The election will take place November 5, at that date the helting outfit led by Simons and McKeedy will receive a Waterloo.

If we had ever defrauded our brother out of a farm, we might had the proper requisite to run a prohibition—boo-die paper. Plumb, did you not do this?

J. P. Honeycutt in his last week's issue, comes out flat-footed in favor of the republican ticket. The Herald is an independent paper, but his judgment in the matter of politics is excellent. We congratulate him on his manly stand.

The bolters and democrats are doing their utmost to cause a break in the republican ranks so that the democratic candidate for treasurer will stand a show of being elected. While we consider that the republicans have an easy victory it would be well to keep a vigilant watch and see that every republican votes a straight ticket. George Hummel is as competent for the office of treasurer as is his opponent and he was honestly and fairly nominated at the county convention and it is the duty of every republican in the county to stand by him and see that he is elected.—Cowles Herald.

Mr. Plumb, of the Helmet, a paper that has failed to make a living under any of its management since it was started, takes occasion to say that the First National Bank has a chattel mortgage on us. Of course that is a lie, as there is no such document on record against us, but then it is in line with Plumb's recent sell out for boodle to the big 8. He has gone over to the worst outfit in the county and having violated his conscience (if he ever had any) in selling out for boodle, and then lying about it has to add another lie on top of it by saying that the bank had us mortgaged. We did have some respect for Plumb at one time, but a man who will fail and beat the people out of money to the tune of several hundred dollars with out reputation isn't much of a man, and as for us we don't know but what it would be better to give a mortgage than to receive goods without a just equivalent. You must feel pretty sore Plumb to think that you have sold your honor so cheap. Just think of it, and then to lie about it, certainly isn't result to injury.

One most important thing for voters to remember is that Hummel if elected will not touch a cent of interest on county money. No one has any insurance that if his opponent is chosen, he will not pocket a large revenue from interest on the people's money than they see fit to pay for all the work of this office. This idea of taking the slash fund out of county politics has many warm friends and adherents in both parties, and the man who will content himself with the salary which he faithfully and honestly earns is the man for the farmers. Times are not flush enough so the tax payers can afford to pay extra, three or four times what he gets. Thank you.—Herald Times.

#### The Electric Lights.

We have several times mentioned the fact and do so again, that the city ought to own its own electric light plant. We believe that it could be put in for six or eight thousand dollars, and how long would it take to pay for it at the rate they are paying for lighting the streets now, besides the city could light its streets much better being able to place lights on every street for the same expense that it costs now for sixteen are lights. It is certainly a matter of much moment to the tax payers. The city must be lighted and the cheapest way and best light is what is wanted. The plant could be run with the same amount of coal as it takes to run the water works. The council should look into the matter at least.

#### A New Deal.

Thirty days hath September, April, June, and November, all the rest have 31 excepting August, and we find by investigating the city records that Simons makes it 38.

All that the big 8 care for Plumb is to use him to do dirty work until after election, and then they will drop him like they did Grant Ludlow when he ran the Helmet.

Fassler, and the big 8 bolters are making all kinds of promises to the people in order to secure votes. The result will be, if Fassler is elected, that the money of the county will go to the possession of Usurer McKeedy and his gang, who will use it to loan to poor farmers at excessive rates of interest. McKeedy in his wild chase for the county funds, is working for his bank, the Farmers & Merchants, through which he expects to get hold of the county funds. McKeedy's record in the August Pierott and Henry Reagan cases is enough to damn him eternally with people who have the good of the county at heart.

This cry of the big 8 ring of "no other bank in the field" is barely untrue. The F & M, bank is making a death struggle for the funds of the county, and hope to elect Fassler just for that purpose. The facts are that the entire outfit of bolters belong to the F & M, bank. They could not name the republican nominee, hence they went into the democratic party and named him.
