The "Golden Gate Special" went through this city via the B & M Ry on Saturday night bound from Pennsylvania to California. The train was composed of six coaches, which were elaborately furnished and lighted with electricity.

The Yocum trial of Hastings is finished, the jury found for manslaughter and Judge Beall sentenced Yocum to one year in state's prison. In the mean time Judge Beall granted him a new trial. The sentiment in and around Red Cloud is generally to the effect that Yocum should have been set free. There is not one man in one hundred that would not have done a similar act if placed in Yocum's shoes.

The Nation says that the last board of supervisors was Republican. Our editorial friend was mistaken, as that board had a majority of independents. The Republicans had only seven on the board, and hence the expense of the last board must be attributed to some other source than the Republican party. As far as the expense was concerned it would make but little difference of what the majority was composed, the amount was at least \$1600 too high, and much higher than could possibly be charged by a board of commissioners. The people we believe demand a change.

Blue Hill Notes.
(Taken From The Leader.)
Cutter and Cranz, a couple of Red Clouders spent a few moments in the Hill, Wednesday.

Several Blue Hill democratic stalwarts were in Red Cloud, yesterday evening, attending a democratic meeting.

T. J. Ward, has never asked for office, but rather than have no representation (of a democratic hue) in the next session of the legislature he'll consent to go, providing he receives the nomination, and gets votes enough.

Benard McNeny and H. G. Kohler were selected by the Democrats of Webster county to attend the state convention as delegates. They were instructed to cast their vote for Hon. Wm. Thompson of Grand Island for delegate at large to the National Democratic convention.

We are pleased to see how THE CHIEF and Argus are showing up how they (the supervisors) save their own bills and slash others. The time will come when these self-styled demagogues will know upon whose toes they're treading.

Mine host C. E. Conrad of the Central contemplates the erection of a brick hotel. It is to be 40x60, two stories high with basement. The first floor will be 10 feet, the second 12 and the third 10. Will have two large sample room and a billiard parlor in connection with other necessary rooms for a building of that size. When completed it will be a little tasty hotel and no doubt will be much appreciated by the traveling public as well as by the townspeople.

In order to fully familiarize himself with the habits, wants and customs of the farmer. Attorney L. O. Martin has hied himself as a tiller of the soil. He thinks within the course of a year or so he'll be a fit subject for the legislature. Let us hope that he'll so adapt himself.

Supervisor Patterson of Harmony, is prone to believe that there is quite a bundle of political goods in store him. Well may there be. Mr. Patterson is one of our most industrious and level-headed men on the board and he deserves proper recognition at the hands of his constituency.

Curstone Cracks.

Alonzo Hucklebury said to a CHIEF rustler that the only way to build up a good city was to get a move on the city, by the city and with the city, and every man in the city pulling together for the good of the city. See.

Uncle Snowdrift, although a little late in the season, thought that if Red Cloud would pave the streets it would be a move that would set Red Cloud a notch ahead of any of her sister cities. Think so.

Peter Wideawake, who never opens his mouth without saying something, "hit the nail on the head" when he remarked that Red Cloud should buy the Sleeper property and build a court house thereon, with the aid of the county. It would be about one of the best things Red Cloud could do.

Billy Jerkwater whose office is on the corner of two streets, thought that Red Cloud would receive the most substantial boom this fall that had ever been known, from the reason, that a boom had struck outside real estate and the city was sure to come in for its share. We murmured "you bet."

Our old friend PolITICAL thought that he could observe a rising barometer for this section of the country, should the Rock Island come this way and the election passed off quietly. He was about right.

Senator Cummings, in musing over various conditions of life, thought that the city could make, a very substantial improvement by laying new sidewalks, and the Senator knows a thing or two.

Ben Doorslab thought if there should be as much ambition displayed in pushing enterprises as there were in some other directions, the city would be on the pinnacle of success this season.

The Democratic house of Congress is about as great a nonentity as could be found in one great nation. They have been in session for more than three months, yet there is not one thing that they have done for the country, that has come to the surface, still Professor Holman, makes his periodical cry of economy, and keeps right on drawing his five dollars per day and perquisites. It has cost the country hundreds of thousands of dollars for this congress to do nothing.

So many have been cured of rheumatism by Hood's Sarsaparilla that we urge all who suffer from the disease to try this medicine.

All kinds of condition powders at Deyo's.

Last week we mentioned in THE CHIEF that the dam had gone out. Our statement was erroneous inasmuch as only the top had been taken off. Had the statement been allowed to go uncorrected it would have done some injury to the Gate City Milling Company, who depend on the dam for power. In correction we are pleased to say that the condition of the dam does not affect them in any manner, and they are very busy grinding every day in the week, and by their fair dealing and honest goods have attracted trade from all parts of southern Nebraska and northern Kansas. Messrs Sherwood and Ponsor are gentlemen who fully understand how to treat their patrons and are millers of many years standing, Mr. Ponsor having served a lifetime at it. THE CHIEF wishes them success.
