The Burlington & Missouri River Railroad has prepared and new has ready for distribution a new hand book, treating of the opportunities which Nebraska, northwestern Kansak and eastern Colorado offer to farmers,

and eastern Colorado offer to farmers, business men and investors.

This book has been gotten out for the information of eastern people, particularly those who have friends west of the Missouri; it is written in a pleasant, easily understood style, by one who theroughly knows has subject, and is confidentially recommended as likely to attimulate immigration to a very considerable extent.

It pictures Nobraska and those portions of Kannas and Colorada adjacent to it, not so they might be, but so they are.

It is thought that the best method of distributing these hand books is as follows: Parties in Kannas Nebraska and Colorado, having friends in the cast who are likely to be interested in such liberature as this, are invited to send the homes and addresses of these latter to Mr. S. Francis, Gen'l Pasenger & Ticket Agent, Burlington Route Omaha, Neb., who will take pleasure in forwarding, poetpaid, to such addresses as many copies as desired.

A more agreeable jouvney through di-versified and attractive scenery than that which can be made by one of the two dai-ly vestibuled fast trains of the Bultimore & Okio railroad between Chicago and Washington, Baltimore, Philadelphia, and New York would be hard to fin. The Baltimore & Ohio railroad of today is a vestiv different institution from that Washington, Baltimore, Philadelphia, and New York would be hard to fine. The Baltimore & Ohio railroad of today is a vastly different institution from that which it was a few years have. The antiquated locomotives and cars which then constituted its equipment have given place to rolling stock of the latest and best patterns and the through trains vestibuled from engine te rear sleeper and instuding dining cars and Pullman cars of the most modern and luxurious character, compare favorably with any in the world. The sleeping cars especially built for these trains a few months ago have some admirable improvements. The elegant simplicity of the interior decorations is in marked contrast to the louder ornamentation which not long ago was considered the height of art in such places. The wood is of mahogany with little carved or raised work which the eye does not tire of sdmiring. The improvement in the locomotive equipment is equally as remarkable. In order to climb the Alleghenies, from whose heights the passenger enjoys views of sublimity and beauty which he never forgets, heavy grades and numerous curves were necessary in contities of the one of the summit. Now when the foot of this mountain is reached, instead of two or more engines being called into service there is attached to the train a single engine weighing 67 tons, having eix coupled drivers and cylinders 21x26 inches in size and this powerful machine takes the heavy train up the long stretches of grades reaching as high as 118 feet to the mile, at a lively pace. The daylight ride over the mountains, especially in the time of verdure, shows a wonderfully attractive panorama in which grandeur and beauty are constantly mingled, and indeed the entire journey between Washington and Chicago proyes the propriety of calling this road "Picturesque B. & O."

He who Wants Health Wants Everything!

There are millions of persons in this country who suffer from chronic diseases or an affliction which incapacitates them from business, and frequently makes life a burden. many of whom would place themselves under different treat ment if they were acquainted with the fact that a new treatment was in reach of them. Kemedial agents for many of those ills we have endeavored to secure. Of such we offer to the afflicted one, on a business like basis, the managment of which we trust will be tempered by a moral and philasthropic principle.

We practice the Brinkerhoff treatment of all forms of RECTAL DISEASES. We personally ewe a debt of gratitude to the father and founder of this system and not to publish to the world such knowledge, would be to do mankind an injustice. This is the remedy that thousands bless, and one that I have secured at great expense, tried and tested before offering it to you for your consideration and investigation. Descriptive pamphlets sent free on application. Office consultation free. Names of parties who have been cured cheerfully given on application.
