## CURRENT COMMENT.

The British museum has thirteen miles of bookshelves all filled.

The newly elected queen of the laundresses in Paris is only sixteen years old.

A Moscow chemist has discovered that the white poplar tree is a natural lightning rod.

At the present day sacred pigs roam iniviolate about the Buddhist monasteries of Canton and elsewhere in China.

QUEEN VICTORIA has a book which is eighteen inches thick and weighs sixty-three pounds. It contains the "Jubilee" speeches and addresses.

A COPY of the original edition of "Pickwick," given by Dickens to Macready, has been sold from the late James McHenry's library for 26 guineas.

BLACK SNOW lately fell in the Canton of Geneva, Switzerland—a phenomenon which was once thought to presage the black plague and other calamities, but is now known to be due to a fungus in the snow.

The daughter of the once famous artist Thorpe—Mrs. Thorpe Loftus—who was herself once editor of the Domestic Magazine, is defendant in proceedings brought by her daughter and son-in-law, who wish her declared insane.

In the month of March the collection of St. Peter's pence for the vatican was notably increased, the amount having been upwards of \$50,000, while the average monthly collections heretofore have not exceeded \$80,000. Before the public declaration by the vatican of its policy favorable to the French republic, France usually headed the list in the amount collected, but since that time it has sunk to the eighth place, the United States standing second.

DR. ENOCH FITZIAN, of Greenwich, Cumberland county, N. J., was born May 10, 1792, is still living and will celebrate his 100th year May 10. He was made a mason in the year 1816, at Brearly Lodge, No. 2, Bridgeton, Cumberland county, N. J., which makes him a seventy-six-year-old mason. He is well and hearty to-day, in politics a whig, in religion a Presbyterian, in habit temperate. He has never been married, and is believed to be the oldest free mason in the United States.

READERS of Dickens remember well the vigorous purification of the tender youths confined to the guardianship of Mr. Squeers; the regular dose of brimstone and tracle served relentlessly and without discrimination. To-day in England, at Harrow, the boys are doctored en masse. Each one is served with two grains of quinine at morning and night, as a safeguard against the ague. The drug is administered after prayers, and the ceremony has thus a double solemnity. As the boys go out in single file they are met by the matron, who gives each one his choice of powder or pill. The choice is made, the drug is swallowed and so the line is gradually shortened.

MR. GLADSTONE has written a pamphlet on the question of female suffrage in which he gives his reasons for opposing the enfranchisement of women. He considers that the question ought to be further discussed by the press and on the platform and that the time is not yet ripe for legislative interference. He notes as an objection that the woman suffrage bill excludes married women, equally or better qualified to exercise the franchise. He further contends that the sex largely opposes the proposed reform, which would open the question of the right of women to fill public office. He does not fear that woman would encroach upon the power of man, but he does fear "lest we unwittingly invite her to trespass the purity, the delicacy and elevation of her own nature."

NICARAGUA has 49,500 square miles and 350,000 people. The resources are great, especially in fine hard woods, dye woods, rubber and other plants. Sugar, coffee and indigo are largely cultivated. Matze and potatoes grow abundantly in the highlands. Nicaragua is especially well adapted for live stock, and on the eastern shore of her great lake thousands of cattle are raised. Gold has been discovered recently. The trade of Nicaragua with the United States exceeds that of any other country. Coffee, crude rubber, bananas, hides and skins are sent to the United States, and machinery, iron, steel, wheat, flour, provisions and manufactured goods are sent back. Last year Nicaragua's exports to the United States were \$1,823,583, and her imports from the United States were \$1,730,477.

A CURIOUS book, in which the text is neither written or printed, but woven, has lately been published at Lyons. It is made of silk, and was published in twenty-five parts. Each part consists of two leaves, so that the entire volume only contains fifty leaves, inscribed with the service of the mass and several prayers. Both the letters and the border are in black silk on a white background. Perhaps, however, the most wonderful book in the world is another one which is neither written nor printed. Every letter is cut into the leaf, and as the alternate leaves are of blue paper it is as easily read as the best printing. The labor required and the patience necessary to cut each letter may be imagined. The work is so perfect that it seems as though done by machinery, yet every character was made by hand. The book is entitled "The Passion of Christ." It is a very old volume, and was a curiosity as long ago as 1640. It belongs to the family of the Prince de Ligne, and is now in France. Rudolph II., of Germany, offered for it 11,000 ducats.

# NEBRASKA STATE NEWS.

**Favorable Grain Market.**  
After an earnest agitation extending over a period of more than three months the members of the state board of transportation believe they have succeeded in gaining a concession from the railroad companies that will within a short time give to the grain shippers of Nebraska points the full benefit of milling in transit rates. The entering wedge came in the shape of an order from the general manager of the Missouri Pacific railway directly affecting the privileges desired by the Omaha elevator men. The Missouri Pacific will in the future permit grain to be stopped in transit for a period of six months and then reshipped to its destination, giving the shipper the benefit of the through rate from the original shipping point to the final destination, with no intermediary charges. Prominent members of the state board of transportation are of the opinion that this action of the Missouri Pacific will eventually bring the same concessions from roads running into Chicago.

