The Presidency.
There has been no time for many years that there has been less agitation as to the future nominee for the position of President as the present. The nearly equal strength of the two prominent parties compels politicians to act cautiously, and no boom seems to meet with any success or much favor. The people anxiously await developments, yet a strong feeling is rapidly settling in favor of Arthur and Lincoln as the respective candidates and it is a destructive policy to undertake to override public opinion.

The judicious course pursued by Arthur since he assumed the responsible position of President, under circumstances of the most discouraging character—the party in fragments—the affairs of government in a tumult—the most important questions affecting its stability presented and many matters to be adjusted, he has restored it to tranquility, harmonized the party, strengthened the administration and country. His course has been remarkably judicious and displays more executive ability than was ever attributed to him. He has been faithful, honest and competent. He has given us one of the very best administrations. He has never labored to promote his individual interests or advancement. Has appointed persons to office known to be opposed to him. Never made an effort to secure the nomination for President, and his selection for the position will be a free will offering of the people.—Lincoln News.

"Acme" Pulverizer

John Boesch, Amboy, Neb.
Notice of Application for License.
NOTICE IS HEREBY GIVEN THAT ON the 13th day of March, 1884, Fredrick Kieft filed his petition praying for a license to sell spirituous, vinous and malt liquors in the village of Red Cloud, Nebraska. That in pursuance of an ordinance Friday evening, March 28th, 1884, at the regular place of meeting, over Cook's drug store, has been designated for the hearing of any and all objections, protests or remonstrances filed. A. J. KENNEY, Village Clerk.

How rarely does does a farmer contemplate a newly harrowed field with satisfaction? He walks over it and sees here and there seed uncovered; here a furrow slice untouched because the surface was not quite level, and there a bunch of stubble drawn into a heap having dragged the soil and seed before it for yards. He shakes his head sadly and wishes there was a harrow that would do the work perfectly, leveling the rough places, breaking up the clods, and not only pulverizing the soil, but turning it over the seed so that this is all covered to an even depth and without waste. But the farmer who uses the "Acme" Pulverizing Harrow, Clod crusher and leveler has none of the sadness and disappointment for his fields are level and mellowed and smoothed and the seed properly covered. Fall plowed ground especially needs this perfect work which is done quickly and without the need of any spring plowing. This also is a good cultivator until the corn is above twelve inches in height. Take Notice.
Owing to the great popularity of the Glidden Steel Barb Wire and the demand for merits have given it many manufacturers and dealers are palming off or attempting to palm off inferior wires under the name "Glidden," "Four-Point Glidden," "Improved Glidden," etc. While this practice is an admission of the superior quality of the genuine Glidden, it is nevertheless a fraud upon the purchaser and an injury to us. To protect ourselves against this dishonorable competition we have had duly registered in the proper office at Washington, D. C., this
