

A TRIPLE DISASTER.

Double Gas Explosion and Fatal Bombs at (City) Capitol—Nearly a Dozen Killed and Others Seriously Injured.

COLUMBUS, O., Jan. 25.—A few minutes after five o'clock yesterday afternoon an alarm of fire from the corner of Main and High streets called the fire department out and the news spread that there had been a natural gas explosion. The sharpness of the day had brought to the streets thousands of shoppers and promenaders and the crowd thoughtlessly rushed to the scene.

The explosion had occurred in the one story dwelling at the southwest corner of Wall and Noble alleys in the middle of the square bounded by High, Front, Main and Mound streets. Patrol No. 1 was on the scene, but no rope was stretched and the people crowded by hundreds into the narrow alley and pushed up close to the house, as the cries of injured people within could be plainly heard.

The city had recently been supplied with natural gas and leading past the house occupied by Marriott and Flowers was one of the main gas lines. This had leaked and the gas had found its way through fissures in the ground to the cellar and becoming ignited in some unknown manner exploded, wrecking the building and filling the air with debris.

The house where the injured woman lay was soon crowded with people, attracted by the accident, and it was soon necessary to close the doors, that no more might enter. Suddenly the air was rent by a tremendous explosion, which made the earth quake and filled the air with flying timbers, bricks and debris of all kinds. Darkness ensued and then a death-like stillness reigned for a few moments, broken by shrieks and death groans. The house in which lay Mrs. Marriott had been blown to atoms and its occupants buried beneath the wreck, and hundreds of spectators who lined the sidewalks were knocked violently down by the shock.

The people fled, shrieking, in all directions while the alley was instantly covered with a mass of debris from which the means of the buried came. A moment later trembling women tottered and ran across the alleys and streets shrieking, and men with foreheads and shoulders dabbled with blood staggered from among the debris.

Then to cap the climax, a team of spirited horses attached to one of the fire department trucks became frenzied by the explosion and dashed through the crowd in the street carrying death in their wake. They ran over and injured scores of people. A little babe was knocked out of its mother's arms and falling beneath the wheels of the vehicle was crushed to death.

As upon the maddened horses had disappeared in the darkness many of the spectators and firemen who had been uninjured turned their attention to digging out the persons buried beneath the ruins of the house. Guided by the cries and moans of the mangled and dying, men groped in the darkness pulling out a dead body here and a mangled yet living form there and conveying them to resting places.

It required several hours to remove all the dead from the ruins and it is not yet known who or how many are the victims. Following is the list of killed so far as ascertained: Charles Boett, Mrs. John Marriott, an infant son of Charles Berry, James Seymour, colored boy; white man, name unknown; a babe, parents unknown.

The injured were: Dr. T. K. Wishinger, badly and probably fatally burned and bruised; Herman Baker, badly burned; Daniel Cherry, burned painfully; Charles Woodruff, cut and bruised seriously; Mrs. Fuller, burned and injured internally, probably fatally; Patrick Suisak, cut on head; Aaron Beers, cut on head and face; Benjamin Morgan, gashes on head and internal injuries; Charles Lowry, burned and bruised; Albert Tickler, bruised and cut; Brady, burned and cut; Edward Viemer, cut and burned; Wolf, cut and burned; Miss Belle Smith, badly hurt; Mrs. Corn, badly burned; Peter Marriott, terribly burned about the shoulders and neck; Tom Doyle, hands burned partially off; Emma Bowers, probably fatally burned; Marshall Kilbourne, horrible injuries on neck and head; William Brady, probably fatally suffocated; William James, hands and face roasted, will die; Mrs. William James, badly cut and bruised.

The explosion as near as can be ascertained resulted from an accumulation of natural gas in the cellar of the house occupied by Michael Bowers and Mr. Marriott. No natural gas pipes were ever put in the house, but the cause was a natural gas main in Noble alley which leaked. The ground was frozen and the gas seeking its way out went by the easiest way, and of course entered the cellar. It has no scent, and its presence could not be detected. It saturated the buildings.

