LEND A HAND, NEIGHBOR, IN THE biggest clearing job in the world!

The "tank-dozer," one of America's mighty new weapons that has cleared the way for our fighting men from the hedgerows of Normandy to the jungles of Luzon

Let's talk turkey.

Today your country is asking you to buy War Bonds—twice as many as you did last time—in the biggest and most urgent War Loan of all . . . the Seventh.

Why so much more than you bought before?

Here's why: Up to this time last year there had been two war loans. This time, the Seventh War Loan must do the job of two.

And because the cost of the war is just as great, the money you put into War Bonds in one loan now must equal what you put into two last year.

Sure, a lot of optimistic people are saying, "Look at what's happened in Europe!"

They don't stop to think that regardless of Germany's condition, we at home must keep sending our millions of men in Europe tons and tons of supplies daily.

They don't realize how much money it takes to pay for the care we must give our thousands of wounded

... money for medicines, for hospital ships, for months of careful nursing and rehabilitation in hundreds of convalescent hospitals.

And in the Pacific—well, we've at last got into position where we can really start harvesting the seeds of victory our fighting men have planted.

We've got to lend those men a hand, right now, by loading more ships with more supplies, more guns, more tanks, more shells, more food than ever went across that broad ocean before.

That's why our country is asking that you back up our soldiers and sailors, among them millions of farm boys, who are fighting and dying far from their homes and fields . . . back them up by buying twice as many bonds as you did before.

WAR BONDS PAY OFF IN THESE 7 WAYS:

- 1 The same Government security backs your War Bonds as backs the actual dollars you put into them.
- 2 You get \$100 at maturity for every \$75 loaned now.
- 3 You can get your money back, 60 days after issue date, any time you need it . . . in the meantime you get safety and steady growth.
- 4 You have a backlog to renew farm buildings and equipment after the war.
- 5 Bonds will insure your children's future, or provide for your own security, travel, retirement.
- 6 Bonds go into a national nest egg that will help to assure post-war prosperity.
- 7 Bonds transform your love of home and country into action . . . you join personally in the biggest, most urgent War Loan of all—the Seventh!

TRADE YOUR FOLDING MONEY FOR FIGHTING MONEY

penborg Tuesday night.

CLASS POEM

We entered school twelve years ago

Tiny tots with eyes aglow

We passed our grades to dear old High

And now those days will soon be by.

Nineteen seniors we find at last

In this, the Chambers Graduation Class.

A brief word about these mighty few

So you may learn to know them too.

Marie and Max, a darling pair

Are seen times walking, you know where

Then there's Jim a handsome guy

Who changes girls almost every

night.

Arline and Ray seem to do O Kay

He takes her home the longest way.

While Luetta waits for a certain soldier

We find her on another's shoulder.

Jean and Bernard we mention too

Boy oh boy can they pitch the woo

Dorothy is still trying to make up her mind

And Virginia's dying to beat her time.

Don and Leslie we must say

Are two grand kids, and that "ain't hay."

Lon Pichler, well he's all right

He does his wolfing late at night.

Here's to Marilyn, oop I mean Mert

She's strictly on the beam and never flirts

Doreen and Violet we can't pass them by

They take their dates on the sly.

Doris, we find, has a winning way

And always stays cheerful during the day.

Eddie, that neat looking lad

Umm—take another look, he's really not bad.

Last comes yours truly making the class complete,

Who in trying to write this poem

Lost hours of sleep.

So with these parting words I bid thee adieu

And now I can sit down, signed Mary Lou.

—Written and given by Mary Lou Spath.
