They rest in a happy silence As the shadows deepen fast; One lives in a coming future,

And one in a long, long past, Each dreams of a rush of music. And a question whispered low: One will hear it this evening. One heard it long ago.

Each dreams of a loving hus and. Whose brave heart is hers alone; For one the joy is coming. For one the joy has flown.

Each dreams of a life of gladness Spent under the sunny skies: And both the hope and the mem'ry Shine in the happy eves Who knows which dream is the brightest?

And who knows which is the best? The sorrow and joy are mingled, But only the end is rest. -Parlor Maguzine,

"OUR" MR. JENKINS.

I was fortunate in my uncle. So ever body thought, for Uncle Braithwaite was as wealthy and thriving a manufacturer as any in Lambeth, and I, his dead sister's son, Cyril Vaughan by name, was not merely drawing a fair salary, with the prospect of a partnership, but was actually engaged to be married to my second cousin, reputed a great herress -de r, sweet Lucy Braithwaite-the old man's only child. A se ere, just man was John Fraithwaite. He had won his own way in life by rigid self-denial and unwearving industry during a joyless youth, and I doubt if be ever thoroughly enjoyed the fruits of his well-earned prosperity. It was only when his eye rested on his daughter's pretty face that his stern look relaxed. Lucy reminded him, doubtless, of her gentle mother. But he was a good master to a good servant, notably where he, who was by nature and habit suspicious, could repose full trust. He did in Enoch Clint to concern me. so in his confident al clerk, Jacob Jenkins. That head clerk was one out of a thousand. "Respectable Jenkins" was the nickname by which irreverent with bated breath of that pearl of clerks: but even those pert office lads had a be-Lef in the man - he was so respectable, with his lean, well-shaven face, his neatly-brushed suit of formal black, and his square-tood boots. It may seem strange that I, being a physiclan and an ex-army surgeon, did not have the water analyzed before; but such is the f o and I did not suspect that my k dneys were for the least particular out of order; and here is inst where I was in the erestest dancer, and where most people who real this article are in danger. I find that I am only one of thousands who are suffering from kidney disorders, which, neglected surely terminate in Bright's disease. I also know that physicians may treat these disorders for months without knowing clear y what the trouble is, and even after as establing the cause, be unable to prevent it. When death, however, finally overtakes the belpless victim they dispute its real cause, attributing it to heart-disease, convulsions, apoplexy, vertigo, paralysis, spinal meningetis, blood and uremic poisoning, etc.,
