR IS DIVIDED**

There's an old proverb, "One picture is worth a thousand words." So I decided to draw this month's column instead of writing it. The picture is below, and it tells this story... 75 cents (on the average) out of every Swift sales dollar goes to agricultural producers for their cattle, lambs, hogs, etc. And 11c out of every dollar goes to the people who work in Swift plants, preparing those farm and ranch products for market. Transporting meat, etc., an average of 1,100 miles from producer to consumer takes another 2c. But, after all, the picture tells the story better than words of mine. Few businesses operate on such a narrow margin—few return such a large slice of their sales dollar to the suppliers of raw materials.  
**F. M. Simpson,**  
Agricultural Research Dept.

**HERE'S WHERE THE DOLLAR WENT**

**What do you know!**

- Which is the "best-fed, best-clothed" fighting force in the world?
  - What share of the average Swift sales dollar did producers get in '44?
  - How are chilled lambs revived on a modern sheep ranch?
- Answers to these questions may be found in articles on this page.

**Utah Sergeant Wins Silver Star**

Sgt. W. L. Stander, rancher from Promontory Point, Utah, admires the helmet that saved his life. He was wounded on the ill-fated USS Chicago by a strafing Jap plane. But he won the Silver Star for sticking to his gun without thought of personal safety.
