9:00	9:00
9:20 pm	9:20 am

Trains daily, except Sundays.  
A. E. Toussaint, G. W. Holdredge  
Gen. Manager. Supt.

## CITY AND COUNTRY.

Circus next Monday.  
Herd has moved into his new house.  
Ladie's suits at Mrs. Letz'. 5142  
A good rain last Saturday. It was needed.  
The festive house fly has made his appearance.  
Come in and see samples of Job work done at the Chief office.  
4th of July meeting next Saturday night at the Bank, all turn out.  
A few persons have gone to Leadville from here, in search of gold.  
We give almost our entire space, this week, to our correspondent's.  
The frost last Sunday night did not injure vegetation to any great extent.  
The street sprinkler has been somewhat improved and put to work again.  
Read the program of the 4th of July circus. John Berenzen, manager.  
Duffield & Co., are selling wall paper at reduced rates, call and get prices. 431f  
Ira Sleeper, the Shylock of the Valley, is selling farm machinery at Blue Hill.  
"Jake" Tyler has moved his implements to the vacant lots north of the Chief office.  
I. O. Martin is our authorized agent at Blue Hill, and will transact business for us at that place.  
T. J. Ward, of Cowles, was in town last Monday buying lumber to build a hotel in that place.  
The wind engine and tank are to be erected at once, we understand, over the well by the liberty pole.  
The Osborne Harvester received the first premium at the state fair last fall. 5w43  
An exchange says that the most useful pedestrian is the one who walks the floor at night with the baby.  
Miss Ida VanPelt G. W. C. T., will organize a district lodge I. O. G. T., in Red Cloud next Tuesday evening.  
We are indebted to somebody in New York for a free pass to Manhattan Beach, this month, and return. Can't go.  
Our "hefty" friend, McFarland has been appointed City Marshall, Street Commissioner and stock (im)pounder of Red Cloud.  
ICE! ICE!! ICE!!!  
Ice delivered to any part of the city by Evans & Clapp.  
Vint Ludlow, an old friend of the Chief, calls and pays front and back subscription money. Thanks.  
Friend Liddy is lonely now, his wife has gone to Sioux City Iowa, on a few weeks visit to friends.  
The Osborne Harvester, Kirby Light Mower and Wheeler Mower for sale by A. A. Pope, or Mitchell & Morhart. 5t  
It will soon be time for the chronic office seeker to take the "horny-fisted farmer" warmly by the hand and enquire affectionately after the health of his wife and babies.  
A set of brass horns have been purchased, a subscription having been taken up for the purpose, and now the "toot" of said horns may be heard "from early morn 'til dewey eve."  
Lost.—In Red Cloud, June 3d, a gold charm, representing a pair of ice togs. The finder will please leave the article at the Chief office and be suitably rewarded by O. Felker.  
We learn that Mr. Fritz Newhouse, brother-in-law to Geo. Geis, is erecting a building on the lots south of Parke's shoe shop, and will open up a stock of dry goods and groceries the present month.  
Rev. H. Bros, of Doane College, Crete, Neb., in company with Mr. J. Q. Potter, called on us last Tuesday. They kindly left us a catalogue of officers and students of the College, which we will examine when opportunity offers.  
Last Friday the country seemed to have slid a few thousand miles nearer the north pole, as the weather turned extremely cold for the time of year, and until last Monday a fire was very pleasant to sit by. There was some frost on Sunday night.  
We hope that one of our nearest neighbors, who is practicing on a brass horn, will soon make sufficient progress to be able to play a tune, or else give it up as a bad job. The infernal noise drives us to distraction, and is causing our hair to prematurely turn gray.  
Co-operation.  
The readers of the Chief will remember that a few weeks ago, there was a publication to inform the good people of Webster County, Neb., that there will be a co-operation meeting held near the Elm Creek mill in the grove commencing at 1 o'clock Saturday before the third Lords day in June. As there is some of our friends that think we are selfish, we wish to state that was not our intention; hoping that all such thoughts will be abandoned, and that all who hear of the meeting will come. Let him that hears come; whoever will may come and hear the good news of glad tidings.  
Joel T. Martin.

