### NEEDED LEGISLATION.

#### Baking Powder Bill Passed by the Minnesota Senate.

The recent newspaper discussion of the dangerous qualities of ammonia comes from the alarming increase of its use in baking powders. People who absorb it in small quantities from day to day suffer from slow ammonia poisoning. Taken internally in sufficient quantities it eats away the coatings of the stomach and intestines and causes death. Slow ammonia poisoning produces various forms of stomach trouble.

Not one woman in ten thousand would use an ammonia baking powder if she knew it. Such powders not only undermine the health, but ammonia imparts a sallow and blotched complexion.

Following is the bill recently passed by the Minnesota senate. It's the danger signal which the law throws out for the protection of the people:

#### Section 1. Any person who shall knowingly sell or procure the sale, or offer for sale any package or can of Baking Powder, containing any Ammonia in it, not distinctly, legibly and durably branded, stamped, or marked in a conspicuous place with the words in the English language "This Baking Powder contains Ammonia" in letters of Great Primer, or any letter equivalent thereto in length, shall be guilty of a misdemeanor, and punished by a fine not less than \$20 nor more than \$50; shall be confined in the county jail not less than ten or more than twenty days or by both fine and imprisonment, at the discretion of the court.

Section 2. The sale or offer for sale of the substance mentioned in the foregoing section in packages not stamped, marked, branded or labelled as therein required, shall be prima-facie evidence of knowledge of the character of said substance, on the part of the person so selling or offering for sale and his employer.

Section 3. This act shall be in force on and after its passage.

Note—An incident occurred in the house when the senate bill came up for passage, in reference to an amendment proposed by Mr. Diment. This was opposed by several members. Mr. Feig said that if the bill as it came from the senate was all right then the amendment was all wrong. The amendment compelling the printing of the word "Ammonia" on the label only affected the Royal Baking Powder, and no wonder they felt the senate bill was a blow at them.—St. Paul Dispatch.

Some mischievous and lying individuals, prevalent in the statement that THE CHIEF is going to leave the city, or change its politics. Once for all we will state that THE CHIEF will be here right along and will be found at the old stand, printing good republican doctrine. If those who are so meddling would attend to their own business, they would have all the could do to look after their own affairs. We shall stay in Red Cloud, and print THE CHIEF, and THE CHIEF, will be a republican paper, as it has for more than twenty years. THE CHIEF has no reason to complain, it is doing a nice business, and proposes to maintain it at all hazards. Do you hear?

Jim Swearingen carries his right hand in a "red bandanna" on account of a slight injury. Jim is one of the B. & M.'s best engineers.

### Departed this Life.

Died, on the 16th inst. at her home, the residence of her husband, D. M. Platt, in this county, at the age of 49, Mrs. Margaret Allen Platt.

A few weeks ago she with the family returned from Denver, Colorado, where they have been for several months. When she returned was not well, having what is known as the mountain fever.

Her death was unlooked for, hence her decease surprised and shocked her family and friends.

Was born in the state of Maine. At an early age with her father and family moved to Wisconsin, where she grew up and was married. In 1879 Mr. and Mrs. Platt with family settled at this place.

Her life here has been such as to win her many warm friends. Her presence and kind ministrations will be greatly missed by the sick and sorrowing friends.

She had a happy way of cheering the sick, and in the house of mourning knew and did just what was wanted to be done.

She manifested by her life that she was a true Christian, was received into the Presbyterian church when a school girl. She was a loving wife and affectionate mother and a kind neighbor.

She leaves a husband, a married son and daughter, a son 16 years of age, and one about 9, to mourn because of her departure, but their loss is her gain.

Why should we sorrow over the dissolution of the earthly house of this tabernacle when we are assured that she has a building of God, a house not made with hands eternal in the heavens.

Her remains were laid away in the Red Cloud cemetery on the 18th inst.

The calamity papers are now dwelling at great length on Bellamy's idea of the government supporting the people instead of the people supporting the government. They say that everything in the shape of a profit is a tax upon the people. They forget to say that it might be so in some cases, but then when it comes to newspapers, that's different. A newspaper as a general thing is a tax on the proprietor instead of the people, and if a newspaper can get along why, we don't see why the rest of mankind can't thrive.

Remember that THE CHIEF gives Tunison's \$4 United States map with THE CHIEF one year for \$2.25. This is one of the finest maps in the country and should be in the home of every family in Webster county. The map is an epitomized history of the world, and no household can afford to be without it for the price. The price of the map alone is \$4, but we have made arrangements by which we can offer it with THE CHIEF for \$2.25. Samples can be seen in our office.

Our old time friend J. W. Smith, of Newcastle, Wyoming, was trading Nebraska soil this week. Mr. Smith is an enterprising and thrifty business man and we are pleased to learn of his prosperity. He returns home this week.

### CHURCH DIRECTORY.

Preaching at the M. E. church every Sunday, 10:30, A. M.  
Evening, 7:30, P. M.  
Sunday School, 11:30, A. M.  
Epworth League, 6:30, P. M.  
Strangers in the city and public, made welcome to all services.  
E. J. RANDALL, Pastor.

### THE WOMAN'S CANNING AND PRESERVING COMPANY.

Owned and Operated by Women, for Women.

Our plan is to establish 100 or more factories in the United States, with money derived from the sale of our capital stock. Then we can easily employ 5000 women who will earn for us a net profit of \$1,180,000 annually, assuming that 75 cts. per day will be the net profit of each employer, which is a very low estimate. Our stock which we offer you at \$25 per share, figured on a basis of 8 per cent per annum, will be worth about \$365.

