

FAITH WITHOUT WORKS.

Rev. T. DeWitt Talmage Discourses to Business Men.

Good works as necessary as Faith—Too Much Talents in Every Vocation—Reform Necessary—The Saviour the Best Guide.

In a late sermon at Brooklyn Rev. T. DeWitt Talmage took his text from James ii. 17: "Faith without works is dead."

Following is the sermon: The Roman Catholic Church has been charged with putting too much stress upon good works, and not enough upon faith.

As for as I can tell the world is a craft is mostly sail and very little tonnage. Foretopmast stay sail, foretopmast studding sail, maintopmast, mizzen topmast—every thing from flying jib to mizzen spraker, but making no use of the sails.

Yonder is a river with steep and rocky banks, and it roars like a young Niagara as it rolls on over its rough bed. It does nothing but talk about itself all the way from its source in the mountains to the sea.

Do you know how the site of the ancient city of Jerusalem was chosen? There were two brothers who had adjoining farms.

I have often spoken to you about faith, but now I speak to you about works, for "faith without works is dead."

When practical religion sets its full swing in the world, it will go down the streets, and it will come to that shoe store and rip off the fictitious soles of many a fine looking pair of shoes.

There has been so much adulteration of articles of food that it is an amazement to me that there is a healthy man or woman in America.

The Board of Health in Massachusetts asked a grocer what he called pure coffee and found in it not one particle of coffee.

Incense is burned into the roof and then shells are placed at the junction and catch the sap or gum as it exudes. It is very precious, this scammony. But the peasant mixes it with cheaper material; then it is taken to Aleppo, and the merchant there mixes it with a cheaper material.

Now, practical religion will get ready to its appliances. In our day we have had the dagueerotype and the ambrotype and the photograph, but it is the same old sun and these arts are only new appliances of the old sunlight.

Yonder is a river with steep and rocky banks, and it roars like a young Niagara as it rolls on over its rough bed. It does nothing but talk about itself all the way from its source in the mountains to the sea.

There has got to be a new departure in religion. I do not say a new religion. I do not say the old religion brought to its appliances.

IMPROVED FARM GATE.

One for Which Its Originator Claims Wonderful Things.

Here is a sketch of a farm gate which I have used for several years and have never seen in any anywhere beyond my farm.

The hinge is let into the back side of the gate. This is as high as the high post of the gate. The top hinge must be put as high as the gate will allow.

A SAILOR'S LIFE.

How They Enjoy Themselves When Not at Work.

To say what goes on between decks would be to tell the story of the dispositions and natures of those who go down to the sea in ships.

Life between decks includes also that of the officers, but it is only the present system of officers' messes, of which it is worth while saying much.

A State of Siege

How many people there are who regard the coming of winter as a constant state of siege.

It seems as if the elements sat down outside the walls of health and now and again, led by the north wind and his attendant blasts, broke over the ramparts, spreading colds, pneumonia and death.

Who knows when the next storm may come and what its effects upon your constitution may be? The fortifications of health must be made strong.

SCOTT'S EMULSION of pure Norwegian Cod Liver Oil and Hypophosphites of Lime and Soda will aid you to hold out against Coughs, Colds, Consumption, Scrofula, General Debility, and all Anæmic and Wasting Diseases, until the siege is raised.
