And sweet the strains that come to me When in great memories I see All that full throated quiring throng Go streaming on the winds of song: Her who afar in upper sky Sounded the wild Valkyrie's cry. With golden clash of shield and spear, Singing for only gods to hear; And her who on the trumpets blare Sang "Angels Ever Bright and Fair," Her voice, her presence, where she stood, Already part of angelhood.

But never have I heard in song Sweetness and sorrow so prolong Their being -as hushed music rings Along vibrating silver strings-As when, with all her eighty years, With all her fires long quenched in tears, A little woman, with a look Like some flower folded in a book, Lifted a thin and piping tone, And like the sparrow made her moan, Forgetful that another heard, And sung till all her soul was stirred.

And listening, oh, what joy and griof Trembled there like a trembling leaf! The strain where first-love thrilled the ba Beneath the priesthood of the stars: The murmur of soft lullables Above dear unconsenting eyes: The hymns where once her pure soul trod The heights above the hills of God-All on the quavering note awoke, And in a silent passion broke, And made that tender tune and word The sweetest song I ever heard. -Harriet Prescott Spofford, in Harper's Bazar
