Rev. Geo. S. Davis preached during last week at Guide Rock. A. C. Hale left this week for Little Rock, Ark., on an extended tour.

Mrs. Geo. B. Gates, Mrs. Tate, and Mrs. Wrench were pleasant callers this week. More of the beautiful descended last Saturday. We sigh for spring, gentle Annie.

Frank Demortel, of Hebron, an old clerk for A. S. Marsh, was in the city Sunday. The public sale at E. A. Stowell's at Guide Rock last Saturday was a grand success.

Miss Kate Goodyear, of Iowa, and Miss Alice Gray, of Ohio, made THE CHIEF establishment a very pleasant call on Saturday.

The sidewalk, through the efforts of Freight Agent Hulaniski, has been completed from S. W. Coon's grocery store to the track. This is a needed improvement.

The lodge of Ancient Order of United Workmen in this city is prospering finely. A large increase in the membership is constantly being made at every meeting.

LETTER list for the week ending March 6, 1886: Franz Navack, Fay Gorham, A. L. Franks, F. Blake, Wm and Nancy Johnson, Chas Goodwin, John G. Dodd, A. T. Stille.

AUGUST MILLER, a nephew of Mrs. F. Newhouse, who was recently married in Connecticut, has returned to Red Cloud with his bride, and is quartered with his aunt for a few days visit.

THE freight depot is assuming proportions fast. In a few weeks more it will be ready for use. New side tracks will be put in and other conveniences made for the benefit of the company.

On last Friday evening the ladies' aid society held a very pleasant and interesting social at the residence of Mrs. A. Wallace. A very large number of guests were present and enjoyed the occasion very much.

OUR young friend, Lou Vance, of Wright & Wallace's jewelry store, received the sad intelligence Saturday night that his mother was not expected to live. Lou went on the first train to Kearney, where his folks now live.

THE B. & M. is a splendid good road and has done much to build up our city, but wish that we want more railroads, and a larger and more thrifty city, therefore our people are anxious for new roads, first, last and all the time.

FRANK SMITH left Sunday evening for Vermont, where he will join the great horde of Benedicts, when he will return to Red Cloud. Frank is one of Red Cloud's best young men, and THE CHIEF wishes him prosperity and a life of happiness.

THE city election will be the next thing in order of any note and THE CHIEF hopes that an effort will be made to keep good men in office who have the interests of the city at heart.

During the coming year we shall need many improvements such as sidewalks street lamps, etc., and we should have good business men at the head of our city government.

OUR scientific editor and able corps of assistants were in THE CHIEF's observatory all day last Friday watching for the eclipse of the sun. At 4:30 p. m. the first indication of the solar extravaganza appeared and continued until Old Sol had descended behind the western hills. Smoked glass was at a premium for about an hour. The eclipse was visible for nearly two hours in this city.

CLARENCE G. EUSTIS, formerly of this city, and J. W. Foster, paying teller of the Omaha National Bank, will shortly open a bank at Curtis, on the Burlington and Missouri railroad.—Omaha Republican.

THE CHIEF extends its congratulations to its young friend and wishes him many years of success in his new business career, and hopes he will make a mint of wealth.

DR. A. M. WASSAM wrote G. R. Chaney on the 4th instant, that preparations are being made to commence work on the new C. N. K. & S. W. Ry as soon as possible in the full belief that the bonds will be voted to aid in its construction. He says that the line is an independent one, and that it is expected to go on east as soon as possible after the west end is completed, that if Red Cloud is made a point, Hastings will not, but that if they are compelled to make Biverton a point, Hastings will be on their direct line.

THE young man who suddenly descended the golden stair at the toe of an irate brother's boot last Saturday night, silently but wisely concluded that he had learned more sense in a minute than he had in a great many weeks before.

CHANCELLOR MARATT, of the State University, made a very pleasant and instructive address before the patrons of the public schools last Friday afternoon. During the day the Chancellor made THE CHIEF a very pleasant call and went through our three story print shop from cellar to attic. The Chancellor is making a grand success of the institution of which he is the head center.

RAILROAD BUMBLINGS.