—We agree with Bro. Kenney that the notice which the Chief has deigned to give his paper has been of considerable benefit to it, and we are glad of it, and would suggest to Bro. Kenney that if he had on the start, displayed a reasonable amount of enterprise, by advertising his business in the Chief, we see no reason why he could not have run the circulation of the Argus up to 500 copies before this, but like many others who attempt to do business, he neglected one of the principal essentials—advertising—and consequently his progress has been slow. Now, in all kindness to you Bro. Kenney, we will offer a few words of advice, and hope you may receive them in the same spirit in which they are given. In the first place you are struggling to gain a foot-hold for your paper, in this county, you have for a rival in the business, a paper that has been established nearly seven years, and whose editor was one among the first settlers of this county, and who is acquainted with nearly everybody in the county, and proud to say that nearly all are personal friends. Now if you will devote your time to building up your enterprise and stop throwing mud at a cotemporary that would be glad to assist you in getting permanently established in business here, it would be better for you, you cannot build up your business by your puny attempts to pull down the Chief, you are only injuring yourself. Strive to forget (and pray that the people may forget) that you boasted on the start that you had come here "to enlighten this community." Stop boasting in your paper that you wear good clothes, the people in this country are not heathens, they do not form an estimate of a man by the clothes he wears. Instead of indulging in the disreputable business of mud slinging, you should treat your superiors in the newspaper business, with respect, and gain the confidence of the people by a straight forward honest course. Discard that egotistical, over-bearing manner, and in time you may gain some influence among this people whom you "came here to enlighten."  
—C. H. Kakenmann, the popular tonsonal artist, has just added to his establishment, an English hair clipper, which is a decided improvement over the old way of cutting hair with the scissors. He wants everybody to come and give him a trial. 4314  
—Miner Bros., have arranged the upper story of their store room for a clothing emporium, and have a first-class tailor constantly employed filling orders. This new feature to their constantly increasing business will add materially to their popularity, and we hope prove a bonanza.  
FOR SALE.  
Five good milk cows for sale by the undersigned, for cash or on time with security. John Berenzen, Red Cloud. 2w  
D. M. Osborne & Co.  
I recommend the Osborne Harvester to any farmer wishing the best machine in market. Mine works all right. 5w43 E. Shellham.

CIRCUS ON THE FOURTH OF JULY.  
The committee on amusements have engaged the domestic combination of American, European and Ethiopian Artists.  
1st Act. School riding; eight trained horses ridden through the most difficult evolutions of High School riding. Collation on horseback. Sabre fight.  
2d Act. The Cardiff Giant in his great Crowbar feat. The *Prædiligentia* or card trick. *Almanzor* the famous jumper introduced by Master Carl. Professor *Lasalle* the unparalleled fancy rider, and Shaksperian Clown will jump on a horse running *pleine carrière*. *Don Juan el Haranguero*.  
3d Act. *Pantomimes*. The shrewd Tramps. The horse thief of Mexico. Capture and execution. The Shoshone dance. *Maximilian Rena*, the famous Gymnast and Acrobat; his dash in the open air is wonderful to behold.  
4th Act. *Donna Anastasia* the great equestrian lady mounted on a dashing charger will clear a six board banstrade. Twelve trained horses, 42 performers; a striped Zebra performing in the ring.  
At 3 o'clock P. M., the band wagon followed by the whole force of performers will parade the streets of Red Cloud, and then proceed to the Circus Arena west of Miner's store. Admission free. Come all and see it; no bad language, wit and humor of a high order.  
The whole to conclude with the capture of Jeff Davis, who will then proceed to address the audience in vindication of the hotel management at Andersonville and Richmond. John Berenzen.

From Scott.  
May 31st, 1879  
Ed. Chief.—Local items are scarce in this vicinity about this time, the fact is, we are all to busy at work to find out what each other are doing.  
I understand that Herman Holcomb, a brother of J. C. Holcomb is with us again although I have not seen him as yet.  
The long talked of house of Mrs. Barker is now being built, it will probably be ready for the roof next week.  
Cultivating corn is the order of the day now, with all except A. Pletstoff, he has not finished planting yet.  
There was a new arrival at M. C. Falton's last Thursday morning. It is a boy and Mack is happy.  
Another game of base ball to-day between the Riverton and Walnut Creek boys and the Riverton boys got snuffed again for the third time. The Walnut Creek boys play them again next Friday at Riverton. A. O. W. M. A.

Maple Grove Farm.  
Webster Co., Neb. May 26th, 1879.  
Ed. Chief.—Our crop prospect was never better in this county; fall wheat is heading out and will do to ent the last of June. Early planted corn is up large enough to cultivate, we will begin to cultivate tomorrow morning. We have 50 acres of corn and it is put out in good shape.  
A great deal of prairie is being broken up this spring and put into sod corn. Spring wheat looks well and all of small grain generally looks well.  
I took a ride over the country with Mr. E. C. Williams (the representative of the Deere Harvester) last week and we found the farmers very busily engaged at their work. We passed the farms of Mr. Waggoner, Mr. Beacham, Mr. Mungor, and Mr. Richardson in Webster county, and from their to Mr. Boganreife and to Mr. Wm. Gates where we were very hospitable entertained for the night. After leaving Mr. Gates in the morning we visited several more of the most prominent farmers of Smith Co., Kansas, among whom were the Beardall boys who are good farmers and good citizens. Mr. E. C. Williams is looking up the interest of the Minneapolis Harvester works, and will soon locate at Red Cloud with a full line of implements and repairs, manufactured by the Minneapolis Harvester works, among which is the *Deere Harvester* one of the finest and best working harvesters ever put into a grain field. I would advise the farmers that want a good harvester and one that will not upset on rough land and one of easy draft, to buy the *Deere* and you will never regret it.  
Our Sabbath school is still on the increase; last Sunday our attendance was over fifty. Brother Hampton delivered a short lecture to the children last Sunday which was very appropriate to the occasion. D. S. Holvern.