Torpedo Boat Launched. BRISTOL, R. I., Jan. 25.—The first United States sea-going torpedo boat was successfully launched at 9:45 o'clock yesterday morning from the ship yard of the Herreshoff Manufacturing Company. A bottle of champagne was broken over her bow and the boat christened the "Cushing" by Miss Katharine K. Herreshoff, daughter of John B. Herreshoff, president of the manufacturing company. The fire was started as the vessel left the ways and smoke was issuing from the stacks as she entered the water. Steam was raised in thirty-two minutes and the auxiliary machinery was started and the boat sailed herself with her own whistle.

Won By Kansas City. CHICAGO, Jan. 25.—A return match for the purpose of shooting off a tie in a contest for a purse of \$200 between a Kansas City team and local sportsmen occurred yesterday afternoon at Grand Crossing. In spite of the strong wind prevailing creditable scores were made and some excellent work done. One hundred birds each were shot for and for a time the final result was much in doubt. The contest was eventually won by J. A. E. Elliott and J. E. Riley, of Kansas City, by a score of 91 to 80. The Chicago representatives were E. B. Wadsworth and C. W. Budd.

THE TOWNSHIP BILL.

Provisions of the Oklahoma Township Bill as Amended and Passed by the House.

WASHINGTON, Jan. 25.—The House yesterday concluded the consideration of the Oklahoma Township bill in Committee of the Whole, reported it to the House and at once passed it. The third section, which was the only one in dispute as agreed to in committee, was as follows:

Sec. 3. That in all cases where townships are entered under the provisions of this act for the use of the occupants thereof, it shall be the duty of the commissioners on entering such sites to hear and determine all controversies arising between claimants to any part thereof or to any lot therein, and to convey the same to the occupants or inhabitants thereof according to their respective interests. That the Secretary of the Interior shall prescribe rules and regulations that shall govern said commissioners in executing the trust imposed by this act and shall direct how and where the deeds shall be made except as restricted herein and any actual settler upon any one lot and upon any additional lot upon which he may have substantial improvements shall be entitled to prove up and purchase the same at a price not to exceed the price as may be fixed by the Secretary of the Interior; provided that any person not legally disqualified from entering lands under this act shall have the right to purchase, at the minimum price, any lot on which he has heretofore purchased from legal occupants and upon which substantial improvements have been made; provided that the claim for a township or any part thereof or to any lot therein if made by a United States marshal or deputy marshal or other officer or agent of the United States who was in said Territory prior to the time fixed for entering therefor by the proclamation of the President, or if made by a person who entered said Territory or took possession of such township or part thereof or lot therein in advance of the time fixed for entering said Territory by the proclamation of the President, and in violation thereof, shall be deemed and held invalid, nor shall the claim of any person or his assigns be valid when such person, being lawfully within the Territory prior to the day fixed by the President's proclamation for entering said Territory, did during such time select a township lot or lots therein upon which he, after the time fixed by the proclamation, filed his claim, and the assignee or vendee of such officer or wrongdoer shall be secure no title by a purchase of assignment therefrom, but where purchases have been made from such officers or wrongdoers by bona fide purchasers in good faith, they shall be evidence of the facts recited therein; provided that any party having a mortgage or other bona fide lien upon a lot or lots deemed by the commissioners as provided herein, shall have the right to have the same recorded at length in the record kept by said commissioners, and each record shall be full notice to all of the character and amount of said lien or mortgage, and of the equities and rights of the parties therein.

MORTALITY IN CHICAGO.

Many People Dying of Pneumonia and Kindred Diseases.

CHICAGO, Jan. 25.—The Herald says: With the thermometer near zero the health officers looked for a falling off in the daily number of deaths in the city, but yesterday's record showed 150 deaths, an increase of eleven over the great record of the previous day. The mortality record for the past twenty-four hours exceeds any thing in the winter history of the health office. It has but one striking parallel in the summer. In 1877 there were over 100 deaths from sunstroke in one week. The death certificates show a continuance of malignant throat and pulmonary affections. Bronchitis is increasing among children, and influenza is sweeping off people at the rate of twenty a day. Nearly one-half of the deaths yesterday were due to throat and lung diseases. Pneumonia killed 17 persons, bronchitis 15, influenza 16 and consumption 13.

