### OUR NEW BANK

We trust our friend, Smith Bros. A Thompson will accept a pology for not giving their enterprises extended notice earlier. The feet to many new and important schemes are daily coming to light in our midst, we find it difficult to keep pass with the rapid progress that is being unde.

This institution indicates more plainly than any which has preceded it, the prosperous condition which we as a town and county enjoy. When ever you find capital seeking investment there you find a good state of affairs financially. The fact that this Bank is the only one in the whole Itepublican valley, may well be considered a compliment to Red Cloud and Webster ounty, at the same time, it shows sagacity and foresight on the part of Smith Bros. & Thempson which to our mind is very commends-

In a recent interview with these rentlemen we gethered some informa ion as to the plans they intend to follow, which if carried out, will not only insure them success, but will add very greatly to the development of this portion of the state.

They propose to loan money at the legal rate of interest, making no discrimination between the farmer and the business man. The farmer can borrow as cheaply as the mercuant; and the same in regard to deposits, the farmer will receive the same courteous treatment with his small deposit, as the business man whose operations are on a larger scale.

community, as beretofore, parties making remittances have been obliged to depend upon Post Office orders, or send entrepey at large expense and risk. Now you can step in at the Bank and buy your exchange in any amounts at triffing cost.

Time loans upon real estate is another branch to which they give a ecial attention. There are many formers in this county who came here, you might eay, without any means, but who have by patient work associaded in making an hopest living, have proved up on their homseteads and now with a few bandred dollars in hand to invest judiciously in young stock, can place themselves in a few years beyond the reach of want. Every man who owns a farm and has it paid for, if he lacks the personry cash to commence with his little s ock of cattle, bogs or sheep, can obtain it at the bank on five years time at a low rate of interest.

When we look about us and make comparisons with other towns and counties near by, we can understand how fortunate Webster county is in se caring this institution. Take Hasttugs for instance, if you obtain a short time loan at the Banks there they charge 24 per cent, and this is true of nearly all the banks in our small western towns.

In view of these facts we hope and trust that all our business men and farmers will appreciate these privileges by affording such encouragement as this enterprise deserves. We take great pleasure in placing before our readers from time to time there upmistakable evidence of progess. It is hardly necessary to say that with our Rail Road completed all the diff erent industries will be greatly multiplied . Is consection with this pubject we are glad to notice that the proposition is increasing in favor in the different parts of the county. Our boast has always been that Webster Co. contains as intelligent a class of people as may other county in the state, and we are convince that when they fully understand the situation, their decision will be an intelligent one; for in reality the beni are much greater to the people at large than to Bed Cloud or any perties ar locality.
