What is

# CASTORIA

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhoea and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

### Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."

Dr. G. C. OSOON,  
Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."

Dr. J. F. KITCHEN,  
Conway, Ark.

### Castoria.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."

H. A. ANCHER, M. D.,  
111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."

### Educational Department.

D. M. HUNTER, Editor.

We know of one director who took sufficient interest in the school grounds of his district to spend all Arbor Day in beautifying and improving them.

Mr. Trunkley did this in Dist. No. 30, Amboy district, the school grounds are fenced in this district. The result of Mr. Trunkley's day's work with his team should be highly appreciated now and will be appreciated more and more as the trees grow larger, the grass thicker, and the walk in front of the house becomes firmer.

Grassy lawns and beautiful shade trees are not to be had at the bidding but must be obtained only by doing some work at the proper time, by exercising diligent care, and by waiting patiently to enjoy them.

Let us have more school grounds fenced, and more members of school boards interested in the improvement of them.

So much rainy weather should cause as little irregular attendance at school as possible.

If it is impossible to plant corn while the ground is so wet it is not impossible to take the children to school. They will not be in the rain and mud so much at school as at home. We have seen children kept from school on account of wet, muddy weather that would run into and out of the house all day at home. As horses get tired standing in the stable it would give them some exercise to use them in taking the children to school in the morning and in bringing them home from school in the evening. Keep the children in school.

The school tax is the largest tax; the school tax is the best tax. To get the benefit of the money expended for school purposes, all children of school age should be in school every day that it is in session.

Do not neglect to observe Decoration Day in all the schools of this county.

In many of our school rooms, the stars and stripes form a part of the decoration. Every school should have a flag.

John Earner's school planted about sixty trees and sung some appropriate songs on Arbor day.

Nothing but sickness should keep a child out of school for a long period of time. Everything necessary to give a child a good education is furnished in the public schools.

Don't let patched clothing keep your children out of school. Keep the clothes of your children clean, (no lack of water this spring with which to wash them) patch them if you are obliged to use as many colors as there were in "Joseph's coat," and send them to school. The boy with a patch on his knee, and the girl with only a calico dress patched at the elbow, to wear may stand among the best in their classes at school, and rank with the best and most influential citizens in the future.

Teach them not to fear being laughed at; but, that by becoming the best speller, the best reader, the best arithmetician, the best grammarian, or the best penman, and one of the best players at recess, a pupil may gain a place in the affection of his schoolmates that will crowd all ridicule out.

A circular was sent to the teachers this week asking them to observe Decoration Day.

The editor has frequent queries in the "Conference with Teachers" as to the authority of a teacher over pupils out of the school yard, and he has always been conservative in his advice.

Judge Gross, of California, has recently given a ruling upon this point. A teacher whipped a boy upon the sidewalk for boisterousness. He then called a cab and took the flogged boy and his companion to the home of the latter, in which he was living. Upon arrival, the teacher advised the woman to emphasize his "thrashing" by one of her own, against which her son protested, and the teacher whipped him on the spot. The judge said that the court always sustained every reasonable effort of a teacher to maintain good order among children in school and out, and justified the sidewalk whipping; but when a teacher enters a private residence and whips a boy in the presence of his mother, the court must draw a line. The teacher was fined \$15.—New Eng. and National Journal of Education.

### High-bred Stallion

The high bred Morgan stallion, Black Hawk chief 4th, will make the season at the stable of J. C. Holcomb on Elm street, rear of Holland house. He is a very stylish, showy horse, and carries more Morgan blood than any horse in the state. Breed to good horses, raise good colts and no longer complain of low prices.

PEDIGREE: Black Hawk chief 4 was bred by S. S. Hitchcock of Valparaiso, Minn., sire Yearly's Black Hawk chief 3 by Black Hawk chief 2 bred by Judge Prout of Salisbury, Vermont, he by Hill's Black Hawk by Sherman's Morgan by Justin Morgan, the founder of the Morgan family. 1st dam Lady snow-bender; 2d by Young hambledonian; 3d dam by Bishop hambledonian; 4th dam the Prout mare by Gifford Morgan by Woodbury's Morgan by Justin Morgan. It will be seen that Black Hawk chief 4th traces back to Justin Morgan on the sire side twice as the Prout mare does also, and carries the hambledonian blood represented by Bishop's hambledonian and young hambledonian Terms on application at above stable.
