Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhoea and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

### Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."

Dr. G. C. Osceola,  
Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."

Dr. J. F. Richardson,  
Cleveland, Ark.

The Centaur Company, 77 Murray Street, New York City.

### Castoria.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."

H. A. Archer, M. D.,  
111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."

### Educational Department.

D. M. HUNTER, Editor.

We wish to present some good thoughts from various sources this week.

Supt. L. H. Ford:—Teachers should be on the playgrounds to keep down any disorder or bad language that might be indulged in.

Supt. F. B. Stockwell:—Parents are responsible for most of the irregular school attendance, and they seem to have no appreciation of what it means. Argument and appeal seem to have no power with them.

Supt. Solomon Palmer:—What our public school system needs is devoted teachers of high character, thoroughly equipped for the work of the school room.

Supt. D. W. Harlan:—The most powerful moral influence in a school is the teacher's example, hence the first requisite in a teacher is a reputation that is above suspicion. There should be no taint on it. A teacher should have no habits that the most up-right of the parents of the district would wish their children not to acquire. Brilliant intellectual attainments will not make up for lack of moral qualities.

W. M. Fennerman:—Examinations test the teacher's work more than the pupil's.

Supt. I. Freeman Hall:—Steady progress in educational lines is not possible except where there is unity of aim and method among the teachers.

Mary A. Spear:—The best way to make children love work is to keep them at work.

D. J. P. Gordy:—Give a child a happy childhood and he will have a fund to draw from throughout his whole life.

Kate Field:—People who do nothing, as a rule, know nothing, and never have time to be of use to any body, not even to themselves.

Chicago Herald:—Language teaching should begin orally as soon as the child is old enough to learn, and should be persisted in until the last hour of school days.

New York Mail and Express:—The poorest children need the best instruction.

S. C. Dana:—Know how to use books, pamphlets, magazines, where to go, how much and how little to read, what is authority and what is not, where are the short cuts to facts and arguments. This kind of knowledge is of the greatest value in these days.

Dr. E. O. Lyte:—There is as much mental development in the study of Grammar as in any subject taught in school.

Pres. Merll E. Gates:—When we see a school full of boys, we do not think that one may be president, but that all must be citizens.

Jno. Ruskin:—Real education means teaching children to be clean, active, honest, and useful.

Supt. T. B. Stockwell:—Irregular attendance is the crying evil of the times.

Supt. R. G. Young:—The schools cannot prosper unless supported by an intelligent public sentiment.

F. Louis Soldan:—The chief condition for the successful teaching of any subject is to know it. No method of teaching can enable a person to teach what he does not know.

Miss Myrtle Sawyer's school in district number 51, observed Arbor Day. Some selections were recited, some essays about trees read, and each pupil gave a quotation having the word tree in it. No trees were planted as the yard is not fenced.

Mr. Ralph Pope, his school and the director, Mr. Jerome Bailey, took last Friday afternoon to clean ousers. They waited long and patiently for good weather. It didn't come, but the school house in district number 78, presents a much improved appearance notwithstanding the bad weather. Who will be the next to report progress?

### High-bred Stallion

The high bred Morgan stallion, Black Hawk Chief 4th, will make the season at the stable of J. C. Holcomb on Elm street, rear of Holland house. He is a very stylish, showy horse, and carries more Morgan blood than any horse in the state. Bred to good horses, raises good colts and no longer complain of low prices.

PEDIGREE: Black Hawk chief 4 was bred by S. B. Hitchcock of Walsala, Minn., sire Yearly's Black Hawk chief 3 by Black Hawk chief 2 bred by Judge Prout of Salisbury, Vermont, he by Bill's Black Hawk by Sherman's Morgan by Justin Morgan, the founder of the Morgan family. 1st dam Lady messenger; 2d by Young samblestonian; 3d dam by Bishop samblestonian; 4th dam the Prout mare by Gifford Morgan by Woodbury's Morgan by Justin Morgan. It will be seen that Black Hawk chief 4th traces back to Justin Morgan on the sire side twice as the Prout mare does also, and carries the samblestonian blood represented by Bishop's samblestonian and young samblestonian Terms on application at above stable.
