**LOCAL MATTERS.**

Notices in this Column 10 Cents a Line

A Mr. Hart is building on his lots north of town.

Nice weather for corn husking yesterday and today.

When you haven't anything special to do subscribe for the CHIEF.

Come home papa and don't talk to those naughty editors, for if you do they will make you subscribe for the CHIEF, and then our Brid. etc. will do nothing but read all the week.

How's this? says one "you have the reading matter scattered all through the paper. It don't make any particular difference though only it hurts the eyes of the paper."

This is a little behind time but in future we will try and be more prompt.

J. D. Post has completed the addition to his dwelling house, and when he gets it painted it will be a new edition of the Siamese Twins in disguise.

Wanted immediately, a good girl to do general house-work. Inquire of

C. W. SPRINGER

K. K. Daily on the Little Blue says he has the largest barn in Adams county.

The gentle zephyr's air lifts one's hat from his head and deposits it tenderly and carefully on nearest house-top, making one sigh sadly despondently and think of stern, relentless fate.

Several of our state papers made favorable mention of the Webster Co. exhibit at the state fair and among other things, made special note of A. B. Pierce's "Grass-hopper."

It is always customary for Fresh Fish in the editorial line to relate their first traveling experiences, amateur Bay and Tapers you know, so here goes TRIP TO HASTINGS. We, half of us, went to Hastings on 21st. We returned to Red Cloud on 1st inst.

The latest advices from the Eastern war report that the Russian army contemplates establishing winter quarters in Ekaterin.

The President appointed Thursday November 29th as a day of Thanksgiving and Praise. Can't some one of our clergy be induced to give us a sermon on that day?

Four twenty-four hour Brother of the Nuckolls County Herald keeps on throwing in that minion, case of the "Fighting News" till he pines it, 'till he'll die with him, for pined minion is fearful stuff to distribute.

Our enterprising merchant friend L. Baum, has been repairing his store and having a coat of paint put on the outside of his dwelling house. If more of the Red Cloud people would follow his example, the appearance of the town would be much improved and the painter would be happy.

Applies to the bolters and independent candidates that have come out in this and adjoining counties, there is some talk of an independent railroad coming in the Republican Valley, making Red Cloud its western terminus. "Come on, come all, this rock shall fly from its firm base as soon as the citizens of Red Cloud.

Winter called yesterday and left as a cord of the "Snow-flake" style. The finest turkey the brood read it and mournfully remarked, "It's snow, use to try hiding from a Thank giving fate for my tracks will discover me and like my European brother I will be serving (serving) Troop-rossed against my," and he sadly I was off, tear that had rolled down his back, while the hens looked on with chicken hearted fear and the ducks waddled round presenting their bills for quack medical advice.

Come in and see us when you have time—and take the CHIEF.

The full wing County Officers were elected,

L. H. Luce, Co. Comr.  
E. H. Jones, Co. Treas.  
J. A. Tulleys, Co. Clerk.  
J. D. Post, Sheriff.  
J. R. Wilcox, Co. Judge.  
W. E. Thorne, Co. Surveyor.  
A. A. Pope, Co. Supt.  
R. R. Sherer, Coroner.

The County voted against the bridge tax by a majority of fifty-six, and for Township organization by a majority of forty one votes.

Next week we will give an extract from the laws in regard to township organization.

Mr. Gilham, father of Senator Gilham arrived in town to-day.

Will the ministers of Red Cloud give us the result of their deliberations as to supplying the paper?

We retract what was said by Mr. Thomas in regard to charges for insertion.

Aside from a personal respect for religious and social notices, we feel it to be a matter of interest to many of our subscribers.

Marriage notices also, will be inserted free of charge hereafter, excepting of course, a piece of the cake.

An unwelcome visitor in the shape of an earthquake shock called on the good people of New England New York and Canada, while they were yet in their beds, on last Sunday morning. The shock began at two o'clock A. M. and lasted for forty seconds to fifteen minutes. Bells were rung, glass and furniture broken and the people generally shaken up.

The building just south of the Court house, owned by Gov. Garber has been undergoing repairs recently.

Wisner, this state, and Kearney have both had large and disastrous prairie fires. Houses, barns, stacks, trees, and hay melted down like wax before the flames. Let our people beware!"—Central City Courier.

The prairies around Red Cloud are covered with a heavy growth of grass which, matted by the frost dried by the winds, is so much under, and a spark of fire fall from a pipe or a lighted match thrown carelessly away, will envelop your little city. As all are aware, the town is utterly without protection in the way of fire-guards. With the experience of former years before us and the fate of Wisner and Kearney staring us in the face, it behooves us to act, and that immediately. Let some one call a meeting and all attend, for the purpose of determining what is to be done and how to do it.

In Greece, they fire a man \$10 for sitting on the floor of a church, and the rigid enforcement of the law has driven nearly all the male church members to the inconvenient necessity of raising one end of the cushion and sitting on the seat.—E. J.

You don't fool the sexton that way in Red Cloud. He sees to it that the seats have no cushions.

Church Hows, Esp. master of the State Grange of Kansas, and one of the most extensive hog raisers in the State, keeps his wine clear of worms by feeding them once a week charcoal saturated with turpentine.—Agricultural Ex.

Church Hows don't live in Kansas, there's lots of fellow in Neb. wish he did though.—Neb. Herald.

The great famine in India yet continues, and a period of at least four months will elapse before it can end. Humanity and civilization have been vindicated in the prompt action of the British people to relieve the sufferers. Everywhere banks and corporations, churches and benevolent individuals have given liberally. "The Mansion House fund" alone has reached the sum of £588,000.

We note in the Herald that Miss Maggie Follmer, a prominent teacher of Nuckolls Co., refused to become a candidate, at the Republican Co. Convention, for the office of Co. Supt. and now declines the nomination tendered by the Democratic Convention. We think that if Miss Follmer had accepted of the nomination she would have made an excellent official. Having a personal knowledge of many lady Supts., we have this to say in their favor, that they make more efficient and thorough workers than men do, as a rule, and they are not so apt to have compassion on the blushing cheek and faltering tongue of arful, ignorant girls.

The Select and Normal School closes its first term next Thursday. The interest in the school has been increasing from the start, and the prospect for a large class this winter is very flattering. Next term begins Dec. 11th.
