and everything else to make the country

Here is what the News says about it: "Governor Furnas seems to be fully vindicated from the charges against his have the matter put as strongly as pos stegrity involved in the Herald-Furnas about his having received \$3,000 for his that justice will be done in the matter, vote; and B. P. Rankin confesses to having abused Furnas' confidence and friend-hip, and that he dishonorably State. used Furnes' name without his knowledge, to make money for himself. The State Journal publishes the documents in full; and we are glad, for the credit Red Cloud Mills. of our State and the feelings of Governor Formes, that he has finally and fully cleared from the unjust imputations which we, believing them true, beloed to beap upon him May be Furnas isn't L'Uoli BEHE, a perfect saint; but that apparent blotch upon his good name is clean wiped out, anyway, and right gladly do we publish

> gratulations. Cottonwood Cuttings.

Persons intending to plant cottonwood cuttings next spring, and who have not yet secured them should do so without delay. Though cuttings taken from the tree in the spring and planted immediately, will of en do well, especially it very early planted—yet they are much more certain if cut in the fall or winter. In procuring cuttings, it should be rememered that whatever habit of growth a tree may have, cuttings from it will produce trees of the same general habit. That is, if a tree has straight limbs sym metrically placed, producing a well balanced top, outtings from such a tree will tend to preduce hand-ome, symmetrical trees. On the other hand, cuttings from crooked, dwarfed or unsymmetrical trees will be likely to result in unsightly trees. Cuttings should be taken from wood of

buried in the ground, below the reach of frost, and where water will not stand

around them. Cuttings should be planted as soon as frost is out, and the ground so dry as not to be injured by pressing the ground H. O. HOUGHTON & CO., together around them. Making cuttings fifteen to eighteen inches long, and put them in the ground so that but two or three inches remain above the surface. pressing the earth tightly about them.

If these directions are carefully followed there will be no danger of failure .-Lincola Journal.

FROM HON. J. H. NOTEWARE we and to satisfy our own curiosity in the have received a roll of circulars, baving matter, we would like to know if it will thereon a letter from 'Hon. W. A. do to take off cuttings while in a frozen GWYER to the Omaha Bee, discussing condition. ## To The Farmers.

All transportation is a waste, and the further the transportation the greater the waste. And the worst of it is the tact that the loss all falls on the producer. The exporting country most in all cases submit to the market of the foreign country to which it sends its products. The former who must have money sells his hay crap, sells his corn crop, sells his corn crop, sells everything off his land. But the farmer who has capital feeds his hay to cattle, his corn to hogs, and converts all his valuable corketable substances. The one impoverishes his land and squanders will fureish Historical and Social Studies. one impoverishes his land and squanders | Japanese Sketches and Stories will be told by two thirds of his products in transportation, while the other, by the refining process, not only returns to the soil a large share of the strength taken from it in hay and corn, but, in his fat cattle and hogs, has compressed tons into hundreds of pounds weight, and thus reduced the east of the transportation of the products Inter Ocean.

## The Plains Life.

We take pleasure in announcing to Morrov has consented to paint the THE present prospect is that a larger Plains Life, and will write a book for that number than ever before will leave their purpose if the material can be procured old homes in the over-crowded Eastern to make it complete as a history of a re-States, to seek new locations in the West, continent, and attractive with the strange and that Nebraska is the great point of and tragic incidents of which it was so THE attraction, is conceded by all. terms of payment, &c. THE POLLOWING EXTRACTS R. Co., will in a measure, explain their

The purchaser can pay cash, or divide the amount into three equal parts, paying one-third down, one third in one year, and one-third in two years, with interes at ten per cent. annually; or he can have TEN YEARS' time in which to make up the sum by small annual payments at six per-cent, interest.

Most buy on this latter plan of TEN YEARS' CREDIT!

In which case the purchaser pays at the outset one year's interest at six per-cent- on the price. He makes three other payments, each of six per cent at the commencment of the second, third and fourth years. At the commencment of the fifth year, he pays oneseventh of the principal and one years Republican River interest on the remainder, and the same at the commencment of each successive year until all has been paid at the end of ten years. Any buyer can pay in full at any time and get a warranty deed free of all incumbrance.

Buyers on our long and generous credit of ten years, are expected to settle and improve their land at their earliest convenience, say within one or two yearsso as to improve about three tenths of the land bought, within three years from date of purchase.

Better terms have never been offered and probably never will be