South Guide Rock.  
Ed. Chief.—We are at present having weather admirably favorable to the growth of crops.  
We have so far only succeeded in obtaining the number of acres that twenty-seven of our farmers have in crop this year, the average is about 60 acres each, nearly one half of which is in corn.  
There is a great deal of breaking being done this season. Grasshopper plows are quite extensively used. The season for plowing corn is here, and cultivators are creeping out of their long resting places into the corn field.  
The schools in districts No. 4, 7, 18 and 46, respectfully taught by Mrs. Sarah Waggoner, Miss Ella Andrus, Miss Lydia Mungor and F. A. Cooper are prospering finely. The average attendance of the first three schools mentioned is about 20 scholars, of the last, about 30 scholars. FARMER.  
[We omit the remainder of the above letter partly because it is in reference to a law suit which is settled and should be forgotten, and in any event can be of no interest to the readers of the Chief, and partly because the letter is written in such a way that it has to be copied by the editor, before going to the printer.—Ed.]

Program of Sabbath School Convention to be held at Red Cloud, June 13th and 14th 1879.  
FRIDAY EVENING.  
Eight P. M. devotional exercises; In introductory remarks.  
Lecture. The value and influence of Sabbath schools in a new country by SATURDAY.  
Devotional exercises; Superintendent and Teachers meeting; Reports from schools; Query box.  
Paper. Teaching infant classes by Mrs. Cooper of Red Cloud.  
AFTERNOON.  
Devotional exercises; business meeting; discussion Old Testament lessons, are they as profitable as lessons from the New Testament; opened by Mr. J. A. Jury. How to teach prophecy and show its fulfillment in the gospel day opened by Rev. J. M. Pryor.  
Next Sunday's lesson by J. Q. Potter. It is hoped that every Sabbath school in the county will be represented at this convention. Come to give and receive good.  
By order Com.  
Since writing the above we learn that J. P. Gage, State Sec., of Lincoln, Y. M. C. A., and N. G. Hillis, A. S. S. U. will be present and take part in the exercises. The exercises will be held at the M. E. Church.

Masquerade Festival.  
At Court House Hall Friday evening June 6th, 1879, given by the young ladies of the Baptist society. Admission 15 cents. Refreshments extra 15 cents. It is the wish of the ladies of the society that as many as possible in attendance will appear in Masque, but all are invited to attend.  
A good social time is expected. Good music is arranged for.  
—Another arrival of new and rare green-house plants at Roby's. Call and see them. 2t

FOR SALE.  
A Fairbanks standard 2,000 lb., scales, in good order. Enquires at this office or of J. Berenzen, at the Brewery.  
—Flower pots and hanging baskets at Roby's. 1f  
—Sweet Potato, Cabbage and Tomato plants at Roby's. 2t

FARMER'S ATTENTION.  
I desire to commence hauling cattle about the first of May. Well prepared to give satisfaction. Terms, 20 cts per month, per head. Call on E. W. S. HARVEY, Head of Farmer's Creek. Invalle, Neb.

FINAL.  
Ed. Chief.—In your issue of the 29th inst., is an article from our worthy and highly esteemed postmaster, wherein he cracks his whip with surprising vehemence, and cannot lash Carlos sufficiently with his sarcasm, for daring to complain of general rudeness on the part of his Asst. Why so sensitive Mr. P. M.? Why this overbearing method of answering a simple protest? Do you expect to overawe or alarm one by overwhelming him with vituperation and contempt? A few words from you rightly directed might rectify largely the cause of complaint. You will admit that the duties of the Asst., are onerous and trying, and further, that no person not possessed of a fair share of patience, amiability of temper, agreeable manners, and able to refuse one a request without insulting him can give anything like general satisfaction. You find these qualities concentrated in your Asst., and are satisfied—the community must be. Carlos yields to the inevitable. He is not a man of war, but of peace, and were there a way open by which he might approach official dignity, and injured innocence, bearing in his right hand the olive branch, and in his left, his little bottle of soothing syrup, how humbly would he advance and heal the wounds he inflicted. And finally, should a patient public receive henceforth, even a little better treatment in the way of courteousness and civility, he will bear with commendable equanimity and resignation the reproach he may receive for his presumptuousness; and, if permitted, subside into that obscurity from which he so unwittingly emerged. CARLOS.

