

THE CHIEF. LOCAL MATTERS.

Next Saturday will be St. Valentine's day. J. C. Farley will soon move to Kearney.

A lot more new type just received at this office. Come to the CHIEF office for your job printing.

New dress goods at Moon & Callender's, very cheap. See the Select School posters, printed at the CHIEF office.

One week from next Sunday will be Washington's birth-day. The "Boss" 5 cent cigar has come at last. Roby has it.

We do not hear of so much sickness now as a week or so ago. The Orleans Sentinel shows a decided change for the better, of late.

We learn that Dr. Smith of Guide Rock is attending on Mr. Case. Cold winds and dust in this Valley, and rain and mud keep deep in Iowa.

Go to W. B. Roby's for the next syrup in town. Pure Sugar Cane. Moon & Callender of Cowles have just received a large stock of dry-goods and notions.

Subscribe for the CHIEF, the religious and family newspaper, only \$1.00 a year in advance. We notice that a number of new residences are in course of erection in different parts of town.

The Bloomington Argus published a full page statement of the financial condition of Franklin county. Mr. Callender of the firm of Moon & Callender, Cowles, called at these headquarters last Saturday.

We learn that Mr. Gore will soon remove his jewelry stock to the building lately vacated by Mr. Holland. Who in Webster county will compete for the "Arbor Day" premiums offered by the State Board of Agriculture.

Mitchell & Morhart are preparing to handle the largest stock of plows and machinery ever brought to this Valley. The days will soon come when the average boy will be too sick to go to school, but quite well enough to go fishing.

Mr. Helvem called last Monday and paid for two copies of the CHIEF in advance, one to be sent to his father in Ohio. The days are getting somewhat longer and the habitual loafer can now get in a few more hours of solid loafing, in a day, than formerly.

Last Sunday we noticed some boys who evidently had not the fear of God or their man's sinner before their eyes, playing ball on the street. We are told that one of the money lenders of this town displays the suggestive motto: "With joy we greet you," over the door of his office.

G. W. Sheppard, county clerk of Franklin county, called on the CHIEF last week, we found him to be a very pleasant and affable gentleman. It will be noticed that in our Guide Rock letter published last week, the name of Mr. Vance was spelled "Bauco." Mr. Vance has our apologies.

A review just that seemed to be of some interest and drew quite a crowd of the curious, was tried before Justice Hawley last Saturday evening. A Mr. Ewing of Washington, Iowa, has commenced the erection of a building two doors north of the CHIEF office, to be used as a photograph gallery.

Ladies of the Congregational church will give a social meeting Tuesday eve, Feb. 17th, at the house of Mr. Levi Moore. All are cordially invited. We hear of a slight domestic unpleasantness in a certain quarter on account of a recent husband paying too much attention to the demi-monde.

The recent cold weather produced another crop of ice which was promptly harvested by those who had not already laid in a supply of that cooling article. A couple of the bad boys of this town were caught stealing chickens a few nights ago. We will publish their names the next time they are caught depopulating the chicken coops.

D. S. Helvem returned from Ohio last Saturday and brought with him one of his sons who has heretofore resided in that state, but now proposes to make Nebraska his home. Mr. Hunter, a newspaper man from Iowa, called on the CHIEF last week. He expressed himself as well pleased with Nebraska and wishes to purchase a republican newspaper in this state.

Dr. Callender of Cowles, had a saddle and bridle stolen from his stable Friday night last. The thief is not known; but we believe Doc would like the privilege of canvassing him with the foot-prints of time. A well stuffed and set up wild cat of monstrous size, attracts attention in the window of Moser's meat market. It is the work of Mr. Reed, of Elm creek. (We mean the "wuffin" and "actin up" is the work of Mr. Reed.)

Abraham Kelsey purchased a supply of Justice's blanks at the CHIEF office last Monday, preparatory to settling down to business in the old court house, from which place he proposes to dispense Justice. Mr. Kelsey will make a good and efficient officer. A considerable portion of the prairie in this county have not yet been burned off, and consequently prairie fires are to be looked for and guarded against, this spring. See to it that your property is protected by ample fire guards.

