CINCINNATI, July 1.—The prohibition national convention resumed its session yesterday. During the recess Judge Black, of Pennsylvania, was elected chairman of the resolutions committee.

The platform committee was still in session when the convention was called to order. The sub-committee had worked incessantly until 3 a. m. and had made a report to the full committee, where a fight ensued over the tariff and silver planks, the sub-committee also having been divided on

GEN. JOHN BIDWELL.

those two points. The free coinage men were beaten in the sub-committee, the plank as submitted to the full committee being antagonistic to absolute free coinage. Secretary Wheeler, of New York, carried his silver resolution through, but in the full committee Editor Thompson, of Ohio, offered a more radical substitute. Mr. Thompson on the tariff question succeeded in having the Ohio prohibition party's tariff plank adopted

by the sub-committee.

A speech made by Mrs. Gougar, comparing the sale of a negro child in the south to the sale of liquor caused Mr. Gibbs, of Virginia, to offer a resolution, which was adopted, asking speakers to refrain from allusions reflecting upon

participants in the late struggle. The subscription book was then passed and \$1,000 each was presented by the Voice, the prohibition organ, and W. Wardwell, of New York, secretary of the new national prohibition executive

committee. THE PLATFORM.

The platform was completed at 2 o'clock. Minority reports were decided upon against the financial and tariff planks adopted by the majority. The following, is the full text of the platform as submitted to the convention:

The prohibition party in national conven-tion assembled, acknowledging Almighty God as the source of all true government and His law as the standard to which all human enact-ments must conform to secure the blessings of peace and prosperity, presents the following declaration of principles:

First—The liquor traffic is a fee to civiliza-tion, the arch enemy of popular government

tion, the arch enemy of popular government and a public nuisance. It is the citadel of the forces that corrupt politics, promote poverty and crime, degrade the nation's home life, thwart the will of the people and deliver our country into the hands of rapacious class inter ests. All laws that under the guise of regula-tion legalize and protect this traffic or make the government share in its ill gotten gains are "vicious in principle and powerless as a rem-edy." We declare anew for the entire suppression of the manufacture, sale, importation, ex-portation and transportation of alcoholic liquors as a beverage by federal and state leg-islation and the full powers of the government should be exerted to secure this result. Any party that falls to recognize the dominant nature of this issue in American politics is un-

deserving of the support of the people.

Second—No citizen should be denied the right to vote on account of sex and equal labor should receive equal wages without regard to

Third-The money of the country should be issued by the general government and in sufficient quantities to meet the demands of the business and give full opportunity for the employment of labor. To this end an increase in the volume of money is demanded and no indiwidual or corporation should be allowed to make any profit through its issue. It should be made a legal tender for the payment of all debts, public and private. It should be fixed at the definite sum per capita and made to increase with our increase in population.

Fourth—We favor the free and unlimited coinses of allyer and gold.

coinace of silver and gold.

Fifth—Tariff should be levied only as a defense against foreign governments which levy tariff upon our products, revenue being inci-dental. The residue of means necessary to an economical administration of the government

should be raised by levying a burden upon what the people possess instead of what we con-Sume The other planks demand woman suffrage and

equal pay, regardless of sex: demand govern-ment control of railroads, telegraph and other public properties; demand the further restric-tion of immigration and the extension of the naturalization period: oppose acquisition of lands by aliens and favor forfeiture of uncarned lands by allens and favor forfeiture of uncarned land grants; denounce the reign of mob law and demand trial by jury for all citizens; de-mand one day's rest in seven for all persons; favor arbitration and pensions; unequivocally stand by the American public school system and teaching in English and oppose grants of money to sectarian schools and denounce both parties for truckling to the money interests and

The platform was adopted, the amendments offered by the minority report being rejected. In the evening Gen. John Bidwell, an old California pioneer, a former congressman and now a wealthy land owner of California, was nominated by an unmistakable majority, receiving 590 votes out of a total vote of 974, 487 votes being necessary to a choice. Demorest received 139 and Stewart 179 votes. The result was greeted with a deafening din of cheers. J. B. Canfield, of Texas, was nomi-nated for vice president on the second

Great Fire at Guthrie.
GUTHRIE, Ok., July 1.—Fire broke out here at 2 o'clock this morning and in a short time consumed six frame buildings and contents. Stevens & Epstein, of Kansas City, were to open a \$20,000 stock of furniture and household goods to-day and it was in their store the fire originated, the cause being a mystery. The principal losses are Stevens & Epstein, \$20,000 on stock; A. H. Waite, \$5,000 on stock of dry goods and \$1,2000 on building; G. M. Sharum, \$4,000 on stock of dry goods; J. S. Lyons, \$1,000 on stock of implements and \$3,000 on building; A. Johnson, \$500 on building.

