**What is**  
**CASTORIA**

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhoea and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

**Castoria.**  
 "Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."  
 Dr. J. C. Osmond,  
 Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quick nostrums which are doing their loved ones, by forcing opium, morphine, soothing syrup and other harmful agents down their throats. Loosely sending them to premature graves."  
 Dr. J. F. Eschler,  
 Conway, Ark.

"Castoria is now well adapted to children that I recommend it as superior to any preparation known to me."  
 H. A. Archer, M. D.,  
 111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their expert care in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."

**BAKING POWDER FACTS.**  
 Brought out by the Official Government Tests.

**Parity of Food Demanded by the People—Which Baking Powder Will Give It?**

From Chicago Tribune.

The public is always responsive to suggestions about the food it eats. Great interest has been taken in the investigation made by the United States and Canadian government and by the different boards of health to show the purity or impurity of milk, baking powders, spices, and other articles of daily use in culinary department of our households.

Just now the subject of baking powder is claiming public attention. We all desire pure and wholesome bread and this can not be had with the use of impure or poisonous baking powder. There can be no longer any question that all the cheaper, lower grade of baking powders contain either alum, lime, or phosphoric acid. The official analysis by the United States and Canadian governments have therefore been studied with interest and have just been clearly established the facts upon this subject. The United States government report gives the names of 18 well-known powders, some of them advertised as pure cream of tartar baking powders, that contain alum.

The report shows that the Royal baking powder was found the highest in leaving strength, evolving 1916 cubic inches of gas per single ounce of powder. There were eight other brands of cream of tartar baking powders tested and their average strength was 1115 cubic inches of gas per ounce of powder.

The Canadian government investigations were of a still larger number of powders. The Royal baking powder was here also shown the purest and highest in strength, containing 1292 cubic inches of leaving gas per ounce of powder. Nine other cream of tartar powders were tested, their average strength being reported to be 89 cubic inches of gas per ounce.

These figures are very instructive to the practical housekeeper. They indicate that the Royal baking powder goes more than 33 per cent further in use than the others, or is one-third more economical. Still more important than this, however, they prove this popular article has been brought to the highest degree of purity, for to its superlative purity this superiority in strength is due—and consequently that by its use we may be insured the purest and most wholesome food.

The powders of lower strength are found to leave large amounts of inert matters in the food. This fact is emphasized by the report of the Ohio state Food commissioner, who, while finding the Royal practically pure, found no other powder to contain less than 10 per cent of inert or foreign matters.

The public interest in this question has likewise caused to be made investigations by our local authorities. Prof. W. S. Haines, of Rush Medical College, consulting chemist of the Chicago Board of Health, has found results similar to those reported by the national and Canadian authorities. Dr. Haines says:

Recent analysis of various brands of Royal baking powder, cream of tartar, etc. etc. I have recently obtained samples of the chief baking powders in the market, and subjected them to careful chemical examination to determine their purity, and wholesomeness, and leavening power. As the result of my test I find the Royal baking powder superior to all the others in every respect. It is entirely free from all adulteration and unwholesome impurities, and in baking it gives off a greater volume of leavening gas than any other powder. It is, therefore, not only the purest, but also the strongest powder which I am acquainted with."  
 Walter S. Haines, M. D., consulting chemist, Chicago Board of Health.

The statistics show that there is used in the manufacture of the Royal baking powder more than half of all the cream of tartar consumed in the United States for all its purposes. The wonderful sale thus indicated of the Royal baking powder—greater than that of all other baking powder combined—is perhaps even a higher evidence than that already quoted of the superiority of this article, and of its indispensability to modern cookery.

**A Wonder Worker.**  
 Mr. Frank Huffman, a young man of Burlington, Ohio, states that he had been under the care of two prominent physicians, and used their treatment until he was not able to get around. They pronounced his case to be consumption and incurable. He was persuaded to try Dr. King's New Discovery for consumption, coughs, and colds and at that time was not able to walk across the street without resting. He bought, before he had used half of a dollar bottle of it, he was much better, he continued to use it and in ten days enjoying good health. If you have any throat, lung, or chest trouble try it. We guarantee satisfaction. Trial bottle free at L. H. Devo's drugstore.

De Witt's Sarsaparilla cleanses the blood, increases the appetite and tones up the system. It has benefited many people who have suffered from blood disorders. It will help you.

A professional athlete amused the crowd Friday, and Saturday.

Don't storm the system as you would do for. If held by the enemy, constipation gently persuade it to surrender with De Witt's Little Early Risers. These little pills are wonderful convicers.

Capt. Munsel, gave us two very fine apples of the redskin variety raised in his orchard. They were commonly a Russian crab, but in this country they grow to a large size and are delicious.

Elder C. P. Evans preached at the Christian church morning and evening Sunday.

People with impure blood may be said to exist, not live. Life is robbed of half of its joys when the blood is loaded with impurities and disease. Correct this condition with De Witt's Sarsaparilla. It is reliable.

Rev. E. L. Ely and family returned Tuesday morning from a week's visit to Fremont and Lincoln.

Investigate their merits. De Witt's Little Early Risers don't gripe, causes nausea or pain, which accounts for their popularity. Druggists say they would not run a drug store without these little pills.

The other night at the song service at one of our churches, a real worthy brother announced that the next song would be "Send the Light," and to the amusement of the audience, just at that juncture the nocturnal luminary flashed in the pan and the announcement of the well known hymn was both timely and appropriate, as the light was sadly needed.

**Ammonia Baking Powder Must Go.**

Bills have been introduced in the New York, Illinois and Minnesota Legislatures compelling the manufacturers of such baking powders to brand on the label in bold type, this powder "Contains ammonia." Physicians and chemists condemn the use of ammonia in baking powders as a crime. Its constant use no matter how small the quantity deranges the stomach, neutralizing the gastric juice and destroying the complexion. It is the small quantities taken every meal that do the mischief.

It is gratifying to know there are pure baking powders to be had on the market and at no greater cost to the consumer than some of these so-called "absolutely pure" ammonia powders.

Dr. Price's Cream Baking Powder, the standard pure cream of tartar powder for forty years. Free from the taint of either ammonia or alum. None so pure—None so wholesome.

Dr. Price's Cream Baking Powder is reported by all authorities as free from Ammonia, Alum, or any other adulterant. In fact, the purity of this ideal powder has never been questioned.
