### A Distinguished Clergyman's Testimony.

Rev. R. M. Pickens, President of the Methodist Protestant Church of South Carolina, writes from Greenville:

"About four years ago I was attacked with what the physicians pronounced neuralgic rheumatism, accompanied with erysipelas. My appetite failed me entirely, and I had an intermitting pulse and very irregular pulsations of the heart. A terrible pain soon came into my chest and shoulders, and I became so helpless that I could attend to no business at all. The pain was movable, and would sometimes pass from one part of my body to another. Finally the erysipelas broke out on my left hand and arm, and produced much swelling. I was for eighteen months afflicted in this way, and of course used a great many kinds of medicines, but nothing gave me relief. Friends finally persuaded me to try Swift's Specific. I noticed a decided improvement while taking the first bottle. I continued its use until I had taken about one dozen bottles, when I found myself sound and well again, with no sign of disease left except a stiffness in my hand, a result of the erysipelas. While taking the medicine I gained on an average two pounds of flesh per week. I think S. S. S. a valuable medicine, and I frequently recommend it to my friends."

### The Bond Question.

If our Pleasant Hill citizens will stop and turn over the Missouri Pacific bond question in their minds they will observe that it will be a paying investment for them to vote bonds. The three thousand dollars to be voted by them, if carried, will cost the township not over \$180 interest annually, and the taxes off of the road bed which would be assessed at something like \$30,000 would bring back to the township something over a \$1,000 yearly. It will be a good speculation for Pleasant Hill in any event.
