Acme Pulverizer

Harrow, Road Crusher and Leveler, subjects the soil to the action of a steel crusher and leveler, and the cutting, lifting, turning process of double gangs of steel cutters, the peculiar shape and arrangement of which give

Immense Cutting Power!
The three operations of crushing lumps, leveling the ground, and thoroughly pulverizing the soil are performed at the same time. The entire absence of spikes or spring teeth avoids pulling up rubbish. It is specially adapted to inverted soils and hard clay, where other harrows utterly fail. Satisfy yourself by giving the ACME a trial.
