

# THE RED CLOUD CHIEF

A. C. HOSMER, Proprietor

FRIDAY, JULY 4, 1884.

## NEW POINT.

We had one of the severest dust storms last Sunday that I have ever witnessed.

G. W. Frances' new house is completed.

Mr. Terry is having a cistern dug this week.

Corn is growing very fast. Harvest will soon be here.

Mr. H. M. Slater's tools have arrived. Anyone wanting carpenter work done will do well to see him.

Our sister town of Cowles is improving. A new store.

Charley Howe is talking of building a new house.

## WEST INAVALE

Plenty of rain and everybody happy. Cutting has commenced and promises a heavy yield.

Corn mostly laid by, and is looking splendid.

The Riverton folks are getting ready for a grand celebration on the fourth. In addition to the interesting doings and speaking of the day, is Hunter's circus. The greatest wonder is if the lads and lassies can live till the time arrives and then have nerve enough to let to enjoy the performance.

This extreme warm weather. It would be more preferable to be a minister's hymn book than a fancy team from the livery stable on the road between Red Cloud and Riverton.

Mr. Smith, living near the narrows, lost his best horse at Riverton Monday evening. He was sick but a short time. He was valued at \$800.

C. Gooding, of Riverton, is building a new barn. It will cost about \$1000.

C. Martin has the contract of the carpenter work.

## ELM CREEK.

Still the corn grows.

The prospects for crops of all kinds are good. The two last years have lifted the farmers out of the tight places they were in, and a great many are able to build fine houses and barns, and put up windmills, and by this time next year nearly every quarter section of land will have a fine dwelling. There is no place in the west that farmers accumulate wealth as fast as they do here. Some say that fruit can not be raised here. It is a mistake. We can raise all the fruit we want. I can show you nice fruit. Go to Mr. Williamson and H. Crawford's, south-west of Blue Hill four or five miles, and there you can satisfy yourself that fruit can be raised in Webster county. All it wants is for the farmers to have an interest in fruit growing, and plant the fruit and care for it. Some of the farmers are complaining of their listed corn not doing very well. Give me the old way, that is to plow the ground and plant with a planter.

Eye harvest is near at hand and will yield well.

Cowles will need one more elevator to take care of the grain that will be raised in that vicinity.

## ESAU'S DREAMS.

## COWLES.

We don't deny the truth of the adage, that it rains alike on the just and the unjust, but there seems to be a partiality this summer in favor of the just, for the people of Cowles and vicinity have been favored with good, refreshing showers, while some of the naughty neighborhoods around us have had little or no rain.

The prospect for abundant crops of all kinds is exceptionally good in this vicinity.

Farmers are already making preparations for harvesting.

H. B. Brubaker and J. D. Schenck, two of our enterprising young farmers have just taken from the depot at Cowles a new twine binder. They both have fine crops of their own to cut, and will doubtless have as much cutting for others as the can do.

Mr. Terry has just received the stone for a large cellar.

C. W. Fuller's new building is almost completed.

Mr. G. A. Latta's face is as broad as a full moon and genial as a June morning. He looks like a candidate for office—but he isn't. Ten pounds of femininity accounts for it.

The Cowles school closes this week. Our town boasts of a new store. A drug and hardware store combined.

Wishing all places celebrations this week, we close.

## GUIDE ROCK.

Never before perhaps in the history of this community were our people so sanguine of success in the future as they have been and are since the sunshine and showers have been vouchsafed them with such steady and never failing accuracy as has been experienced during the past few weeks. Should the growing crops meet with no mishaps until they shall have been gathered, then look out for a stream of immigration such as Webster county has as yet been a stranger to.

Many of your readers will no doubt be pained to learn of the very poor health of Dr. Moranville. But slender hopes were entertained at one time last week of his recovery from a severe attack of heart disease. He rallied, however, and on Saturday, in company with Mrs. M. and Abram Garber started for Denver. A letter from Mrs. M. states that he is some better, although having suffered greatly while enroute for that place.

Many of our people will go to Red Cloud on the 4th, while not a few will picnic in Arnsberger's grove near town. Hunters Consolidated shows will be here on the 7th. Should the weather be fair there will be the greatest turnout Guide Rock has ever enjoyed. No doubt the occasion will be marked with much delight by both old and young, and will prove a source of real enjoyment and recreation.

Oh, ye gods! isn't it hot? *ROCKY.*

## CATHERICTON

We received the long wanted rain on Sunday night.

Crops look well.

We have a Baptist minister here from Kansas, looking after the cause of that persuasion.

Oscar Ranney lost a fine horse last week.

## WELLS.

We had a fine rain Sunday night, and considerable wind, which has laid the corn flat to the ground. We have faith that it will recover.

O. G. Roberts' harness shop and Morhart & Fulton's hardware store are rapidly being pushed to completion.

A. Butler, of this place has sold his farm to Legrand Thorne, for \$3000. We have not learned what Mr. Butler is going to do. We hope he will not leave our town, as he has been a resident for about ten years, and too, he has a daughter that is just "sweet sixteen"—the sweet must be applied to the sixteen, and not to the daughter.

Miss Rosa McCray has been very ill for the last two months. We hope she will soon recover under the care of her physician, her affectionate mother and sisters.

G. L. Matterson is quite sick with measles. We hope George will rapidly improve, as we know he wants to dance on July 4.

M. L. Soper of this place has sold out. Mr. Soper will not leave the country, but will move into Adams county, on his farm. We hate to give him up, but the best of friends have to part.

Independence Day at Red Cloud.

The following is the program:

Assemble at the bower adjoining court house square at 10:30 a. m.

Music by the Red Cloud band.

Lavocation by Rev. J. K. Harris.

Address of welcome by D. B. Spangole, president of the day.

Music by the Blue Hill cornet band.

Reading the Declaration of Independence by L. L. Feldham.

Music by the Red Cloud band.

Oration by Hon. Thomas Appelget.

Music by the Blue Hill band.

Basket dinner.

2 p. m. Match game of base ball.

Various amusements will be introduced later in the afternoon.

8:30 p. m. Magnificent pyrotechnic display under the direction of Prof Henry Cook.

Stock Pastured at Red Cloud mills, 30c per month for yearlings, 35 for two year olds, 40 for cows, 60 for colts and 75 for horses. Sailed and attended to by Marvin Chase at the mills. [42-2m] J. Q. POTTER.

Advice to Mothers.

Are you distressed at night and broken of your rest by a sick child, suffering and crying with pain of cutting teeth? It so send at once and get a bottle of Mrs. Winslow's soothing syrup for children teething. Its value is incalculable. It will relieve the little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's soothing syrup for children teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is now sold by all druggists throughout the world. Price 25 cents a bottle.
