### Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."  
Dr. G. C. Osmond,  
Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quick nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."  
Dr. J. F. Kneeland,  
Conway, Ark.

### Castoria.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."  
H. A. Archer, M. D.,  
111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."

## Educational Department.

D. M. HUNTER, Editor.

The following circular was sent to school officers, teachers, and others last week:

### TEACHERS' INSTITUTE CIRCULAR

The Webster County Annual Teachers' Institute will open June 27, 1892 at one o'clock p. m., at Red Cloud, Nebraska, and continue in session three weeks. It is to the interest of every one intending to teach next school year to be in attendance.

To those who will not attend teachers' institute, a cordial suggestion is made to enter some other profession at once. Please do not ask for a teacher's certificate in this county. All school officers and others interested in education are requested to visit the institute. Thorough instruction will be given in the branches most needed by teachers of our schools.

A present will be given to every school having work on exhibition. The work should be done this year, and be in the hands of the county superintendent not later than June 18th, if possible. All schools according to law, will be closed during the institute.

All applicants for certificates will be required to pass an examination in Arithmetic, Grammar, Orthography, Physiology and Hygiene without regard to standing on former certificate. This rule will be in force during the next school year. Examinations will be held on July 15th and 16th. Further information will be given cheerfully to anyone desiring it. Respectfully yours,

D. M. HUNTER.

Do not neglect to read the State Superintendent's circular in regard to grading the country schools, printed in all the Webster county papers this week. An effort is being made to have a uniform system of grading and classifying the country schools of this county.

Some things that teachers desire parents to do:

To send their children to school every day, to send their children to school on time, to visit the school, to encourage their children to obey their teacher, to encourage their children to study every lesson well, to state all grievances first to the teacher, not to the children and to the neighbors, to provide necessary books, or know that they are provided for the children, to treat the teacher as a friend, as one who is working for the welfare of the children, to co-operate with the teacher in making the school better than it was last term, to encourage the children to read something suitable for them at home. A pupil who reads at home learns to read better and more rapidly at school than one who does not look at a book or child's paper out of school hours.

A good attendance is desired at the teachers' meeting at Black on Saturday.

All Nebraska should observe Arbor Day.

The Reading Circle of district number 38 met at the house of Mr. Geo. P. Cather on Friday evening, April 8. About twenty were present. A good time is reported.

At the March meeting the subject of English history received the most attention. Mrs. Franc S. Cather has charge of the work in that part of the county, and faithfully does her part in keeping the work in progress.

Historic homes and landmarks are rapidly passing away, owing to fatal kidney and liver diseases. "Hepatitis" will cure and prevent all such diseases.

### The Fair.

Are we going to have any fair this year? It seems to us that there should be some effort made to have a successful exhibition. Heretofore, there has been too much one-sidedness displayed in the management of the society. What the fair needs is a good genuine management of representative farmers, men who know what is needed to make a good fair. One great mistake about the management of the fair is that every year premiums are offered for exhibits, and when the premiums are worked out and the exhibitor goes after his money he is confronted with the intelligence that the association is broke. The way to make a fair a success is to say you will pay premiums, though they are small, and PAY THEM, don't spend all the money in horse racing, &c., but give a fair portion to the farmer and housewife, and then you will see the fair go. Of course horse-racing suits some, well, have some of it but don't go crazy on horse-racing, but divide up the premiums with the exhibitors and be sure you have the money to pay them when the fair is over, or there will never be any fair, that is a financial success now mark you that, and mark you well. The former managements have done what they thought was right, but nevertheless missed it, and now for some one who will make the fair go. Then another thing, the gate fee is all wrong. The idea of letting a family of ten or 15 go in for three days for \$1.50 is preposterous. The fee should be carefully arranged so that the gate fee would be as important item. The idea of a three or four days fair with four or five thousand people present and not more than a \$1000 in fees is all wrong. Every one who enters the gates should pay. A fair association managed that way seems to us would pay. Make your premiums small this year and pay them, and see well to the gate fees and THE CHIEF believes the fair will be a success.

### Amboy.

The entertainment and tie supper was a grand success. All were much pleased with the program and did full justice to the ample filled baskets. Our minister, Rev. VanDyke being absent, Rev. Gay filled the pulpit at Amboy last Sunday.

Miss Maranda Teachworth and Miss Tillie Reaser spent Sunday in Amboy. The person who painted a buggy cushion with eggs make it a point to be a scarce article when the owner of said cushion is around.

We all have confidence in our honorable County board and are satisfied that they will take the necessary steps toward the building of a bridge across the river south of Amboy.

J. H. Ferman met with a painful accident last Wednesday. While letting his horse exercise it ran on the garden. Mr. Ferman went out and caught it, when the horse in a playful mood began to prance, and while jumping in this way it ran against Mr. Ferman breaking one of his ribs. Under the care of Dr. Barr the wound is doing nicely, but it will be some time before it is entirely well—Benkleman Pioneer.

### Remarkable Facts.

Heart disease is usually supposed to be incurable, but when properly treated a large majority of cases can be cured. Thus Mrs. Elmira Hatch, of Elkhart, Ind., and Mrs. Mary L. Baker, of Ovid, Mich., were cured after suffering 20 years. S. C. Linburger, druggist at San Jose, Ill., says that Dr. Miles' New Heart Cure which cured the former, "worked wonders on his wife." Levi Morgan of Buchanan, Mich., who had heart disease for 30 years says 2 bottles made him "feel like a new man." Dr. Miles' new heart cure is sold and guaranteed by Cotting. Book of wonderful testimonials free.
