We think the croquet ground is a nice thing, but we think some of the business men should stay a little closer to their business, and not keep their customers waiting on them to finish their game, quite so often.

Town was somewhat frightened last week by a supposed mad dog; ran at the Col. and he mounted a barrel, next toward one of the store keepers who chanced to be standing on the street and he mounted the hitching pole, then he ran under the store. PETERSON'S MAGAZINE for June is already on our table, exceptionally bright and meritorious in every department. The principal steel engraving, "Among the Hills," is one of the rarest beauty. The double-size colored fashion plate, not but is also an exquisite picture. Then taking. there is a colored design for the cover of a blotting book, to be worked on black satiu, with gold and silver thread, after a Japanese desfgn, so pretty that every lady, we should think, would begin to work one at once. These colored patterns are a specialty of "Peterson:" no other Magizine gives them; they appear monthly and must be very expensive. The stories are unusually good, even for this Magizine, where they are always, as one of our co temporaries says, "of re-markable beauty." The "Work Table" department is particularly full. Nothing but its enormous circulation could enable "Peterson" to give so much for the money; it is incontestably the cheapest as well as best Magizine of its kind. Every lady should have it. Its price is but TWO DOLLARS a year, with great deductions to clubs. Specimens are sent, gratis, if written for, to persons wishing to subscribe, or to get up clubs, for "Peterson" challenges comparison between itself and others. Address CHAS. J.
