It is not to be forgotten that a defeat of the Administration this year in New York would have been a wonderful and almost unprecedented phenomenon. Not once, since present political divisions have existed or for nearly half a century, has an Administration been beaten in the President's own State in the first year after his election A defeat so humiliating no President of not able to realize that in a few short months the new Administration had so weakened itself that a fall vote would have insured such a phenomenal defeat. With no Congressmen to be elected, with no direct issue to force National questions upon their attention, they have suffered the Administration to retain the one Northern State upon which it has concentrated its power. And yet it is now plain that even the President's own State might have been carried by the Republicans this war, had they realized their opportunity .--

Ordinarily when "sovereign rights" are invaded the only remedy is to take up arms; but as the Virginian Bourbons make no hint of war it is not clear how they intend to protect the State from the decisions of the Supreme Court. It is perfectly clear, however, that the Vice-President of the United States in congratulating and felicitating a Bourbon organization which has taken a rebellious and defiant stand toward the highest court in the country violates all the proprieties of his position and degrades an office which he is unfit to hold. The Party Consistent.

The campaign of 1885 closes as it began. The Republican party has not changed its ground or its objects. It has not varied its attitude in order to deceive any class of voters. It stands just where it did, appealing manfally and candidly to the people. The speeches of General Logan and Senator sherman which, as it happens, were both reported on Friday, bear witness to this fact. General Logan talked at the end of the campaign in New York nst as General Logan talked at the beginning in Illinois or Uhio. So Senates Sherman at the close in Virginio echoed, with only more of emp and clearness, and with a more elament appeal, the words of Sherman in Ohio at the opening of the struggle which in that State ended in victory. There is no sham or shirking about the Republican party. -N. J. Tribuna
