A Great Change.

There is no country on earth that is making the rapid strides that Nebraska is, and especially is this so of Web ster county. The old land marks the early pioneer days are passing Presbyterian cour h Rev. Mr. Flagg away, and in turn are being replaced by more modern improvements Farmers from the east have not been slow to see the immense advantage of Nebraska soil and are coming west large numbers and are locating all over our vast prairies. But aside from the improvement made in farming, other branches of ousiness have kept apace with that important industry and especially is this so in the milling business. The old grist mills of years ago have become almost useless in the manufacture of superior brands flour and consequently have taken back seat for the greatly improved er, and lastly Deacon White and Miss roller system which is of a late invention. The old Amboy Mills, formerly owned and run by Polly Bros., in its day one of the best mills in the state has recently passed in the hands of corporation known as the Amboy Milling Company, and has been thoroughly overhauled and replaced by the finest roller process that could be procured in the United States, and today the company are compelled run night and day to keep up with the demand made upon them for their fine brands of flour now manufactured. They are now engaged in shipping to all of the principal towns and cities in nearly all of the western states, their finest brands, viz: Pride of the Valley, Rose of Amboy, and Good Luck. None but the very finest and best quality of wheat is used in the manufacture of Pride of the Valley and Rose Amboy, and these brands are warranted to be the equal of any made in the state. Good Luck is a good standard flour and well adapted to family use. All of the above grades are manufactured under the supervision of the most experienced millers, and company respectfully solicit a trial of ed by disease and it went hard with ing for a brief visit in the Empire their finest grades. THE CHIEF is being given encouragement, and a

pleased to note the prosperity of the company and their success in manu facturing such excellent grades of flour We bespeak for them an immense trade. Webster county certainly has two of the finest mills in the west.

MISS ETHEL Howe, a vocalist of su perior merit, assisted by home talent, will give a concert for the benefit of the Episcopal church on the 5th of May. Miss Howe is a pupil of Albert Lawrence, and comes very highly re. commended by him. All those who desire a rare treat and enjoy hearing fine music, should not fail to hear her, Miss Ethel Howe has sung with great acceptance at many festivals and

concerts in this city, and throughout the country, including those given by Gilmore's Band. P. S. GILMORE. New York City, March 3rd, 1884. Miss Ethel Howe sang the air and ariations the "Carnival of Venice," arousing the greatest enthusiasm of evening by her marvellous execution and the ease with which she dwelt, not merely in the region of high C's, but ascended to the altitude of F. Her notes in this register in their flageolet-