A. A. Pope, Red Cloud, Neb.  
Yours received; in reply would say you can rely on the Osborne Self-binding Harvester being the best machine in the market. I cut 100 acres with mine in 1878 at a cost of 25 to 30 cents per acre for wire; never had any trouble whatever. It will bind every time either tight or loose, large or small just as you want. The bands do not interfere with threshing in any way. Yours truly, 5w43 W. E. Thomas.

We have for sale the following tracts of land near Red Cloud:  
320 acres of good tillable land, 200 acres of which is under cultivation. Running water on the land, also a little timber, house, stables, etc. Price \$2,500.  
80 acres of fine land, 50 acres under cultivation, about 6 miles from Red Cloud. Price \$300. A bargain.  
Address, M. L. Thomas, Red Cloud, Neb.

ESTRAY NOTICE.  
Taken up by the undersigned living on Sec. 25, Town 4 Range 10 in Webster Co. Neb., on the 15th of May, one chestnut sorrel mare colt one year old. Also one dark cream mare colt one year in 5 weeks, both branded on neck with mane. The owner is notified to call, prove property, pay charges and take them away. G. W. FAARIS.

NOTICE.  
County Court, Webster County, Neb. In the matter of the application of Henry Jennings and Elizabeth Jennings his wife, to adopt their own, Sarah Estel and four year olds, minor child of Thomas Rowland and Mary Rowland, now Mary Nuckols. It is hereby ordered that Monday, the 9th day of June, A. D. 1879, be set apart for the hearing of said matter. All persons interested are hereby notified of said hearing, that they may attend and be heard.  
Witness my hand and seal of said County Court of Red Cloud, this 14th day of May, 1879. JOHN R. WILCOX, County Judge.

Mitchell & Morhart are agents for the sale of the "Peck Patent Chimney" which is much cheaper than chimneys made of brick, and are absolutely safe. These chimneys are made of galvanized iron. No soot will collect in these chimneys, consequently the danger to buildings from burning out of flues is obviated. Mitchell & Morhart, Red Cloud.

To Farmers.  
Farmer's who have good wheat for sale, will do well to take it to the Red Cloud Mills, as Messrs. Potter & Frisbie will pay the highest market price for good clean wheat. 29f

MONEY TO LOAN on improved lands. Apply to D. S. Coombs, at the Court House.

NOTICE TO TEACHERS.  
Notice is hereby given, that I will examine all persons who may desire to offer themselves as candidates for teachers of the primary or common schools of Webster county, at Red Cloud on the first Saturday of each month at nine o'clock A. M. sharp.  
A. A. Pope, Co. Supt.

Williams is looking up the interest of the Minneapolis Harvester works, and will soon locate at Red Cloud with a full line of implements and repairs, manufactured by the Minneapolis Harvester works, among which is the *Deere Harvester* one of the finest and best working harvesters ever put into a grain field. I would advise the farmers that want a good harvester and one that will not upset on rough land and one of easy draft, to buy the *Deere* and you will never regret it.  
Our Sabbath school is still on the increase; last Sunday our attendance was over fifty. Brother Hampton delivered a short lecture to the children last Sunday which was very appropriate to the occasion. D. S. Holvern.

Maple Grove Farm.  
Webster Co., Neb. May 26th, 1879.  
Ed. Chief.—Our crop prospect was never better in this county; fall wheat is heading out and will do to ent the last of June. Early planted corn is up large enough to cultivate, we will begin to cultivate tomorrow morning. We have 50 acres of corn and it is put out in good shape.  
A great deal of prairie is being broken up this spring and put into sod corn. Spring wheat looks well and all of small grain generally looks well.  
I took a ride over the country with Mr. E. C. Williams (the representative of the Deere Harvester) last week and we found the farmers very busily engaged at their work. We passed the farms of Mr. Waggoner, Mr. Beacham, Mr. Mungor, and Mr. Richardson in Webster county, and from their to Mr. Boganreife and to Mr. Wm. Gates where we were very hospitable entertained for the night. After leaving Mr. Gates in the morning we visited several more of the most prominent farmers of Smith Co., Kansas, among whom were the Beardall boys who are good farmers and good citizens. Mr. E. C. Williams is looking up the interest of the Minneapolis Harvester works, and will soon locate at Red Cloud with a full line of implements and repairs, manufactured by the Minneapolis Harvester works, among which is the *Deere Harvester* one of the finest and best working harvesters ever put into a grain field.
