**Educational Notes.**  
By C. W. SPRINGER, CO. SECT.

From reports received at this office  
during the winter we find that among  
the several districts there is a diversity  
of text books, especially readers.  
Twelve districts use Sheldon's reader  
exclusively, thirteen use Hillard's, one  
uses Appleton's, three use the In-  
dependent series, and six use the Web-  
ster Franklin, which is the only au-  
thorized series agreed upon as a basis  
for a county uniformity. A few of Mc-  
Guffey's are found in five districts, and  
Sander's in four; and including these  
last we find about fifteen districts with  
no uniformity. Few teachers have  
the tact to do good work without uni-  
form text books on reading, and those  
districts should see to it that they  
make better provision for the educa-  
tion of their children in this direc-  
tion.

We also find that during the past  
winter ninety eight pupils advanced to  
and beyond percentage in arithmetic,  
and this too from a class of one hun-  
dred and fifty eight pupils sixteen  
years of age who attended our school.  
Thus it will be seen that our school  
children are all young. We also find  
that United States history was studied  
in twenty seven schools; Physiology in  
fourteen; Civil Government in five;  
Philosophy in two; Book Keeping in  
five; Algebra in four, and drawing in  
two.

The Red Cloud schools continue to  
prosper under Prof. Judson's care.  
Miss Eva J. King has commenced her  
second year at Blue Hill. Miss Nettie  
Parsons, recently from Burr & Bur-  
ton's academy, Arlington, Vermont,  
has charge of the school at Guide  
Rock.

The following law regarding teach-  
ers attending the institute is now in  
force. Read it carefully. The Web-  
ster county institute will open July 30,  
and continue three weeks.

Sec. 5. To form a fund to defray the  
expenses of institutes, each teacher ex-  
amined for a certificate, or who has a  
certificate renewed or indorsed, by the  
county superintendent, shall pay the  
sum of one dollar to the county super-  
intendent, to which sum this sum this  
raised the county commissioners shall  
add each year that an institute is held  
in the county, the sum of twenty five  
dollars from the general fund of the  
county; and if they deem it desirable  
they may increase the amount to any  
sum they desire, not to exceed one  
hundred dollars.

The county superintendent shall  
make a quarterly statement under  
oath, to the county commissioners, of  
all money received by him for the in-  
stitute fund, and of all money dis-  
bursed by him from said fund.

Sec. 6. All disbursements from the  
institute fund shall be upon the order  
of the county superintendent and up-  
on bills approved by him which shall  
be filed in this office.

The county superintendent may at  
his discretion revoke the certificate or  
refuse to grant a certificate to any  
teacher who refuses to attend the  
county institute, it shall be the duty  
of the county superintendent to report  
such refusal to the principal of the  
Normal school, who may at his discre-  
tion, revoke the certificate of such nor-  
mal graduate for such refusal to at-  
tend. The county superintendent  
shall notify the directors when the  
institute shall begin and all common  
schools shall be closed during the con-  
tinuance of the institute.

Be it said to the credit of the three  
Miss Arnold's, late of Michigan, that  
they passed the best examination be-  
fore the County Superintendent, of  
any yet applying for a certificate.  
They received first class certificates.

The above from the Blue Hill Times  
is rather strong. We could only wish  
that it had been true. By referring to  
our notes last week it will be seen that  
these ladies applied for and received  
third class certificates. We refer to this  
only as a matter of justice to all the  
parties concerned.