Snow in the Northwest. CHICAGO, Jan. 25.—It is many years since the far Northwest has seen any thing like the present fall of snow, said R. E. Reese, of Portland, Ore. "A telegram which I have from the superintendent of one of my mines in Eastern Oregon tells me there are fifteen feet of snow on the level. Such a fall of snow in the mountains is not unusual, but the snow of the last few days that has fallen all over Oregon, Washington and Montana is almost unprecedented. The stockmen of Washington will be the hardest hit. They have been used to warm winters and have made no preparation for any thing like the unusual snowfall and extremely cold weather which came with it. I know one in Washington who has already lost 2,000 head of cattle. I fancy there will be some herds from which the owners will never market any thing but the hides."

Tobacco Trust. TRENTON, N. J., Jan. 25.—Articles of Incorporation were filed yesterday in the Secretary of State's office by the American Tobacco Company, which is supposed to consolidate a number of companies. The capital stock is fixed at \$25,000,000. The number of shares is 500,000. Of the stock \$15,000,000 is divided into 300,000 shares of \$50 each, which are to be the general or common stock, and \$10,000,000 is divided into 100,000 shares of \$100 each which are to be preferred stock. The preferred stock entitles the holder to receive each year a dividend of eight per cent, payable half yearly, before any dividend is set apart for the common stock, or so much of the eight per cent as the profits justify.

Young Elkins Invented. DES MOINES, IOWA, Jan. 25.—Judge Hoyt has passed sentence upon the youngest life convict ever sent up. His name is John Wesley Elkins and he is only twelve years old. On the night of July 17 he shot his father while he was asleep and killed his mother with a club. His infant sister he cruelly drowned, took a buggy with him and started for his grandfather's, where he told a story of murder by unknown men. He was not suspected at first, but his peculiar calm behavior led to his arrest a week later. He confessed and said he had desired to leave home, but his parents objected.

KILLED IN COURT.

Reverend Shooting Aiming in a Galveston Court Room—The Aiming the Death of a Friend in Another County.

GALVESTON, TEX., Jan. 25.—In the court house here yesterday Kyle Terry, nephew of the late Judge David Terry, of California, was shot and instantly killed and two men badly wounded. The killing was the outcome of the Fort Bend troubles which resulted some time ago in a bloody battle between the citizens of Richmond.

Some months ago Terry, who was a tax assessor of Fort Bend County and a member of what is known as the Woodpecker party, had a difficulty with the three Gibson boys, all members of the Jaybird party. Five weeks later Terry met one of the Gibson brothers in Wharton and killed him. When the case came up for trial Terry got a change of venue to Galveston County. Galveston had nothing to do with the case further than to give a fair trial. Judge Parker, indicted for murder in Fort Bend County, also secured a change of venue to this county.

The case was set for yesterday and witnesses for both the prosecution and defense had brought to this city a large number of adherents of both factions of Fort Bend County. A large special venire of citizens had been summoned for jury service in these cases to appear at the court house at one o'clock. A few minutes after that hour Kyle Terry, his brother, Captain David Terry, of California, Judge Parker, Judge Weston and some others entered the front door of the court house.

Terry turned to the left toward the stairway and had just reached the second step when a shot was fired. It struck him under the right arm and came out of the left breast and literally tore his heart to pieces.

There was a moment's lull and then four or five shots were fired from different directions. One passed through the arm of Judge Weston and through the leg of Henry Little, a Galvestonian.

Kyle's witnesses say three men were shooting—Vol Gibson, who killed Terry and whose brother Terry had killed in Wharton, Dan Hagsdale and young Mitchell, all from Fort Bend County and all Jaybirds.

Immediately after the shooting six arrests were made—the principal one Vol Gibson, who fired the first and only fatal shot. He is a young man about twenty-five years old and treats the matter coolly. He was the oldest man in the attacking party, four of the others being under twenty-one years of age.

It was evident that the intention was to kill Weston and Parker as well as Terry—the two latter because they were Woodpeckers.

Judge Parker is a member of the State Legislature from Fort Bend County and is charged with having been the cause of the late riot in Richmond. He is charged with the killing of a negro woman during the Richmond riot.

MUCH DISGRUNTLED.

A Cherokee Delegation That Visited Secretary Noble Inquiring About the Strip.

WASHINGTON, Jan. 25.—The Cherokees are at last beginning to realize that the days of their possession of the Cherokee Strip are numbered and that the time is soon at hand, notwithstanding their opposition, when they must yield to power of the Government and the demand for the advancement of civilization.

