It was no fault of the editor of the Helms that Dr. Denney was not fatally injured.

A Guide Rock chap got full of booze in this city the other day, and while in an inebriated condition borrowed six dollars, and the next day he had forgotten who the fellow was that loaned it to him. The lender will please take notice.

Rep Cloud had quite an exciting time Thursday. Two fires in one day is a pretty big thing for Red Cloud. Still we might as well begin to put on metropolitan airs now as any time, and get used to them for its only a question of time when we'll have to do it.

A KANSAS man living near Salem, by the name of pointer, tried to snuff out this mortal coil by taking a dose of "rough on rats" but his stomach revolted and he still lives. As a Pointer we would say to those who wish to die by the "rough on rats" route beware of taking too much "pizen."

HON. JAMES LAIRD'S speech at the fair grounds Thursday is said to be one of the best speeches ever made in this city. Mr. LAIRD is an able and entertaining speaker, and knows precisely what he is talking about. His speech was very highly appreciated by all who had the pleasure of hearing it.

DURING fair week street fakirs and gamblers got in their work pretty well on our unsuspecting youth as well as others, and in this connection THE CHIEF is again compelled to enter its protest against the licensing of such thieving and swindling games on our streets. It is downright robbery and the sole intention of the operator is to take in everyone who nibbles their bait.

G. R. CHANEY was up at Alma the other day defending John D. Stoddard in a trial wherein Stoddard was indicted for murder in the first degree. Stoddard was cleared and duly released from custody. The trial was closely contested.

THE finest exhibition of poultry we have witnessed for a long time was that of C. B. Hosford at the fair. Mr. H. has the poultry business reduced to a science. His fine Plymouth Rock fowls would take first premium at any fair in the land.

THE CHIEF was presented with the three premium sweet potatoes raised by J. H. Remberg, which weighed 15 pounds. They were elegant. Each potato was almost large enough to cut up into wagon wheels, and for a time we thought we should embark in that business, but finally concluded to eat them.

The democratic county convention was held Wednesday, Oct. 14. The following is a list of the victims: Treasurer—F. C. Buschow. Clerk—S. A. Temple. Sheriff—M. Lovitt. Superintendent—O. R. Downs. Judge—W. A. McKeighan. Commissioner—Barney Coon. Coroner—Dr. Elliott.

We have received the Clinton (Ill.) Register under the management of "them Hughes Boys" and we are glad to see our old friends prospering and making the Register one of the very best local papers in the state. THE CHIEF wishes the boys success in their new role as editors of a great democratic paper, although we feel confident that they are "barking up the wrong tree" as far as democracy is concerned.

H. L. LUCE the Indian creek cheese man, had a fine display of cheese at the fair grounds, and was the sole exhibitor, notwithstanding the fact that we have several factories in the county. Mr. LUCE's enterprise is quite commendable and we are pleased to learn that he walked away with the first premium on new cheese, on old cheese and on the best display of cheese. He makes a No. 1 cheese, and is getting a splendid patronage. Success to him.

THE Blue Hill and Red Cloud based ball clubs (both first nines) measured bats upon the diamond at the fair grounds Thursday afternoon and after several innings the Red Cloud boys came out victorious as they always do, and were proclaimed the winners. On the day following the first and second nines of this city played a game, and on this occasion the first nine got scooped by the second nine. Both games were witnessed by large crowds and were very interesting.

A CHIEF reporter visited the new building now being erected and fitted up for milling purposes by the Red Cloud Milling company, west of our city on the Republican river. This mill when thoroughly equipped will be one of the best in the state and will be prepared to turn out 125 barrels of flour per day. Part of the machinery is now on the grounds and altogether the building and machinery will cost about \$35,000 we understand. It will certainly be a paying investment for its projectors.

We are sorry, but that makes but little difference. The last legislature wanted to be kind and give the people another office, that of register of deeds so that office seekers could add another string to their bow, but there having been a clerical error in the engrossing of the bill it has been decided null and void by the supreme court, and hence a large number of people in the state will be sadly disappointed by the action of the supreme court in declaring it not a law. The work of the proposed office will revert as of yore to the county clerk's department.

MUSICAL.—The recent band contest at the fair has been a matter of considerable comment in musical circles. It is claimed, and justly too, that the true test of musical ability lies in being able to read and execute new or strange music at sight, and not for any particular proficiency of execution of old and threadbare productions that have been practiced incessantly for months. Time also has much to do in the matter, but time in music, without expression fails badly on the cultured ear. There is no doubt whatever in the mind of any competent musician who listened to the band contest between Blue Hill and Red Cloud, that the latter were entitled to the premium, good choice to the contrary notwithstanding. However the boys are not kicking and not disposed to be generous. Nevertheless they are willing to look horses in a friendly contest with the Blue Hill away other hand for a purse and the championship of the Valley. Our band has been but recently re-organized and are financially embarrassed, but our citizens are responding nobly to their appeal for aid and ere long we expect to see the boys able to wear good clothes and hold their own with the best musical organizations in the state.

