Runaways have become quite frequent of late. The latest occurred Wednesday when one of Ed. Smith's teams ran away with a cultivator shaking things up lively. It was a narrow escape for the driver.

**Red Eagle Jamboree.**  
Saturday night the stillness of the city was broken by several explosions of firearms over in the vicinity of the Red Eagle bungalow. Upon investigation it seems that a number of toughs visited that place some time ago and one of the party had had a watch nipped thereabouts, by that ungodly outfit, and it is further reported, that on this occasion the party or parties returned with bottles and bricks which they proceeded to fire into the windows of the ranch, all which the detestible inmates resented by shooting at them. Now, according to our opinion, this business should be stopped, and stopped short never to go again. It is a disgrace.  
**Telephone Exchange.**  
There is a prospect that Red Cloud will soon be in possession of a telephone exchange. It is something that is sadly needed here and will be a great convenience. We hope it will be pushed through.

**Children's Day at the M. E. Church.**  
Last Sunday was Children's Day and was duly observed by that denomination the world over. At the M. E. church an extensive program was arranged, and to say that it was a grand success, would be putting it quite light. The recitations, songs, &c., of the little folks were very attractive and created great applause. Those who had the matter in charge deserve great credit for the successful ending of the day.

**The appearance of a ferocious mountain lion in the suburbs of Red Cloud startled a pair of travelers in that vicinity recently. The dangerous animal showed his teeth and lashed his tail in quite an angry fashion, causing the travelers to flee from the spot in great precipitation and terror. Judge Cessna relates the story as a thrilling adventure in one of his latest traveling experiences. Red Cloud might fence up a convenient tract of land and run in wild animals enough to make an attractive and good sized zoological collection. No other city in the state possesses such great natural advantages as such a fine scheme.—Gazette-Journal.**
