**It's a 50-50 proposition**

Right after the ceremony, adjustments begin. Joe starts to learn how to get along with Jane and Jane to get along with Joe. Small sacrifices on both sides pave the way to a happy marriage. (Just as they do to good relations on a party line.)

Jane learns not to monopolize the conversation. (Party-liners avoid making a long string of calls in succession.)

Joe finds that Jane hates to be interrupted. (Party-liners never break in when the line is in use.)

Jane senses that Joe is bored with a long story of household difficulties. (Party-liners keep their calls short and to the point.)

Joe locked Jane out—once!—by forgetting to leave the key under the mat. (Party-liners make sure the receiver is in place so they don't "lock out" the other party.)

And so on. Practically everybody wants to make these small adjustments and practically everyone does.

**NORTHWESTERN BELL TELEPHONE COMPANY**

Ever try to Draw A KILOWATT?

1 Kilowatt = 1000 Watts  
 746 Watts = 1 H.P.  
 1 Kilowatt = 1.254 H.P.

We can't show you what a kilowatt looks like but we can tell you what a kilowatt of electricity means to you. Converted into terms of service, one kilowatt of electricity is equivalent in energy to that of approximately one and one-third horses. Thus, one kilowatt of electricity, operating your electric appliances for one hour does as much work for you as a horse working one hour and twenty minutes. The more efficient your electric service and the better condition your appliances are in, the more real service you receive from the electricity you buy.

The purpose of your Consumers Public Power District, operating throughout Nebraska, is to bring to Nebraska and Nebraska communities... the greatest benefits possible from its state-wide interconnected facilities. While providing complete and dependable service for every electric need, your Consumers Public Power District has constantly reduced the cost per kilowatt-hour throughout the Nebraska communities it serves.

**CONSUMERS**  
 OWNED BY THE PEOPLE IT SERVES

Serving Nebraska from border to border, Consumer reduced the cost of electricity through Nebraska more than \$917,000 per year.

 Message of the Week

You hear a lot of post-war talk  
 On how this world should run,  
 When our global war is over  
 And victory has been won.  
 But I've a different post-war plan  
 Idle talk I do not waste  
 I pace down to the Post Office  
 And buy War Bonds posthaste.

This week I disinfect my laying house again. It was quick and easy though, with Dr. Salsbury's PAR-O-SAM, so I do it often. Then just before roosting time I spread Dr. Salsbury's NIC-SAL on the roost to kill the lice. It's so effective and no work at all.