Why will it increase so much? Because we have the only scientific process for canning and preserving food; no poison; no chemicals; never spoils; cooking unnecessary; flavor retained; and it solves the communion wine question by furnishing the pure juice of the grape unchanged at all seasons.

Because women only are employed in the factories where they are surrounded by christian influences, and paid wages which make them independent; stock is sold only to women, who will by their interest in the company, influence grocers to sell our goods, thus advancing the interests of the company.

Because the women running this company are excellent business women (demonstrated by their individual success), and with the aid of every christian woman in the country, are certain to make this the greatest financial success ever accomplished by women.

Shares are \$25 each par value. Stock may be bought, if desired, on monthly payments of \$2.50 per share.

Checks for the annual dividends mailed in March to all stock holders. OFFICERS AND COMMISSIONERS. May Allen West, editor of the Union Signal.

Anna Byford Leonard, President  
Lady Manager World's Fair.

Amanda T. Jones, Vice President.

Mrs. E. Jennings Demorest, Pub. Demorest Magazine, N. Y.

Isabella Beecher Hooker, sister late Henry Ward Beecher, Lady Mgr. World's Fair, Hartford Connecticut.

Miss E. M. J. Cooley, Lecturer and Temperance organizer, Lincoln Neb.

Mrs. Clara B. Colby, editor Woman's Tribune, Washington, D. C.

Mrs. A. M. Dolph, wife of Senator Dolph, Washington, D. C.

Mrs. M. Louise Thomas, President Sorosis club, N. Y.

Francis C. Conant, Secretary.

Sample of canned goods sent on receipt of 25 cts. to pay expenses. No charges for samples.

Address orders, and make checks or money orders payable to: WOMAN'S CANNING AND PRESERVING COMPANY, 161 LaSalle St., Chicago, Illinois.

### What is Good Baking Powder?

It is a well known fact that carbonate of ammonia is used by bakers in the preparation of the finest and most wholesome bread or cake, and has been from time immemorial. It is among the oldest and at the same time most healthful constituents of baking powders. It is all evolved in gas by the heat of the oven, and leaves no trace of itself in the food, and it is this that gives it its great value as a leavening agent in the opinions of the physicians.—New York Journal.

## WHY

### Royal Baking Powder is Best.

"The Royal Baking Powder is absolutely pure, for I have so found it in many tests made both for that company and the United States Government.

"I will go still further and state that because of the facilities that company have for obtaining perfectly pure cream of tartar, and for other reasons dependent upon the proper proportions of the same, and the method of its preparation,

"the Royal Baking Powder is undoubtedly the Purest and most reliable baking powder offered to the public.

"HENRY A. MOTT, PH. D."  
Law United States Government Chemist

## R. M. MARTIN & SON.

Last Sunday in the M. E. church Mrs. Warner, of Fairmont, spoke in the interest of the Ladies' Home Missionary Society, in general, and the Orphan's Home, at York in particular. This society has a fine farm near York with a house that can accommodate about forty children. It is now full and many worthy little ones have to be turned away for lack of room.

The present inmates have been brought from all parts of the country. Salt Lake on the west, New Orleans on the south, as well as different eastern states, but principally from our own state. In the early spring they will build a new house at a cost of about \$25,000, with accommodations for one hundred children.

This house will be divided into various apartments. Any person or society contributing \$100 can name one of these apartments, and the name on a silver plate will be placed above the entrance. To the same, monuments of granite and marble will crumble. Our loved ones will be forgotten, but money invested here will greatly assist in building noble moral characters which will rise in coming ages, and bless Him in whose name the money was given and the room named. Our congregation gave about \$70.00 last Sunday. We gave about \$30.00 last year. If that be applied, we will be entitled to name a room, if not we must make up the one hundred dollars.

If the people of Red Cloud could visit the home, see the order in which it is kept, the training which the children receive, and the wonderful improvement which they make, there would be no trouble in securing much more than \$100.

Remember the little boys and girls are not gathered up and kept until some one can be found who will take them, but they are to be kept until of age, educated, taught trades and professions, and sent out christian citizens, loving God, country, and their fellow men; they will not be anarchists but patriotic citizens.

E. J. RANDALL.

### From Oklahoma.

EDITOR CHIEF—Dear Sir: With your permission I should like to tell your readers of what I have seen in Oklahoma. It is a very nice looking country, the people have got a lot of good wheat and corn. Wheat is making from 25 to 35 bushels, oats are 50 to 60 bushels per acre. They raise plenty of potatoes, and everything else. Cane is a good crop and is used for feed. Most of the land is red soil. There is quite a big boom here. Kingfisher is over-loaded with people, and more coming every day. They can not get homes to winter in, and are compelled to tent out. Most of them are waiting for the land to be opened for entry and are getting as close to the line as possible. Had a big rain here November 8. Had but little frost and the weather has been little summer most of the time until the 16th, when it became colder, but it is nice and warm now. It rains here when it snows in Nebraska. They say the creeks never freeze over, and I don't think that they do. I think this is a nice country. Kingfisher is a busy town, and is located on Turkey creek. They are building a three story brick bank here. Above all things look out for land agents. They are frauds as they can not file on the land until it is placed on sale, and are trying to rob the old settlers. Will write again soon.

ERA HOUSE.

Wheat also hits the nail on the head, and has done it earlier when he marked out his stock this fall, by putting on low figures, and the people are appreciating it.

C. W. Kaley, "our own Charlie," was in Peru this week. Charlie has been a member of the board of managers of the Peru Normal College for more than ten years, and feels proud of the fact that the institution has grown rapidly in that period from a small school to one of large proportions.
