The fourth of July will soon be here,
and Red Cloud should get up one of
the roughest celebrations of modern
times. Say, let's do it.

The Eclipse solid wheel wind Mill
has been adopted, and is extensively
used by over fifty railroad companies.

Nervousness, peevishness, and fret-
ting, so often connected with over-
worked females' lives, is rapidly re-
lieved by Brown's Iron Bitters.

Another change has been made in
the old number firm of Jones & Goble.
Mr. Goble has taken an interest, and
the firm name is now Jones & Goble.

The fish pond in front of the Chief
office may be a thing of beauty and an
ornament to the town, but it is an
abomination in the sight of the print-
ers.

Sweet potatoes, yams, cabbages, let-
tuce, radishes and all kinds of vegeta-
bles on hand and for sale at Cum-
mings' restaurant one door south of
Sherer's.

The new time table on the B. & M.
went into effect last Sunday and the
new arrangement makes Red Cloud
one of the most important points of
the line.

The Eclipse wind Mill weighs more,
possesses more power and will stand
50 per cent more strain than section
wheel Mills. This we guarantee. Sold

Mr. John Gilman, of Woodstock,
Vermont, nephew to Wm. Clapp, of
Covles, has been paying his uncle a
visit, and was a pleasant caller at these
headquarters last Friday.

The B. & M. railroad company's
agent called at the office of the county
treasurer last Wednesday, and paid in
the next little sum of \$11,584.50, taxes
on their forty-three miles of road bed
in this county.

Red Cloud is the most important
point on the B. & M. between Lincoln
and Denver.

Last Friday this part of the "foot-
stool" was visited by what might be
termed a sand storm.

Dr. Slidder of York came up to
shake hands with his old friends in
Red Cloud, last Tuesday.

The wind storm last Saturday over-
turned Lauterbach's bread wagon and
scattered the contents far and wide.

And still the orders for stock bills
come in, because we give our custo-
mers the best of work at low figures.

Last Tuesday morning found the

got to crowding the season, and came

A number of the members of the

Odd Fellow's celebration at that place.

Eternal vigilance is not only the
price of liberty, but it is the price of
immunity from loss by prairie fires, in
this country at certain seasons of the
year.

Mr. John McQuikin called last
week and ordered a copy of the CHIEF
for six months to John F. Dow, of
Hancock, Iowa, who has landed inter-
ests in this county.

Remember that he, or she, who
plants and causes to grow a single tree
in this prairie country, is a public ben-
efactor, and future generations ought
to rise up and call him blest.

We understand that Jones & Goble
have purchased the lot on which the
post office building stands, and will
commence the erection of a large
brick structure in the near future.

Col. Wm. Clapp, of Covles, was an
agreeable caller at the CHIEF office
last Friday. The Colonel will make a
visit to his old home in Vermont, this
summer, for the benefit of his health.

A drove of four hundred and sixty
five young cattle passed through town
last Wednesday from Washington
county, Kansas. They are being driv-
en out to the range near the Colorado
line.

Attention is called to the fact that a
change has been made in the office
hours at the post office. Hereafter the
office will be open from 7 a. m. to 7 p.
m., and on Sundays from 6:30 to 7:30
p. m.

The band boys have been circulat-
ing a subscription paper for the pur-
pose of raising money to purchase new

ful and that a first class band will be
organized.

Wm. Morlan, proprietor of the
Bloomington nurseries in town last
week on business. We under-
stand that he has sold quite a lot of
fruit and ornamental trees to the peo-
ple of Red Cloud.

An exchange says, when a newspa-
per can be had for less than four cents
a week, the man who continually bor-
rows his neighbor's paper must cer-
tainly be very stingy as well possessing
an immense amount of check.

H. C. Andrus, who lost heavily by
prairie fire recently and whose losses
have been partially made up by sym-
pathizing friends, wishes to express his
thanks to all those who have kindly
assisted him in the time of need.

Last week some boys started a fire
in the rear of Morhart & Fulton's
hardware store by firing a pile of straw
and rubbish, and a serious conflagra-
tion was only prevented by prompt ac-
tion of those who first saw the fire.

Hon. D. H. Wheeler, Secretary of
the State Board of Agriculture has our
thanks for a copy of the premium list
for the seventh annual exhibition of
the Nebraska State Fair to be held at
Omaha Nebraska, commencing Sep-
tember 10th and continuing six days.

We are indebted to the New York
Life Insurance Co., for plate entitled
"Origin of the stars and stripes." Any-
one desirous of seeing this interesting
collection of facts relating to the Ge-
nealogy of Washington and the origin
of our flag, can be accommodated by
calling at the CHIEF office.