**Miscellaneous.**  
RANDOLPH has voted \$5,000 in bonds to sink an artesian well.

THE Farmers' Grain & Live Stock Co., of Dishler, has decided not to sell its elevator, but has changed managers.

DURING a late storm lightning struck the residence of Anton Kewbie at Plattsmouth and burned it to the ground. Several other houses were struck.

A LIVERY stable at Silver Creek burned the other night and thirteen horses, several head of cattle and a number of carriages were consumed.

FIRE destroyed Fuller's livery barn at David City the other night. Twenty-one horses were consumed. The total loss will exceed \$8,000; insurance, \$3,700.

DR. F. F. BROWN, of Syracuse, came near being asphyxiated in his office the other morning from gas escaping from a new gasoline stove he was using. He was discovered in a fainting condition.

The residence of Judge Hoyt, at Papillion, was struck by lightning the other evening and badly damaged. The judge was the only member of the family at home at the time. He was slightly stunned.

J. J. JIMMERTON, who located at Liberty about twenty-five years ago and who was the owner of the land on which Liberty is located, died at his home in that place recently aged seventy years.

MRS. ROBERT DOUGHTY committed suicide at Taylor the other day by taking strychnine. She was about 23 years of age and the mother of two children. No reason could be given for her action further than an hereditary tendency to temporary insanity coupled with dependency.

RECENTLY a state bureau of immigration was organized at Lincoln. The object of the organization is to induce agricultural and industrial immigration to the state; to secure manufacturing enterprises; encourage the investment of capital, and otherwise further the interests of the state.

NEAR Taylor the other morning Joseph Probst committed suicide by shooting himself. Probst was a young man addicted to drink and nearly died last fall with delirium tremens. During that sickness he made a stubborn effort to starve himself and for twenty-three days refused nourishment.

A BAD accident took place on the Missouri Pacific road near Nebraska City several days ago. A passenger train was derailed and the fireman, Charles Myers, scalded to death. Engineer Mike Allen was badly scalded and it was believed he would die. Both the men lived in Kansas City, where they have families.

On the 22d Representative Bryan asked the house committee on appropriations to grant a hearing to a committee of the Grand Army of the Republic posts of Nebraska in opposition to the appropriation of \$100,000 for the entertainment of the members of the Grand Army of the Republic at the encampment at Washington, and a hearing will be accorded.

AS AN example showing what can be accomplished in Nebraska in one season by industry and good management the case of a farmer in Filmore county is given by the Fairmount Signal. In 1890 his mortgage indebtedness was \$2,600, his crops failed and he ran behind \$250. Last year from the sale of grain raised on his farm he paid his mortgage debt and all his expenses, had his cattle and hogs left, 1,000 bushels of corn in the crib and money on hand.

A MEETING of delegates from the Nebraska Butter and Egg Dealers' association was held in Fremont the other day. The meeting was for a conference with representatives of the eastern association, embracing Michigan, Indiana, Ohio and New York. The object of this conference was to discuss matters of mutual interest, the principal one of which was with reference to railroad rates. It is desired to get the same rates on shipments as are now made to the dressed beef men.

GREAT preparations are being made at Omaha for the convention of the Nebraska State Business Men's association which convenes in that city on the evening of June 14. Each local branch is entitled to one delegate for every ten members and one for every fraction thereof. The presidents of the local branches are delegates at large by virtue of their office. Towns that do not have local branches are entitled to one delegate, which delegate will be entitled to all privileges of the floor except to vote.

DURING the recent storm the roof of the school house at Butka, Loup county, caved in. School was in session, but the presence of mind of the teacher in ordering the scholars to drop over towards the wall probably prevented loss of life.

W. H. HENDERSON, a former highly respected citizen of Omaha, was recently arrested in Philadelphia on the charge of forgery to the amount of \$40,000, as head of the Henderson Loan & Trust Co. of Omaha. The alleged forgery was committed about a year ago and the accused could not be found until recently when he was discovered at Philadelphia.

# A COMMITTEE SCENE.

**Congressman Enloe Creates a Scene at the Raum Investigation—The Congressman Calls the Commissioner a Liar and Attempts to Assault Him.**

WASHINGTON, April 27.—There was a remarkable scene yesterday in the room where the Raum investigation was proceeding. Representative Enloe, one of the prosecutors in the case, called Commissioner Raum a liar and attempted to make a personal assault upon him and was only prevented from carrying out his purpose by the interference of other members. The utmost excitement prevailed which was quelled only by a prompt adjournment. The trouble began with an inquiry as to whether or not Commissioner Raum himself had not furnished Special Examiner Greenwalt with \$15 to be used for the purpose of entrapping an attorney named Foote, of Kalamazoo, Mich., suspected of being engaged in buying forbidden information in reference to pension cases.