On last Tuesday afternoon a meeting was called in the interest of the Rock Island railway. The main purpose of the meeting was to discuss a telegram received from Solicitor Lowe and another representative of the same road, Col. Baker. After a few minutes discussion a committee of J. L. Kaley, J. L. Miner, E. V. Shirey, D. F. Trunkay, J. S. Gilham and O. C. Case were appointed to visit Fairbury to confer with like committees from other towns on the survey. On Wednesday a portion of the committee E. V. Shirey and J. S. Gilham, accompanied by Geo. J. Warren, of the Argus and the editor of THE CHIEF, took the morning train and in due course of time reached Fairbury and became the guests of the board of trade of that flourishing city and were very handsomely entertained. After several consultations with the solicitor and his co-workers it was determined that there were but slight hopes to be expected in regard to the coming of the Rock Island road, and in fact the solicitor said he could make no proposition at that time, but did say that the road would be built through Jefferson, Thayer and Nuckolls counties to Nelson, provided that each county would give them bonds to the amount of \$60,000 each. But, however, all efforts failed to get a like proposition for Red Cloud, after strenuous efforts on the part of our committee, and consequently they returned home on the evening train.

Since the Fairbury meeting the surveying corps has arrived in the city and are quartered at the Valley House. We understand the route is quite a desirable one from Guide Rock to Red Cloud, but quite heavy from Nelson to Guide Rock.

THE C. N. K. & S. W. RY. The question now naturally arises, and is of considerable importance, shall we let our chance of securing a railway this year go by the board and wait for future results? THE CHIEF would here remark that it believes such an action on the part of the community would be suicidal to the interests of our city. We have the assurance from Dr. Wassam that the road will be built, but on the other hand our prospects for the Rock Island are few just at present, whatever the future may bring forth, and therefore we believe the voters should carry the South-western bonds on the 20th.

IF they fail to carry, our chances for other roads will be more remote than ever. THE CHIEF is in favor of as many railroads as the town will hold, and is anxious not to lay a straw in the way of such enterprises. A meeting of many of our leading citizens who were interested in the railroad enterprise was held on Thursday afternoon, and the feeling for the C. N. K. & S. W. Ry project was, as heretofore, unanimous and strongly endorsed by all present, each feeling confident that the bonds would be voted and the road built. It certainly is to the interest of every citizen of Red Cloud and along the line to weigh this matter carefully and candidly before casting their votes or using their influence against a project that is of so much importance to the future of our city and county.

In conclusion we think that by voting the bonds for the southwestern that it will not interfere with the prospects for the Rock Island, should it make us a proposition soon inasmuch as they only ask \$600,000 from counties east, and no doubt will not require from us any larger sum. That sum can easily be raised as Guide Rock will give in all probability from thirty to \$25,000 and the balance will cheerfully be given by Red Cloud, or if necessarily compels will or can be guaranteed by our capitalists.

BONDS.—We hope the people of Red Cloud, Line and Walnut Creek townships will see to it that the bonds for the Chicago, Nebraska, Kansas and Southwestern Railway are duly voted on the 20th. If there is one thing above another that is necessary to the advancement of the three precincts named above it is railroads, and the more the better for us, and Webster county in general. A railroad is a good paying investment. It increases the valuation of real estate, builds up towns, helps pay taxes, and gives a great many men employment. The road to the south-west is just what we want. It opens up a territory that will become one of the richest and most productive countries in the west. Be sure then and cast your ballot for the bonds. It will be a source of regret, in our opinion, to every citizen in the three precincts if the bonds fail to carry. Vote early, and vote for the bonds.

On last Thursday evening our friends F. E. Goble and his estimable wife had been married twenty years. In order to properly commemorate the happy event his daughter, Miss Maude, conceived the idea of giving them a general surprise on the evening above named. Consequently she very carefully arranged to have a general gathering of the friends on the occasion, and so well did she keep the secret that the parents were completely dumfounded along about nine o'clock when the guests began to assemble at their residence on the corner of 7th Avenue and Seward Street. It was certainly one of the most pleasant events that has occurred in our city for some time, and the guests, one and all, wished the happy couple of twenty years of wedded life, many returns of the joyous occasion.

STILLWATER.

Did you see the eclipse? A Crawford has moved from Mr. Crawford's farm to Mr. Isom's farm. Anna Orr is on the sick list.

Mr. Woodside's little girl does not improve in health very fast. There will be a meeting held in the R. P. church on Monday evening, the 15th, with reference to the Sabbath, temperance and other live questions. A number of speakers have been invited and a good time is expected. All are kindly invited to attend.