Be not deluded by the fond hope that winter will pass without you seeing a good snow storm, for as sure as the sun rises and sets, this part of the "foot-hill" will be swept by one or more driving snow storms before the flowers of spring had had bloom.

The Course of True Love Never did run smooth. For the benefit of those of our young people who may be foolish enough to answer advertisements of parties who wish a limited number of lady correspondents or "gentlemen correspondents" as the case may be, we publish the following account from the Nebraska, of how a young girl was "taken in" in our sister town of Hastings. Those who are tempted to answer such advertisements should remember that "things are not what they seem."

A while since, two of the boys of Hastings took it in their heads to try a little game. Result—advertising in the Waverly Magazine that "Two pairs of brown eyes respectfully solicit a limited number of gentleman correspondents. Address Mabel Moore or Fay Franklin, Hastings, Neb."

Answers flowed in space. They came from all quarters, and were of all kinds. Selecting one that struck their fancy as promising richest results, and signed "Lou, Barnes, Denver, Col.," the boys proceeded to cultivate, and found the cultivation not at all difficult.

Elaborate and touching letters passed to and fro, with celerity, until "Lou," seemed thoroughly smitten, and finally proposed, as he was going east, to take Hastings in his way, and call upon his adored "Mabel." This was rather faster than the boys anticipated. But they were equal to the occasion.

"Mabel" coyly consented, and even somewhat joyfully expressed her pleasure at the anticipated meeting, but cautioned that secrecy and great care were necessary, to avert the disapprobation of careful parents. He announced that he would be here on Saturday morning, and was directed to alight with only one hand glove, with a bouquet in his button hole, and a grip sack in his hand; and, if anything should prevent a meeting there, he was to proceed to the Commercial and await developments.

He proceeded, as directed to the Commercial and registered as "Lou, Barnes, Denver, Col." Soon after, a loving epistle went over to the postoffice to his "Dear Mabel"—for which naturally, the boys were watching, and in a short time an answer was returned through a messenger. Indeed, the epistles flew rather lively during the afternoon, of which the following is a sample:

DEAR SIR:—I have vainly tried, all this time, to invent a way to meet you, that will be both safe and pleasant, and can only arrive at this conclusion: To night, I will be at the Congregational Church, and you be there, too. Take the third seat from the back, on the right-hand side, and I will be near you. Sit on the side of the pew next to the aisle, and I will nod to you. But don't let any one in the church imagine we are flirting. Go out first and wait at the door, then we can talk it all over. I am afraid I am doing wrong, but after you have come so far to see me I will not mean enough to disappoint you. But you must promise to treat me with respect. Will you? Don't say one word to the boy about this. My curiosity is already aroused too much, and I have told him some awful fibs. Good bye till to-night. Yours, MABEL.

P. S. At church call me "Jennie." Lou, was doomed to disappointment—no Mabel put in an appearance. Another epistle, however was conveyed to him, of which the following is a copy.

LOU:—I am at my brother-in-law's office waiting for you. Don't let the boy know that I am, though; but go out with him and casually ask him if he knows where Mr. Dent's office is. Then come here and I will introduce you to him as a friend whom I met at Ann Arbor, while there at school. My right hand is Jennie Harris. Of course, call me by that name. Talk as if you came from the east to-night. He knows that I am expecting a friend, and I will go out with you a moment afterwards. Both we and you went to church, so I could not, I am to stay with my sister to-night. Yours, JEN.

P. S.—Lou, I do want to see you so bad. The thing was now ripening fast. Lou was earnest and ardent. The boys full of excitement and expedients. Lou introduced himself, at the appointed place, to the brother-in-law. He was informed that Mabel had stepped out for a moment, and he invited to await her return. In the meantime, the boys dropped in one by one, and finally by larger numbers, after which Lou was finally introduced to "Mabel" and "Fay" in propria persona—when he suddenly took in the situation, and handsomely came down, with—"Boys, is for you to name what you'll have!"—and we suppose they had it.