An exchange tells us of a farmer
who, in experimenting with sawdust
in potato hills, used in one patch of
potatoes one quart of sawdust to the
hill and none in another. The sawdust
yielded twice as much as others, and
the potatoes were larger and smoother.
It is now time to plant potatoes, and
it might pay to try the experiment on
a small patch at least.

Will Smith's house, when com-
pleted, will be one of the neatest and
most substantial little residences in
that part of town. The excellence
of the design and workmanship is due
to Mr. B. Briggs, the contractor, who
by the way is one of the most skilled
workmen in town, which is attested by
the fact that he has already engaged a
sufficient amount of carpenter work to
keep him busy nearly the entire season.

The need of more and better side-
walks and additional cross walks was
keenly felt by everybody who had occa-
sion to perambulate the streets of
Red Cloud during the last week or
two. Some parts of the town have
been almost inaccessible except to
those who are fortunate enough to pos-
sess a good pair of rubber boots and
sufficient courage to face a sea of mud
of uncertain depth, while those who
have had occasion to go from the
north part of town to the postoffice
have found it almost impossible to
cross the gulf between Garber's store
and Sherer's corner. The town council
or some one should see that some-
thing is speedily done to make the
crossings passable if this rainy weather
is to continue.

There is a quiet about the life of
the farmer, and the hope of a serene
old age that no other business or pro-
fession can promise. A professional
man is doomed some time to feel that
his powers are waning. He is doomed
to see younger and stronger men pass
him in the race of life. He looks for-
ward to an old age of intellectual medi-
ocrity. He will be last where once he
was first. But the farmer goes, as it
were, into partnership with nature; he
lives with trees and flowers; he breathes
the sweet air of the fields. There is no
constant and frightful strain upon his
mind. His nights are filled with rest
and sleep. He watches his stocks and
herds as they feed upon the green and
sunny slopes; he hears the pleasant
rain falling upon the waving corn, and
the trees he planted in youth smile
above him as he plants others for chil-
dren yet to be.

The fore part of the week we took
a trip to Inavale, and while enjoying the
hospitality of Mr. G. W. Knight and
his excellent wife and accomplished
daughter, took occasion to look
through the Inavale cheese factory.

Mr. Chamberlin, the genial proprietor,
kindly showed us through the estab-
lishment. The main building is 20
x40 feet, two stories high and two
wings, 12x20 and 8x20 respectively.
The factory has capacity for using the
milk from five hundred cows, which
capacity can be increased to one
thousand by the addition of another
vat.

The factory is now using the milk
from about sixty five cows, and by the
first of June will use the milk from
three hundred to four hundred cows
and manufacture about one thousand
pounds of cheese per day. A little
more than eight pounds of milk is re-
quired to make one pound of cheese,
and the farmers who are now patron-
izing the Inavale cheese factory re-
ceive for their milk \$1.15 per one hun-
dred pounds.

Creameries are a good thing, and we
wish there were more of them in the
country, but it is an undisputed fact
that farmers who patronize the cheese
factory realize about one third more
on their milk than do those who sell
their milk or cream to the creameries.
Work was commenced on the Inavale
cheese factory the 26th day of
February last, and on the 16th of the
present month the factory turned out
its first cheese.

Mr. Chamberlin informs us that
when he can secure the milk of from
four hundred to six hundred cows he
will distribute in that vicinity within
a radius of four miles, from ten thou-
sand to fourteen thousand dollars per
year, which, we take it, will be an im-
mense benefit to the farmers in that
part of the country.

Mr. L. D. Fowler, foreman for L. Ca-
hill & Co., manufacturers of sulky plow
carriages and corn plows, dropped into
our office Wednesday morning to say
that he was too busy to enjoy good
health, he had to hurry off to the de-
pot to unload a car of one hundred
sulky and twenty-five double corn
plows. He reports sales No. 1, and
farmers all well pleased with their
plows and sulky, as they always are
with goods bought of that enterprising
manufacturer which Mr. Fowler so
ably represents.

MARRIED.

of DeWitt, Neb., to Miss Anna Lull,
of Red Cloud, Neb.

