## New Life

is given by using BROWN'S IRON BITTERS. In the Winter it strengthens and warms the system; in the Spring it enriches the blood and conquers disease; in the Summer it gives tone to the nerves and digestive organs; in the Fall it enables the system to stand the shock of sudden changes.

In no way can disease be so surely prevented as by keeping the system in perfect condition. BROWN'S IRON BITTERS ensures perfect health through the changing seasons, it disarms the danger from impure water and miasmatic air, and it prevents Consumption, Kidney and Liver Disease, &c.

H. S. Berlin, Esq., of the well-known firm of H. S. Berlin & Co., Attorneys, Le Droit Building, Washington, D. C., writes, Dec. 5th, 1881:

Gentlemen: I take pleasure in stating that I have used BROWN'S IRON BITTERS for malaria and nervous troubles, caused by overwork, with excellent results.

Beware of imitations. Ask for BROWN'S IRON BITTERS, and insist on having it. Don't be imposed on with something recommended as "just as good." The genuine is made only by the Brown Chemical Co. Baltimore, Md.

(Continued from last week.)

### How Watch Cases are Made.

The many great improvements introduced in the manufacture of the Jas. Ross' Gold Watch Case, have led to similar improvements in the making of silver cases. Under the old methods, each part of a silver case was made of several pieces of metal soldered together, requiring a great amount of cutting and soldering, which softened the metal and gave it the pliability of lead rather than the elasticity of silver. Under the improved methods, each part of the Keystone Silver Watch Case is made of one solid piece of metal hammered into shape. The advantages are readily apparent, for every one knows that hammering hardens the metal while soldering softens it. To test the superiority of the Keystone Silver Watch Case, take one of 3 oz. weight, press it squarely in the center when closed, and it will not give, while a case of same weight of any other make will give enough to break the crystal. The Keystone Silver Watch Case is made only with silver cap and gold joints.

Small 2 cent stamp to Keystone Watch Case factories, Philadelphia, Pa., for name of nearest French goldsmithing the cases used and Keystone Watch Cases are made.

We have just over \$100,000.00 in defending the right to the Bull Durham Bull Brand Cigarettes. Now it stands to reason that we would expect to protect this so thoroughly that BLACKWELL'S BULL DURHAM TOBACCO would be the BEST smoking tobacco ever made.

The sales of Blackwell's Bull Durham Smoking Tobacco far exceed those of any other brand in the world, chiefly because it has been proved to be the best that can be made. All dealers have it. Look for trademark of the Bull on every package.

### FINAL PROOF NOTICE.

Land Office, Bloomington, Neb., March 27, 1884  
NOTICE IS HEREBY GIVEN THAT THE following named settler has filed notice of his intention to make final proof in support of his claim, and that said proof will be made before the clerk of the district court, Webster county, Neb., at Red Cloud, on Saturday, May 10, 1884, viz: BERTON CURRIE, on 1/4 entry 522 for the south-west quarter section 10, township 14 north, range 17 west. He claims the following witnesses to prove his claim: James Resnikoff, and Catherine of said land, viz: John McCallum and William Cramer, Callerton, Neb., and John Warner and Peter Gully, Rulo, Neb. 29-3m 29-3m 30 S. W. SWITZER, Register.

### OF GENERAL INTEREST.

—A Boston oculist protests against dotted veils.

—Samuel Hoffman, of Ohio, went crazy because the Prohibition Amendment was not adopted.—Cleveland Leader.

—The Denver Medical Times says that there are more physicians in that city, in proportion to the population, than in any other in the United States.

—Two brothers named Lynch died in the same hospital in New Orleans recently without either knowing of the presence of the other.—N. O. Picayune.

—The most important and valuable stamp collection in the world belongs to a son of the Duchess of Galliera. Though it is yet incomplete, the stamps alone have cost \$300,000.

—It was a pet monkey that struck a match and fired the British bark Marjorie at Bayonne, N. J., laden with 1,375 barrels of naphtha and 2,000 of petroleum.—N. Y. Sun.

—A Castleton (Vt.) man has lived within four miles of Lake Bomoseen twenty-five years and never set eyes upon it. His brother has crossed the ocean five times since 1860.—Rutland Herald.

—Mrs. Fred Fisk, of Canastota, N. Y., has a set of embroidered curtains, the work of her own hands, and which has occupied her four years. She has refused an offer of four thousand dollars for them.

—General Grant has had made at Hartford for presentation to the Viceroy of China and the Mikado of Japan, two guns modeled after the Gardiner patent, which have been fired at the rate of seven hundred shots per minute.

—David Hawthorne, of Philadelphia, beat his wife. She dealt him a mortal blow with a tumbler. He lived a week, and went around all right, when the artery burst, causing death. His wife was exonerated by his own statement.—Philadelphia Express.

—A civil engineer who recently surveyed one hundred and seventy miles of railway in Arkansas reports that the citizens strenuously opposed the construction of the road on the ground that it would scare all the game out of the country.—St. Louis Globe.

—Pearl street, New York, is the crookedest street in the world. It is a mile and a half in extent, and yet its curves are so incessant that you cannot in any place see more than two squares ahead. It intersects Broadway twice, forming a half circle whose arc is nearly one mile in length.—N. Y. Mail.

—A New York Judge says there is no law to prevent a woman dressing in men's clothes if she wants to, and dismissed one in that garb brought before him by a valiant policeman. The Judge's head is level. Any woman so lost to the sense of the beautiful as to be willing to make herself hideous in the masculine costume of the day ought to be allowed the privilege.—N. Y. Times.

—On a railroad train from Macon, Ga., the other day was a remarkable couple. The gentleman was Mr. Thomas G. Smith and the lady was his sister. They were born in Sandersville, but at the age of eight years Mr. Smith went to Texas, where he lived and prospered up to a few weeks ago, when he returned to Georgia and met his sister after seventy years of separation.—Chicago Herald.

—The great Napoleon married a widow. Sarason's widow became a court favorite. Rousseau went crazy after a widow, and Gibbon, the historian, made himself ridiculous over one. Disraeli married a widow, and three of the most distinguished widows in Europe to-day are the Empress Eugenie, of the French; Queen Isabella, of the Spanish, and Queen Victoria, of the English.

—"Eyes of vair," the old phrase used by English poets, is a curious result of phonetic spelling. Vair is the spotted fur made by the skin of the gray squirrel; verre is the French word for glass. The poets evidently meant what Chaucer wrote: "Eyes as grey as glass," but they wrote vair, and hence the counterpart of the mistake about Cinderella's slipper, which was of "vair," not "verre."

—Long shelves in one of the offices at the White House contain cases, each of which bears the label "eccentric." These cases are crammed with written communications—bushels of them in all—which have been received by the President in the last two years, and which are so "eccentric" that no man can tell what their writers were trying to express. Such letters of course remain unanswered.—Washington Star.

—"Our own tobacco exports," says the Boston Advertiser, "are at least ten times larger than are those of Turkey; but probably few people know that in the production, consumption and export of tobacco America exceeds every other country, and that, as a producer of quantities, it is followed immediately by Russia, Hungary, Germany, France—not by Cuba, which has but about 4,500 tobacco farms, and exports less than does Turkey."

—A Philadelphia young man has gone into court in order to find out "a woman's reason." He was engaged to marry one of the elusive creatures, and not only engaged, but ready and willing to fulfill his promise, when she suddenly and without explanation, refused to see or have anything further to do with him. He now sues for breach of promise, not to recover pecuniary damages, but to find just why she treated him so. At the end of the trial the inquisitive young man will, probably, have learned that she jilted him because she wanted to.—Philadelphia Record.