A new delegation, consisting of three half blood Cherokees, visited Secretary Noble yesterday and had quite a protracted interview with him concerning the Cherokee Outlet and the action of the Commissioners appointed to negotiate for the cession of the Strip. When they came away they were very much disgruntled and told their friends that Secretary Noble said to them that they had already been paid once for the Strip and they were now offered a fair price to buy it over again, which they were foolishly declining to accept, that they might as well understand and make up their minds that it would be but a very brief period before the plowshare of the white man would be turning the sod of the Strip which is now occupied by the cattlemen, who were there without warrant of law.

FROZEN IN THE STORM.

Thousands of Cattle and Ten Horn Reported Lost.

TAYLOR, WASH., Jan. 25.—At least ten human beings and thousands of cattle and sheep perished in the blizzard which began with the year and raged over Washington for a week. Cattle are dying by hundreds from starvation and thirst in the Colville reservation, and the ground is covered with over two feet of snow on the level. In some places the snow is drifted mountain high. The keeper of the stage station, twelve miles from Alna, started to walk to town last Thursday and Sunday his body was found on the prairie, only a mile from his home, frozen stiff. The mail carrier at Wild Goose creek perished on the same day and eight cattlemen are known to have lost their lives in the storm. Cattlemen estimate that they will lose one-half of their herds.

Wreck Near Omaha. OMAHA, Neb., Jan. 25.—The suburban train on the Missouri Pacific railway was wrecked within two miles of Omaha this morning. William Hoyle, station agent at Druid Hill, who was a passenger on the train, was instantly killed. Eight other passengers were injured, two of them, Albert Mizales, a fourteen-year-old boy, and James G. Harvey, a carpenter, probably fatally. The truck was caused by a rear end collision.

Convincing Case. WASHINGTON, Jan. 25.—Application was recently made to the Treasury Department by citizens of Laredo, Tex., for permission to import from Mexico, without duty, carbonate ores, ester them in bread, sweets and separate them by the process known as "concentration" and then return the contents of the ore to Mexico, or in other words to allow the manufacturer or manipulator of ore to be a "concentrator" in bond for the purpose of exportation. Assistant Secretary Tilden has informed the petitioners that there is no legal authority for the granting of such privilege.

CAVARS.

Central Remedies—Only Pains—A New Home Treatment.

Druggists are not generally aware that these diseases are contagious, or that they are due to the presence of living parasites in the living members of the nose and containing, to be removed. However, he proved this to be a fact, and the result of this discovery is that a simple remedy has been formulated whereby Cavaris, Hay Fever and Catarrhal Disorders are permanently cured in from one to three simple applications made to some by the patient once in two weeks.

It is this treatment is not a cure of an ailment, both have been discarded by regular physicians as injurious. A pamphlet explaining this new treatment is sent on receipt of three cents in stamps to any postmaster by A. H. Dixon & Son, Inc., of John and Irving streets, Toronto, Canada—American Agents.

Druggists from Catarrhal Disorders should carefully read the above.

Those in one thing every "bad" cough here, and this is a blow out—Beware!

A Representative American Institution. The New York Central & Hudson River Railroad is to-day recognized by the traveling public, and also generally by its competitors, as being in many respects the representative trunk line leading from the Atlantic seaboard. The merit of this distinction rests largely upon unassailable natural advantages, supplemented by a liberal and progressive policy.

It is the aim of the Central's management to provide for the patrons of this line the best service attainable, and to this end all the resources of the great company are intelligently directed. A splendid roadway, admirable train service, and magnificent equipment, are features which place the New York Central in the foremost rank among the railroads of the United States.

When a man succumbs to overwhelming life disposition to talk too much he writes too much.

The Old, Old Story. A little cough, a feeble ill, a headache, a cold, a sore throat, a frequent cold of the nose, a frequent cold of the throat, a frequent cold of the chest, a frequent cold of the lungs, a frequent cold of the heart, a frequent cold of the brain, a frequent cold of the nerves, a frequent cold of the muscles, a frequent cold of the bones, a frequent cold of the skin, a frequent cold of the hair, a frequent cold of the nails, a frequent cold of the teeth, a frequent cold of the eyes, a frequent cold of the ears, a frequent cold of the nose, a frequent cold of the mouth, a frequent cold of the throat, a frequent cold of the chest, a frequent cold of the lungs, a frequent cold of the heart, a frequent cold of the brain, a frequent cold of the nerves, a frequent cold of the muscles, a