DIED.
On Friday April 20th, of consumption,

Maxwell.

dence of Luther Commenska, Lucy

The Fryse boys, well and favorably
known in Red Cloud, are editing and
publishing the *Motor*, in Blue Springs.
The Beatrice Independent has the fol-
lowing:
"A report comes from Blue Springs
that one of the editors of the *Motor*,
upon attending a performance at the
opera house saw his own sugar plum
come in with another fellow. He im-
mediately rushed and borrowed the
town pistol, used for shooting dogs,
and returned to the theatre, determi-
ng to perforate the fatless one and then
end his own misery. But as the gods
would have it, the fuse wouldn't go
off, and the love-sick editor is still tak-
ing cord wood on subscription. The
editor of any country newspaper is
justified in committing suicide on gen-
eral principles, but when he is crossed
in love, the provocation becomes
doubly great, and we sympathize with
our neighbor for his humiliating
failure."

A \$200.00 Bible Reward.
The publishers of *Rollins's Monthly*
offer twelve valuable rewards in their
monthly for May, among which is the
following:
We will give twenty dollars in gold
to the person telling us which is the
shortest chapter in the New Testament
scriptures (not the new revision) by
May 10th 1883. Should two or more
correct answers be received, the re-
ward will be divided. The money will
be forwarded to the winner, May 15th
1883. Persons trying for the reward
must send twenty cents in silver (no
postage stamps taken) with their an-
swer, for which they will receive the
Monthly, in which the name and ad-
dress of the winner of the reward and
the correct answer will be published,
and in which several more valuable
rewards will be offered. Address Rus-
sell publishing Company, Easton,
Penna.

News For All.

Educational Notes.
By C. W. SPRINGER, Co. Secy.

At the examination on the 7th inst.,
second grade certificates were granted
to Lizzie McIntosh, Lydia Munger,
Ida P. Albert, Eva Munsell, Myra
P. Brewer, Eva Walker, Laura Mc-
Daniel, Phoebe Saylor, Rose Noble, Sa-
rah L. Fisher, and third grades to Etta
Sanford, Lilla Letson, Ora Arnold,
Nellie Arnold, Jessie Arnold, Ora Bell
Hunter, Jennie Ballard, Hattie Hogate
and Corey E. Norris.

A large number of the districts will
have a school this spring but will
have a long term beginning in Sep-
tember.

We wish to call special attention to
some points in the school law. Copies
of the law will be ready for distribu-
tion in a few days. The practice which
prevailed to such an extent of drawing
warrants on the county treasurer for
any amount of money which may be
in the treasury, and then when it is
received, the director has no record of
the money, is now prevented by the
following section of the law.

No warrant shall be countersigned
until the amount for which the war-
rant is drawn is written upon its face.
The moderator shall keep a record in
a book furnished by the district of the
amount, date, purpose for which drawn
and name of person to whom issued,
of each warrant countersigned by him.

Districts wishing to purchase such a
book for the use of the moderator, can
do so by addressing the State Jour-
nal company Lincoln Neb.

Another requirement of directors is
the following: "The director shall not-
ify the county superintendent at the
time the contract is made, of the
length of the proposed term of school,
when the school will begin, and of the
name of the teacher. And no money
belonging to the district shall be paid
for teaching to any but legally qual-
ified teachers."

Another in its relation to exami-
nations reads as follows: Read it
carefully, cut it out and paste it in
your dairy.

Subdivision VII Sec. 3 reads
thus:
The county superintendent shall ex-
amine all persons offering themselves
as teachers for the public schools, and
shall attend at the county seat upon
the 3d Saturday in each month in the
year for that purpose; and at such
other times and places as he may select,
by giving not less than five days notice
in some paper published in the coun-
ty, or if there be no paper published in
such county then he shall cause to be
posted up in three public places in the
precinct where such examination is
to take place, not less than five days
prior to such examination, a notice of
the time and place thereof. Any
certificate granted at any other time or
place than those specified above shall
be null and void. And any county
superintendent that shall violate the
provisions of this section shall, upon
conviction of the same, be fined in
any sum not less than twenty-five
dollars.

Next week we will publish the law
regarding institutes.

Copies of the School Law can be had
at the Superintendent's office.

School officers may now supply
themselves with the school law edition
of 1883.

The regular term of district court in
and for Webster county Nebraska, set
for April 23rd 1883, and adjourned to
May 22nd 1883, is hereby further ad-
journed to May 28th 1883 at 9 o'clock
a. m.

In placing our loans there is no te-
dious delay in submitting applications
to eastern parties, as our facilities are
such that we can close all good loans
on short notice.

We are prepared to fill desirable
loans at nine per cent. straight, with no
charge of any nature whatever. All
payments of interest and principal
may be made at our bank, and will be
sent to the parties free of charge and
interest notes returned to our custo-
mers.

As to our promptness and fair deal-
ing we refer to those with whom we
have placed loans (numbering at pres-
ent nearly six hundred.) Call at our
office, or address us through the mail.
