THE "Free Ferry" spoken of in the last issue in the Chief is a "snare," and the parties to whom it was let have gone back on their contract. Why is this? We have been informed that they could neither give the bond required, nor purchase the lumber and material necessary to build a suitable boat. We have to say, if they are not better business men than they have proved to be in this matter, it is certainly a good thing for our county that they have not put in the boat. They certainly need a new stock of brains, or more money. Brains would be a great addition, as a medium supply would keep them from taking contracts that they could not fulfill. We hope this matter of ferry or no ferry will be settled at the next meeting of the Board, and if a contract is let again, we hope that it will be to responsible parties.
