Women who have some to rear, and dread the demoralising in mences of bad amonistes, ought to understand the nature of young manhood. It is excessively restless. It is disturbed by va a ambitions, by theret for action, by longings for excitment by irrepressible denires to touch life in manifold ways. If you, mothers, rear your some so that their borner are associated with the repression of natural instincts, you will be sure to throw thom in the society that in any measure can a poly the need of their hearts. They will not go to the public houses, at tirst for love of liquor; very few people like the taste of liquor, they go for the animated and hilarious companionship they find there, which they find does so much torepress the disturbing sentennes in their breasts.
