H. J. MAUERER is greatly elated over his success as pisciculturist. The black bass spawn put in the ponds a year ago have grown with surprising rapidity, some measuring six or seven inches in length. Mr. M. will get 200,000 more little fish from the state fish hatchery next month, and plant in his pond. Pisciculture is a scaly business but we believe Henry has struck a bonanza.

CYCLONE parlors are now the most popular places of resort in the west. They afford opportunities for deep meditation and prayer, during a blizzard, unsurpassed by the finest churches in the land. In the pre-athletic era when frame dwellings were as scarce as angels' visits, and grasshoppers thicker than hairs on a dog, they were known by the unromantic title of "dugouts." They not only afford a safe asylum for the storm-tossed pedestrian, but also a magnificent abode for the industrious flea. The dirt creosote dugout of the wide, wide west will ever remain dear to the hearts of those it has sheltered.

Full particulars can be obtained by writing to General Logan or the Quartermaster General of the United States Army.

"To be or not to be"—that is, the question whether it is more beneficial to our citizens to suffer the dust to blow, or take up money enough to procure a man to sprinkle the streets, and thereby end the discontinuity that we are subjected to.

DURING the first three days of the week Judge McKieghan's court was occupied by the trial of Fred Bentley of this city, vs. Mr. Woolley, of Kansas. The case was elaborately argued by counsel on both sides. The decision was reserved by the Judge until Thursday, too late for this issue.

THE bridge across the river at this point has been materially strengthened by new piling, which have been driven thereunder at the instigation of our county supervisors. IT seems to us that the Webster county agricultural association should begin soon to prepare the premium list, and not wait until a week or two before the exhibition. The lists should be out at least three months before the fair comes off, so that the people will have an opportunity to prepare articles for exhibition.

PROF. WAD EL WARD delivered a series of lectures in the Methodist church this week, on the subject of life and customs in the Oriental world. The Professor is a native of Jerusalem, where he was born and bred, hence is thoroughly posted in the history, both past and present, of the Holy Land and adjacent countries. His lectures and illustrations are highly entertaining and instructive.

MR. VANALSTINE, the veterinary surgeon who lately came to Red Cloud to practice his profession, was severely injured one day this week while attempting to doctor a horse. It seems that the horse's shoulder was diseased, and while the doctor was treating the same the horse became fractious, throwing VanAlstine violently against a wagon, injuring him internally, from which effects he will be laid up for a number of days.

THE sidewalk boom still continues. At every meeting of the city council walks are ordered laid on some of our streets. This is a move in the right direction and should be encouraged, as there is no one thing that gives our city a neater appearance than good sidewalks. Every property owner should freely build walks in front of his residence. The indiscriminate laying of walks would be, perhaps, injudicious, but every street should have one good walk.

Program for Decoration Day.

James A. Garfield Post No. 89, will meet at Freemasons Hall at 12:30. All secret societies joining in the services will meet at their respective halls at 12:30, march in a body escorted by Garfield Post No. 89, G. A. R., to court house park at 1 p. m.

LINE OF MARCH.

On arriving at cemetery schools will open order, Garfield Post and Woman's Relief Corps move to the front and take the lead in the decorative ceremony, assisted by Sons of Veterans and K. of P. I. O. O. F. and public schools. After decorating the graves proceed to the center of cemetery and form hollow square, firing party in front, when the wreath for the unknown dead will be deposited by Comrade Jos. Garber, with appropriate remarks. After which the entire command will form and march to court house park, where appropriate address will be made by Hons. W. A. McKieghan and J. S. Gilham.

First ward school will form at their school building and be ready to fall in at rear of second ward schools on arrival at Division street. By order of James A. Garfield Post, No. 89.

UNCLE LEVI MOORE met with a serious accident on Tuesday night of this week. It seems that while out riding with Harry Feight they had occasion to stop in front of the post office, and while there for some cause the horse started up suddenly, and the buggy having no top, and a low back, Uncle Levi was suddenly thrown out backwards, lighting upon his shoulder and head, injuring him severely, but we are glad to note that he is recovering as fast as possible. It was a close call.

FROM reliable sources we learn that the Rock Island officials having made satisfactory arrangements for the extension of their lines in Kansas, are now turning their attention Nebraska-wards, and doubtless the Nebraska extension will be pushed with vigor, and ere many days we may look for something tangible in the railway line pointing direct toward Red Cloud. The Rock Island meat business, and will receive substantial aid and encouragement along the entire line of the Nebraska route.

IF Mr. Chaney receives the nomination of the republican party of this district there will be no danger whatever of his getting left.—Chief.

Why, certainly. "If" Mr. Chaney receives the nomination to one, not even a democrat, would doubt his election. Mr. Chaney has not yet decided to become a candidate, but should he so decide there will be a rustling among the dry bones, and Webster county will come nearer "getting there" than ever it has in late years, politically. The "Chief Straddler" will then fall into line.—Argus.

Wonder which side of the line the grand and lofty Argus nungwung "bolter" would fall in case of Mr. Chaney's nomination.

Mrs. DeHart went to McCook this week in response to a telegram announcing the serious illness of her grand-daughter, Mattie Calmes. Mattie died on Sunday after a painful illness of three weeks duration, aged 12 years. Her remains were brought to Red Cloud by her grief-stricken parents, and buried in the cemetery.

Rev. G. W. Hummel officiating. Mr. and Mrs. Calmes formerly resided in Red Cloud, and have the sympathy of their many friends hereabouts, in their sad affliction.

IT now looks as though the B. & M. road will build a branch of their line from Red Cloud south, through Smith Centre and Cedarville, in Smith county thence to Stockton, county seat of Rooks county, and on to Hayes city. The people all along the line are very jubilant over the prospect of the early building of the road. J. R. Newell, of Cedarville, thinks the town has the best prospects ever known. At one time, and long before the railroad was completed here, there was a large colony of Atchison county people here, but the drouth drove many them back and now the town is taking another start—a railroad and building boom is going on.—Cor. in Champion.

A YOUNG cyclone struck the city Saturday evening scattering things "gala-west and crooked," but fortunately doing no serious harm to buildings. Dr. Emigh had a narrow escape from death while trying to secure a gate in his back yard. The wind caught up a large hen b, whirling it through the air, striking the doctor on the right leg with such force as to knock him down, badly spraining his right knee and severely larking his left shin. He managed to crawl into the house and is now obliged to wear crutches. It is fortunate the bench happened to strike him so near the ground, otherwise he would doubtless have received fatal injuries.

Highly encouraging reports are being received from along the line of the C. N. & S. W. Ry. The south-western road, if dead, makes a mighty lively corpse.