The commissioner said that he had not given Mr. Greenwalt the money. Mr. Enloe asked if after an adjournment of the committee on a previous day Mr. Raum had not, right at the table around which they were sitting, so stated to him (Mr. Enloe).

The commissioner replied that he had not, for such was not the fact. Mr. Enloe repeated the query several times, which led Mr. Payson to inquire if Mr. Enloe did not already have a sufficiently square denial from the witness. Commissioner Raum, turning round in his chair, added: "Do you want another denial?" addressing himself to Mr. Enloe.

That gentleman flushed quickly at the remark and exclaimed hotly: "You are a liar; you did say so." He then rose to his feet and in his excitement grasped a small glass sponge cup on the table in front of him, made a forward movement to get at the commissioner, who was sitting in the witness chair across the table. The suddenness of the violent turning of affairs took all hands by surprise. The chairman, Representative Wheeler and one or two others were seated in chairs between Mr. Enloe and the witness. They rose as quickly as possible, as did Commissioner Raum, who became almost as excited as his opponent. The members of the committee and Mr. Cooper seized Mr. Enloe and held him before he could get around the corner of the table. They forcibly prevented him from proceeding further and in the confusion Mr. Enloe exclaimed: "You did say it." To which the commissioner retorted: "I say I didn't."

As Mr. Enloe at this made an effort to free himself the commissioner shouted: "I don't want to have any trouble with you, but the man don't live that I fear."

Mr. Enloe renewed his struggles, but his efforts to get away were unavailing. The commissioner reiterated, "The man don't live that I fear," and then to avoid trouble he took up his hat and marched out of the room, Chairman Wheeler, just as he was going out of the door, calling out that there was no need for the witness to leave as he would be amply protected.

Judge Payson remarked that the witness had a right to leave when he was so treated, to which Mr. Wheeler replied that the committee had protected and would protect the witness. To Mr. Enloe Mr. Wheeler expressed regret at the scene, said that he could go on the stand and correct a statement that Mr. Enloe thought untrue and the committee could judge between witnesses, and added that it was improper that violence should be manifested in such a place.

After expressions of regret by members at such an occurrence, the committee adjourned.

**THE TEXAS FAMINE.**  
Hundreds of People Reported to Be Dying on the Rio Grande Border.

SAN ANTONIO, Tex., April 27.—Thaddeus C. Bell, deputy United States internal revenue collector, returned here yesterday from an extended trip through several of the Lower Rio Grande border counties. He states that the suffering among the people on account of the prolonged drought is heart rending, and that if assistance is not rendered them soon many will die of starvation. He says that hundreds of Mexicans in the country through which he passed are eking out a mere existence by feasting on the flesh of animals, such as cows and horses, which die of starvation. The prickly pear is also another source of food supply. No crops have been raised in that section for four years, and fields are void of all vegetation except the prickly pear, which flourishes best in dry weather. Between Souse and Alice a distance of 100 miles, the carcasses of dead cattle lay so thick that there is never a time but what many of them can be counted.

**Col. Clarkson's Health.**  
WASHINGTON, April 27.—A telegram has been received regarding the condition of Col. J. S. Clarkson, chairman of the national republican committee. It states that Col. Clarkson's health is so bad that he can give no attention whatever to private, much less official correspondence. It holds out little prospect that he will be able to attend the convention at Minneapolis or to engage actively in the campaign afterwards. Col. Clarkson is suffering from his old ailment—rheumatism—but this attack is proving much more stubborn than any of its predecessors.

**When Traveling.**  
Whether on pleasure bent, or business, take on every trip a bottle of Syrup of Fica, as it acts most pleasantly and effectively on the kidneys, liver and bowels, preventing fevers, headaches and other forms of sickness. For sale in 50 cents and \$1 bottles by all leading druggists.

PRESSURE INTO SERVICE—Baggy trousers.—Harvard Lampoon.

The best thing to do is this: when you're suffering from Sick or Bilious Headaches, Constipation, Indigestion, Bilious Attacks, or any derangement of the Liver, Stomach, or Bowels, get something that relieves promptly and cures permanently. Don't shock the system with the ordinary pills—get Dr. Pierce's Pleasant Pellets.

They're the smallest, for one thing; (but that's a great thing), and the easiest to take.

They're the best, for they work in Nature's own way—mildly and gently, but thoroughly and effectively.

They're the cheapest, for they're guaranteed to give satisfaction, or your money is returned. You pay only for the good you get.

What more can you ask? But don't get something that the dealer says is "just as good." It may be better for him, but it's pretty certain to be worse for you.

# "German Syrup"

Two bottles of German Syrup cured me of Hemorrhage of the Lungs when other remedies failed. I am a married man and, thirty-six years of age, and live with my wife and two little girls at Durham, Mo.
