

WALNUT CREEK.
As it is the fashion for correspondents to mention that Spring is here, I will do the same.
Mr. Murphy has moved on the O'Brien farm.
Mr. John Bay, from Ash Creek, accompanied Bro. Hummel last Sunday. Did you hear of two young ladies who took a wheelbarrow ride last week near Poplar Hill?
Perhaps it would be well to mention the fact that there are a few ticks taking a spring walk for their health.
S. W. Warnock's brother-in-law has been looking for a farm here. **BETA.**

CROOKED CREEK.
A hard spring has come and it is the early bird that catches the worm.
During the past fine weather the farmers have been busy putting in their grain and getting ready for planting corn. The country is fairly teeming with life and activity.
D. F. Tennant's house is nearly ready for the plasterers, and soon he will be living in his new mansion.
Mrs. Wm. Dickson has been quite sick for a short time past.
Miss Ada Howard, of the city, is teaching the school in this district.
Will some of the many readers of THE CHIEF please tell us something of the southwestern railway that was going to do so much for this county?
As everybody is busy and news is scarce, I must close, wishing THE CHIEF the compliments of the season I remain, a **BULLDOG.**

CATHERTON.
Miss Blanche Gibson closed her school in Highland after a very successful and satisfactory term. Below we give a few names of those who realized effort was success and merited great credit: Flora Cramer, a short lesson in astronomy; Hattie Cramer, Little Bo-Peep, Emma Warner, "Be Kind"; Edie Britton, "On the Banks of Tennessee"; Otto Wakeman, "You Think I Don't Speak"; Master Cowley, "John Logan in Congress." Then were the school and spectators given in the true spirit of eloquent accomplishment, "The Curfew Must Not Ring Tonight," by Miss Gibson, after which the goodbye came, only to bring more vividly to their minds that they were separating from one that had so diligently discharged the duties entrusted to her, and one who had at all times so judiciously administered such laws as would be productive of good results and leave an impression of a moral nature in their minds and one that thought it right to discharge the duties which lie nearest you. Miss Gibson leaves with the entire respect of all.
Mr. John Potter and wife, of the great metropolis of the Republican Valley was driving in this part Sunday also Harry Feight and wife. **SAINT.**

COWLES.
Splendid weather for farm work, and farmers all busy.

G. W. Hager on Tuesday last received a lot of very nice furniture which he bought of W. D. Forrester, at Red Cloud.
Thomas Hodgson has, we understand, closed his meat market in Cowles, with the view of engaging in other business.
Thomas Paul is now in his new building where he keeps on hand a good supply of groceries and confectionery. Good cigars a specialty. **LITTLE HATCHET.**

ARKANSAS.
BRADFORD, ARK., April 13, 1886.
FRIEND HOMER: Again I take up my pen to let you know that I am still on the top of the green earth—been here almost three months and no chills yet except northern chills which we felt considerable about the 2nd and 3rd of April, 6 degrees of freezing. That was the coldest we have had for a month. I finished planting corn yesterday would have finished on the tenth, but it rained Saturday afternoon and put a stop to our work, have had a great deal of rain through latter part of March and the fore part of April the last two or three days have been very beautiful and warm, nice growing weather. Our early planted corn coming up nicely, oats three to four inches high; garden in nice shape peas, radishes and lettuce, four inches high, soon be ready for the table and company. I must say a little about our society, as this heretofore has been omitted, and some of you may think we have none, but you are left when you think so. We organized Sunday school (Methodist) at our school house half from my place, three weeks ago and sent for Cook's lesson helms, same as we used in Nebraska. Last Sunday our school numbered 75 scholars, it being rather unpleasantly cool day for this neighborhood and some claim only about half a turn out. After school we listened to a very pleasant and well handled discourse from our Baptist minister, Rev. Thos. Mason. We have a very good class of something like 35 members, mostly Methodists, and a number one Sabbath school. Our public school will commence 1st of July and continue six months. Our fruit prospects are very good for every variety except peaches which will not be more than half a crop, owing to the late warm weather about the holidays, which caused the buds to begin to swell, and then a very severe cold spell set in immediately after and froze a great many of the early varieties. Cherries, peaches, pears, early apples and plums are all out in full bloom.
I was considerably amused this evening while making my usual weekly perusal of your most valuable CHIEF, while looking over the list of correspondents, (which is about the first thing after the wrapper is off) I see Bro. "Sid" of Judson, is still among the living, and showing the pencil as usual. Now "Sid" don't be too sure about us coming back shaking with the age as you say, to God's country. From the description you give in your article I should rather say deliver me. In your first paragraph you say "snow all week and the roads very bad," and in your last paragraph you say quite a number of your neighbors are still on the sick list, which implies they have been sick for some time. Now "Sid" don't get mad and fly off the handle when I say there are none of us, (which means 10 in family) on the sick list, and I don't know of any except Mr. Allen, an old gentleman over 80 years of age, who is somewhat feeble. About snow and mud, Well, yes, a little mud, but no snow. Now, Bro. Sid, will you just step out on my north porch today while the thermometer registers 75 in the shade and take a seat there long enough for me to point out to you a portion of Paradise. Looking to the northeast some 3 or 4 of a mile lies the growing crop; some 40 rods northeast lies the fish pond with a beautiful grove of oaks partly surrounds it; north from the house some 60 rods is the orchard, some 10 rods from where we sit are my early apple trees all covered with bloom; quite near us in the beautiful green grassy yard are a row of May cherry trees, six to eight inches thick which surround the dwelling, and are all out in full bloom. Just east of the porch is our garden filled with all kinds of spring flowers. Now Sid how do you like the looks of that. See those peas almost ready to bloom; lettuce, radishes, beets, tomatoes, etc, set out although small, asparagus nearly large enough to eat. The strawberries, raspberries and grapes all putting forth their rich and fragrant buds. Just a little beyond the cherry trees is a box on a pole filled with those nice little martin birds which we hear singing their sweet songs of praise to the all wonderful being who has made us a Paradise on earth. Now, Bro. Sid, don't talk to me anymore about shaking with the chills in God's country, nor walk off on your ear at what I have said, but for a moment just contrast God's country with Paradise Okdale Farm on the mountain. **D. S. HELVER.**
