Buildering a Postmaster. Thomas G. Robinson, colored, is Postmaster at Bamberg, a village in Barnwell County, S. C., whose population does not exceed one thousand. He resides at the village of Midway, some four miles distant, and is in the habit of spending Sunday with his family at that place. Robinson is an intelligent, respectable man, and was a school teacher before he was appointed Postmaster. He diligently attends to the duties of his office, keeps his accounts thoroughly correct, and is in every re-

spect an efficient and capable officer. The fact, however, that a colored man should hold the office of Postmaster is offensive to a good many of the "young bloods" of that section of Barnwell County, and Robinson has been receiving anonymous letters for some time warning him that if he did not resign he would be killed. Something over a month ago he received a letter notifying him that if he did not vacate the office in thirty days he would be suddenly taken off. Robinson paid no attention to these communications, but kept on attending to his official duties with such faithfulness that no one can be found who is will ing to say that he is not a good Postmaster. Last Saturday evening he closed the post-office and went to his home at Midway, intending to return on Monday morning. About twelve o'clock on Sunday night he was awakened from his slumber by a tuguit outside of his house and the firing of pistols. The bullets lodged in the walls of the room in which he was sleeping, and he subsequently discovered that two of them had struck his bed, but fortunately missed him. His five children were sleeping in the same room, but none of them were hit, although

the bullets struck all around them. The mob attempted to break into the WHEREAS. The press uv the Republican master that he would forthwith resign party, wich is all venal, jist becoz, in a one if his life was spared. The rullians then gathered about the door, and one of shot, her brandid Copish County ex a place | them administered an oath the purport wich is intolerant to everybody not uv the of which was that unless Robinson should vacate the post-office within appointment of Mrs. Varn, the widow of the former Postmaster, they would

By this time the villagers heard the uproar and some of them ran toward Robinson's house with guns in their hands. The ruffians disappeared and the neighbors kept guard for the rest of the night. The terrified Postmaster was afraid to go back to Bamberg on Monday morning and the post-office remained closed for one day. The Postoffice Department was advised of the closing of the office and a special agent was sent to investigate the affair. Robinson resumed his duties on Tuesday, and there has been no outbreak since.

This attempt to get rid of a colored Postmaster is in perfect accord with the Kuklux method of maintaining "white supremacy" in South Carolina. By the census of 1880 the white population of Barnwell County was 13,853 and the colored 26,003. Although there are twice as many colored voters in the country as white voters, yet we are assured that there could have been no political motive in the attack on Robinson, because the county is "solidly You don't say so!" ejakilated the Cheer- Democratic," and there is no contest for the possession of the office. The outrageous attack on this Postmaster by the young "bloods" of Barnwell is hardly as infamous as the attempt which is being made by their friends to create an impression in the North that the affair was instigated by a colored politician who was becoming jealous of Robinson's rising influence in the party. They have the assistance of the Associated Press in disseminating the ridiculons lie, but it is so transparent that no person of average intelligence will be deceived thereby. - National Repub-