Very naturally, Lou had no particular occasion to cultivate further acquaintance in Hastings. All its many-bred glories had vanished—to him. The silver lining was gone, and left only a murky cloud in its place. He took the first train that left—that being the Sunday afternoon train for Grand Island.

The Indians are rapidly becoming civilized. The heirs of the old Indian woman, Teson, said to be 100 years of age and as deaf as a post, who was run over and killed by an A. & N. train, a few months since, near White Cloud, are about to commence legal proceedings against the company for damages. A gentleman of Loup City has just sold eight acres of land and one hundred town lots in that place to parties from New Hampshire, who are to invest \$100,000 in a woolen factory and grist mill. They propose to tap the river two miles above Loup City and bring the water to the mill in a flume, which will give them an equivalent of 36 horse power. The grist mill will have four runs of burrs. The new firm has already invested about \$12,000.

Frank Leslie's Sunday Magazine. The March number is promptly on our table, taking precedence of all its contemporaries. It is, in every respect, a most admirable one; a religious, pure and moral tone pervades its pages, and still there are found articles which appeal to all tastes and all classes, and from the perusal of which the reader cannot fail to derive both entertainment and edification. There are so many good things that it is difficult to select the most notable features. The opening article by Herr Letton, entitled "Easter Brando's Mission Class," is a very pleasing narrative of the lady's experiences in the mission. "The Partisan Revolution," by Rev. J. M. Abbott, is replete with the stirring incidents resulting in the organization of the Partisan party under Cromwell. Those admirable articles on "The Persecutions," by Alfred H. Guernsey, are concluded in this number with a most interesting paper on "The Persecution of the Huguenots," in France under Louis XIV. The two very interesting serials, "The Nalimaker's Daughter," and "Little Haines," are continued, and there are several short stories by popular writers. The subject (No. 21) of "The Children of the Bible," is "Ishac, the Child of Promise." An elaborate article on the late Frank Leslie, by the editor (with illustrations), is a beautiful tribute to the artistic and personal merit of the deceased. There are poems of great excellence, sketches, essays, adventures, and a general compilation, "I Have a Glorious Hope," words and music written from this magazine by Augusta Browne Garrett. One hundred and twenty-eight quarto pages and 100 illustrations, the price of a single copy 25 cents, or \$3 per annum, post paid, in advance, Frank Leslie's Publishing House, 53, 55 and 57 Park Place, New York.

No Good Preaching. No man can do a good job of work, preach a good sermon, try a law suit well, when he feels miserable and dull, with aching brain and unsteady nerves, and some should make the attempt in such a condition when it can be so easily and cheaply removed by a little Hop-Bitters.

Pause, Fender and Ferris!! The invention of that superior and complete sewing machine (the Family Sewing machine), marks one of the most important eras in the history of machinery, and when we consider its great usefulness and extremely low price (\$25), it is very difficult to conceive of any inventor of domestic use of more or even equal importance to families. It has great capacity for work, rapid, smooth and quiet movement, rapid execution, certainty and delightful ease of operation, that at once commend it above all others. The working parts are all steel, strong and durable, and will last a lifetime; the bobbins hold 100 yards of thread, the stitch is the finest of all stitches made, neat and regular, and can be regulated in a moment to sew material of an inch in length on coarse material to the finest, so infinitesimal as to be hardly discernible with the naked eye, and a variety of stitching; it is possible to count them as fast as made; it has more attachments than any other, and is used to perfection all kinds of heavy, coarse, plain, fine, or fancy needle work, and for long lasting, and required on other machines. It needs no commendation, the rapid sales, increasing demand, and voluntary encomiums from the press, and the thousands of families who use them, amply testify to their undoubted worth as a standard and reliable house necessity, extending its popularity each day. Machines sent anywhere to be examined before any money is paid. Address W. W. Y. Co., Family Sewing Machine Co., 714 Broadway, New York.

Be Wise and Happy. If you will stop all your extravagant and wrong notions in doctoring yourself and families with expensive doctors or humbug cures that do harm always, and use only nature's simple remedies for all your ailments—you will be well, and happy, and save great expense. The greatest remedy for the great, wise and good will call it, Hop Bitters—rely on it. See another column.
