#### Bampone Log.

Who is it that is holding Red Cloud back these days? They can be counted on your finger ends. Red Cloud is a unit on all enterprises but one or two bumps on a log are always trying to discourage genuine enterprise for fear that the city will grow and their business will be ruined. That is about the size of it. Red Cloud is the best city in the valley and before another year with its coming enterprisee will be on a boom, and those fellows will be a hollering "We did it." Some people can never be happy and see the city grow unless they have the say so. THE CHIEF likes to see people enterprising and always ready to help boost along genuine enterprises and Red Cloud has the people that can do it.

#### Red Cloud to Marea Wholesale Des Goods House,

This week Mr. John M. Young to turned from the east where he purhased a mammoth stock of dry goods for the firm of B. M. Young & Co., of this city, who have decided to open up a first class wholesale dry goods and notion house in this city. The firm are old hands in the business and have decided, and we think wisely, to locate a wholesale establishment in the city. Red Cloud by location is particularly adapted for the wholesale business and we hope that the firm will be greatly rewarded for their enterprise. They will probably go out of the retail business and enter exclueively upon the wholesale plan. The large from in the Moon block 32x100 has been secured and will be remodeled for the first installment of \$30,000 worth of goods which will be here soon. Thus Red Cloud puts on metropolitan sire. No other city in the valley can boart of water works, street care, electric lights, wholesale houses, and manefactories, as can Red Cloud. Hurrah for Red Cloud.

#### Momertal Day Proctomolies. HAT CHIEN, NO. MAY P.
