To Aid Nebraska.

The Burlington & Missouri River Railroad has prepared and now has ready for distribution a new hand book, treating of the opportunities which Nebraska, northwestern Kansas and eastern Colorado offer to farmers, business men and investors.

This book has been gotten out for the information of eastern people, particularly those who have friends west of the Missouri; it is written in a pleasant, easily understood style, by one who thoroughly knows his subject, and is confidentially recommended as likely to stimulate immigration to a very considerable extent.

It pictures Nebraska and those portions of Kansas and Colorado adjacent to it, not as they might be, but as they are.

It is thought that the best method of distributing these hand books is as follows: Parties in Kansas Nebraska and Colorado, having friends in the east who are likely to be interested in such literature as this, are invited to send the names and addresses of these latter to Mr. S. Francis, Gen'l Passenger & Ticket Agent, Burlington Route Omaha, Neb., who will take pleasure in forwarding, postpaid, to such addresses as many copies as desired.

Do you want money, happiness, comfort and pleasure? If so, keep your health perfect by an occasional use of "Hoptiquore"—the great English blood, kidney and liver tonic. For sale by L. H. Deyo.

"Late to bed and early to rise will shorten the road to your home in the skies." But early to bed and a "Little Early Riser," the pill that makes life longer and better and wiser. C. L. Cotting.

The Ladies of the Congregational Aid Society served ice cream in Martin's old store last Saturday afternoon. Those ladies will serve ice cream every Saturday afternoon hereafter, perhaps in some building down the street.

Bright people are the quickest to recognize a good thing and buy it. We sell lots of bright people the Little Early Riser. If you are not bright these pills will make you so. C. L. Cotting.

Elder Putman, pastor of the Christian church is expected home to-day and will preach in the Christian church next Sunday both morning and evening.

Disease never successfully attacks a system with pure blood. De Witt's Sarsaparilla makes pure, new blood and enriches the old. C. L. Cotting.

The year of 1892 is one long to be remembered as being one of great disasters, both fire and flood. So also was the winter of 1891 noted for its deaths of distinguished people.

Mrs. L. R. Patton, Rockford, Ill., writes "From personal experience I can recommend DeWitt's Sarsaparilla, a cure for impure blood and general debility."

D. R. Dungan's lecture at the Opera House last Friday evening was not very well attended, but it was a good lecture just the same.

It is a fixed and immutable law that to have good sound health one must have pure rich and abundant blood. There is no shorter nor surer route than by a course of DeWitt's Sarsaparilla.

Mrs. Newhouse was buying goods in Omaha last week.

Other medicines might help but to make assurance doubly sure use DeWitt's Sarsaparilla to enrich, purify and renew the blood. C. L. Cotting.

Wanted. A few good farm loans, six per cent interest. No second mortgage.—D. B. SPANOGLE.

A more agreeable journey through diversified and attractive scenery than that which can be made by one of the two daily vestibuled fast trains of the Baltimore & Ohio railroad between Chicago and Washington, Baltimore, Philadelphia, and New York would be hard to find. The Baltimore & Ohio railroad of today is a vastly different institution from that which it was a few years ago. The antiquated locomotives and cars which then constituted its equipment have given place to rolling stock of the latest and best patterns and the through trains vestibuled from engine to rear sleeper and including dining cars and Pullman cars of the most modern and luxurious character, compare favorably with any in the world. The sleeping cars especially built for these trains a few months ago have some admirable improvements. The elegant simplicity of the interior decorations is in marked contrast to the ponderous ornamentation which not long ago was considered the height of art in such places. The wood is of mahogany with little carved or raised work which the eye does not tire of admiring. The improvement in the locomotive equipment is equally as remarkable. In order to climb the Alleghenies, from whose heights the passenger enjoys views of sublimity and beauty which he never forgets, heavy grades and numerous curves were necessary in constructing the road and until recently it required the help of extra engines to get a train to the summit. Now when the foot of this mountain is reached, instead of two or more engines being called into service there is attached to the train a single engine weighing 67 tons, having six coupled drivers and cylinders \$1236 inches in size and this powerful machine takes the heavy train up the long stretches of grade reaching a high of 115 feet to the mile, at a lively pace. The daylight ride over the mountains, especially in the time of verdure, shows a wonderfully attractive panorama in which grandeur and beauty are constantly mingled, and indeed the entire journey between Washington and Chicago proves the propriety of sailing this road "Pictoresque B. & O." —Railway Age

He who Wants Health Wants Everything!

There are millions of persons in this country who suffer from chronic diseases or an affliction which incapacitates them from business, and frequently makes life a burden, many of whom would place themselves under different treatment if they were acquainted with the fact that a new treatment was in reach of them. Remedial agents for many of those ills we have endeavored to secure. Of such we offer to the afflicted one, on a business like basis, the management of which we trust will be tempered by a moral and philanthropic principle.

We practice the Brinkerhoff treatment of all forms of BLOOD DISEASES. We personally cure a debt of gratitude to the father and founder of this system and not to publish to the world such knowledge, would be to do mankind an injustice. This is the remedy that thousands bless, and one that I have secured at great expense, tried and tested before offering it to you for your consideration and investigation. Descriptive pamphlets sent free on application. Office consultation free. Names of parties who have been cured cheerfully given on application.