UNCLE VERT LINDSEY, who was well known in Red Cloud as one of the 1871 settlers of Webster county, and who has been suffering for many weeks past with dyspepsia and a complication of other diseases, passed from earth to the great beyond on last Friday. He was an unexceptionable man, well read and a man who never missed an opportunity to help a friend whenever it laid in his power to do so. Being one of the old settlers of the county he naturally passed through the trials and hardships of the earlier years when the settlement of Nebraska was a project that was unavailing in the extreme but he like many others felt confident that all would be well by and by, and put up with those hardships that turned many others from Nebraska, but he has gone, gone to the land beyond the stars. Peace be to his ashes. His many friends and relatives have the sympathy of the entire community in this their sad affliction. At the time of his death he was sixty-three years of age.

DEPT. at Red Cloud, Oct. 9th 1885, after a long and painful illness from diseased stomach, Mr. Vincent Ludlow who was born in Butler county Ohio, July 23rd 1823. He died early in the regular army of the U. S. served in the Mexican war. In the year 1857 settled in the state of Iowa and came to Red Cloud Nebraska in the year 1875 where he remained until his death. He was a man of the natural mind and of uncommon memory. Pleasant and agreeable in conversation, had many friends and few enemies, truthful and honest, bore his great suffering patiently and cheerfully. Desisted no show or parade over his remains, no eulogies, saying that he was honest and true and his life was known to his fellow men and they could judge him. A few days before his death he remarked that his hope and trust was in the Lord.

The fact that township organization has been talked of in the last few days by our people over the county leads THE CHIEF to remark that if the project should carry the people would only be too glad to return to the commissioner system inside of two years. The county is not ready for such a move just yet. In fact the expenses attached thereto is altogether too much to be thought of at this stage of county affairs. Each day that the commissioners meet it costs the county \$9, but if the supervisor system is used it would cost the county something like \$50 to \$75 per day, certainly too great a difference for the amount of good to be obtained from the difference between the two systems of county government.

FRANK MINK! FRANK!—On last Thursday night about twelve o'clock the alarm of fire was given on our streets, and a little later on our people were on the ground hurrying towards the depot where the oil house and Mr. Birney's office were found to be on fire. The scene from up town was beautiful to those who witnessed it. The origin of the fire is not fully known and the loss can not be estimated as yet, but will probably be \$300 or \$400. During the progress of the fire Hugh Brown one of the employees of the company was very severely burned and will recover under careful treatment and good nursing.

REV. MA. DAVIS, the new M. E. Church minister, has arrived in our city, and preached his first sermon Sunday to a large and appreciative audience. He is a gentleman of more than ordinary ability and gives the people polished sermons tainted with good sound doctrine. He is a very pleasant and interesting speaker and THE CHIEF gives him a cordial welcome to Red Cloud and hopes his stay with our people will be pleasant and profitable both to himself and the church.

S. ALEXANDER, the Wells mail carrier while enroute for Red Cloud Thursday had a serious runaway. It seems that the king-bolt broke and let the wagon on the heels of the horses, and they became frightened and ran off, throwing Mr. A. out and bruising his face and cutting his right hand badly. His wife and children were also thrown out but were not as seriously injured.

On Thursday afternoon while our citizens were enjoying the festivities at the fair grounds a cloud of black smoke was observed ascending heavenward in the city, and at once the large crowd at the fair grounds became fearful that Red Cloud was, or might be burning, and a stream of vehicles were turned toward the city hurrying to see what was up. The Chief reporter was on the ground soon after the fire was discovered and on investigation learned that the stove of Mr. Joseph Graves and another belonging to J. H. Smith had been consumed by the devouring elements. Mr. Smith's loss will be about \$250 and Mr. Graves's we suppose will be about the same. The cause of the fire is supposed to have originated from a little son of Mr. Graves having set fire to some rubbish near the stable. However it was a good call and had the wind been contrary a great loss probably would have been incurred. The fire, which was much worse, but luckily by the assistance of the people the fire was kept under control. A horse belonging to Mr. Smith was gotten out of the stable just in time.

At the annual meeting of the county agricultural society last week the following officers were elected for the ensuing year:

President—C. G. Colburn. Treasurer—John Moore. Secretary—J. L. Miller.

The above gentlemen are men of ability and will make good officers, but we feel that the old officers should have been retained for one year more. The boys would hand to make the fair a grand success and are deserving of great credit for their untiring efforts in that direction. The new officers however have pretty fair sailing for the future and we believe they will strive to do their best for the success of the association.

THE Helms is afraid of mob leaders and on that account hesitates. F. A. SWEZEY, republican candidate for county judge in his issue this week with its usual malice hoping to influence and prejudice people against the gentleman by characterizing him as a "mob leader." Mr. SWEZEY is fully able to administer the duties of county judge with ability and good judgment, and will be duly elected on November 3, as will the entire republican ticket in Webster county. Of course it would please our democratic contemporary very much to be able to elect even a road overseer in Webster county on his ticket. But still his proudest hopes will have vanished with the coming of the November election.

Last week we made mention of the fact that Geo. W. Lindsey, of Pax Pa. Ills. was in the city looking for a suitable location to establish a packing house. Since then Mr. Lindsey has purchased the meat market and slaughter house of Wm. Gates and proposes to make this city his future field of operation. The meat market will be run as usual and constantly supplied with everything kept in a first-class meat market. A packing house as we know will be erected at a very early date and the beef and pork packing business prosecuted with vigor. We take great pleasure in welcoming Mr. L. into our business circles and wish him abundant success.
