In the mouth of setaber, 1878, Mr. Randolph Payae was living apparently in content with his parents at Moulsey-in-the-Thames. There was no presumption of his being in debt or difficulties, and, as was natural in the case of a free and single man, he one day announced his injection of ranging down to Wales for injection of ranging down to Wales for circumstances that being in their train-Few dramatists or novelists have ever single man, he one day anothered his intention of running down to Wales for serious annoyance to the community at a short holiday. Lie did not conceal his object or his destination, and he promised faithfully to be back on a certain day in order to keep his mother's birthday at home. He arrived at Barmouth how easily commercial socionies and the on a Saturday night, and, putting up at a hotel, he remained bliry lounging about until the Monday morning, when he was seen leaving the house very early in order to bathe in the was.