JUDSON.

On March 3d Dr. E. Sutton died at his home in Smith county, and was buried on the 5th. He was 44 years of age. Rev. Chatham preached the funeral sermon, taking as his text the 1st verse of the 14th chapter of John, "Let not your hearts be troubled." A well studied discourse followed at the Shurtliff school house, after which the procession moved to the Womer cemetery, where the body was laid to rest. There was a large concourse of people in attendance. We lose a valuable citizen in the person of the doctor. E. Sutton came to Nebraska on the 4th of July, 1877, with D. S. Helvern. He was then a stout man and remained so until his horse threw him and broke a blood vessel. Since that time his life has faded slowly away. The bereaved wife and family have our sympathies.

Charles Steffen is on the sick list. Mrs. Barrett is on the sick list, also Mrs. Armisted.

WALNUT CREEK.

Farmers are preparing their plows for spring work. Snow storm Saturday. Your correspondent was quite chilled while coming home from Riverton.

John Carnes and Ed. Hallman have gone away to work on the railroad for Mr. Shepherdson, of Riverton. Mr. Vanderberg has left for Missouri. Messrs. Sam Soper and P. S. Noble have sold out and are waiting for the appointed hour to start for western Oregon.

P. S. Noble's little daughter Minnie has a severe attack. We have concluded not to build our M. E. Church at present but hope to get a good site near the future station. Mrs. S. B. Kizer is very sick in Ohio. It is likely that she will not recover enough to return this spring. BETA.

COWLES.

We have at the time of this writing, good winter weather, with plenty of snow. A. H. Lineberger is removing his family from Red Cloud to Cowles this week.

Mrs. Edson has removed from her farm to her new residence in Cowles.

The trustees of the M. E. Church at this place have recently secured lots for a church building and parsonage.

T. J. Ward received a telegram on Monday evening announcing the death of Thad. Arnold's little daughter. Mr. Ward and family attended the funeral Tuesday.

Rev. G. W. Hummel will commence a protracted meeting in Cowles on Wednesday evening, March 17. All are invited.

E. L. Ball and M. F. Calhoun, two of Garfield county's prosperous farmers, were in Cowles and vicinity last week. Mr. Ball was formerly a resident of this county, and while greeting his old friends here he did not forget to tell them that there was recently added to the Ball family another son who in size is fully up to the Nebraska standard.

J. C. Turner started on Tuesday last for his home in Kansas City. He leaves many friends here.

Mrs. H. B. Brubaker was favored last week with a visit from her mother Mrs. White, of Garfield township.

Douglas Terry has purchased the steam engine formerly used by J. C. Waller in running a feed mill. Mr. Terry will, we understand, use it for a similar purpose.

Mr. Waller is also putting up a new feed mill this week. L. H.

Mr. L. N. Le Bontz, who lives north of town, while in our office one day last week, related to us the biggest story we have yet heard in connection with the late blizzard. On the second day of January his lot of twenty-nine sheep were snowed in beside a straw stack. Three others he could not find and he supposed they were dead. At the end of thirty six days, however, one of them made his appearance, a mere shadow of its former self, and twelve days after, or forty-eight days after their imprisonment the remaining two made their appearance. At the time they were snowed in the pig would have weighed about 125 pounds each; when they came out, neither of them would have weighed 25 pounds.

Who is "Deborah?"

Some one whose abode seems to be "whited sepulchers" in Red Cloud, writing the New Republic, of Lincoln, apparently in the interest of temperance, among other things, strikes vigorously at the preachers here. Shak-spears says: "Slender's tongue out-venoms all the worms of Nile." It would be quite as true if he had said "all the worms of the still." As one of the preachers of Red Cloud I ask who is this 'snake in the grass' here, anyway? Will the New Republic tell us? J. G. AIKMAN.

MR. CHAS. F. REMBERG, the well known ranchman, and Miss Florence Walker, second daughter of Judge Walker, of Palo Blanco, were united in marriage at Raton Wednesday. The ceremony was performed at the residence of the bride's brother, James M. Walker Jr., by the Rev. J. McLaughney. Only intimate friends were invited and the bride and groom are now enjoying their wedding tour in Colorado.—Raton (New Mexico) Comet.