PARLIAMENT DISSOLVED.

The Queen's Speech-Write of Election

Out.
London, June 29.—The queen held a council at Windsor castle to-day with Lord Cranbrook, president of the council, Mr. Gosehen, chancellor of the exchequer, and the Earl of Latham, lord chamberlain of the household, in attendance. She has signed the decree dissolving parliament. The writs for the elections of new members of the house of commons will be distributed to-day.

The queen's speech proroguing par-liament says: "The time has arrived when it is expedient that the electoral body of the country be consulted by the assemblage of a new parliament. I have, therefore, assented for prorogation at an earlier period than usual. I am glad to record that my friendly relations with foreign powers remain unaltered. Treaties have been duly rati-fied, referring the differences with the United States with respect to the Behring sea arbitration."

Referring to the bills passed at the session just ended, the speech says that the election demands that parliament has made enabling workingmen to pur-chase agricultural holdings will increase the class of cultivating owners, which is of great importance to the state. The application to Ireland of the educational measures recently adopted in Great Britain will confer great benefits upon

the people of that country.

The speech concludes: "In closing this parliament, which has been unusually and also high fruitful in beneficent legislation, I thank you for the assiduous performances of your important duties during the six months, and heartily commend you to the favor of Almighty God."

A NEW BATTLESHIP.

Launching of the Texas at the Norfolk Navy Yard.

PORTSMOUTH, Va., June 29 .- The Norfolk navy yard and Constructor Francis Bowles secured a signal triumph in the successful launching of the great battleship Texas here yesterday. About 12,-000 spectators were in the yard and as many more were on steamers, tugs, yachts and the opposite shore of the

Standing on the launching tower erected from the launching platform were Miss Madge Houston Williams, of Texas, her mother, Mrs. Williams, Lieut. W. S. Coles, the private secretary of Secreeary Tracy and his official representatives on this occasion, and Ensign Hillary P. Jones, of the navy. The red, white and blue cords holding the bottle of wine were tied to a staff surmounted by a star, emblamatic of the Lone Star state.

At 11:16 o'clock the signal "ready" was given, when Miss Williams, with the words, "I christen thee Texas," broke the bottle of wine on the bow of the vessel as she started. It was just forty-six seconds from the time the bottle was broken that the Texas was standing in the stream as firm as a land battery. Five minutes later she was moored to her wharf.

WILLIAM J. CAMPBELL

Sketch of the New Chairman of the P publican National Committee.

in place of Gen. J. S. Clarkson, was the form of an ancient sea-bottom, more His parents moved to Illinois in 1851, measure of the modification being deand he has resided in Cook county, that termined by the average height to years. He was elected a state senator in 1878 for four years, was re-elected in 1883 and declined a renomination for a third term. In 1881 he was chosen third term. In 1881 he was chosen 1888 and again in 1885. He was a delegate to the national republican convention in 1880 and voted for Blaine on every ballot. He was again a delegate

Indiana Republicans. Indianapolis, Ind., June 29.-The republican state convention yesterday nominated the following ticket: For governor, Ira Chase; lieutenant-governor, Theodore P. Shockney, of Randolph county; secretary of state, Aaron Jones, of St. Joseph; auditor of state, John W. Coons, of Marion; treasurer of state, Fred J. Schols, of Vanderburg, second ballot; attorney-general, J. D. Ferrell, of La Grange, second ballot; reporter of the supreme court, George M. Haywood, of Tippecanoe; superintendent of public instruction, James H. Henry, of Morgan; state Statistician, J. D. Thompson, of Shelby; judges of the supreme court, John D. Miller, Byron Elliott and Myron McBride, the present incumbents; for judges of the appellate court, A. G. Cavin of Monroe John K. Thompson of Dearborn, James B. Black of Marion, M. S. Robinson of Wayne and E. W. Crumpacker, the

present incumbents. To Reconcile the Factions Lincoln, Neb., June 29.-Hon. John Fitzgerald, of Lincoln, ex-president of the Irish League of America, will sai for Ireland the latter part of this week on an important political mission. He is one of a committee sent from the United States to bring about a reconcillation of the factions existing in Ireland and to secure united action in the approaching election.

A Great Strike Impending. PITTSBURGH, Pa., June 29. - The pros pects of a settlement of the wage diffi culty at Carnegie's Homestead plant is growing small. The workmen assert positively that they will not accept the reduction and it is understood that every union man in the works will be discharged on July 1. The works were running in all departments yesterday but the undercurrent of feeling is very strong.

The property is entirely surrounded by a new high board fence and large electric search lights have been placed in the skylights of the mills so that ob-jects over a mile distant are visible.

AN ECCENTRIC MILLIONAIRE.

He Planned a Sham Funeral and Kept as Ere on His Heir's Administration.

From Austria, the land of eccentric noblemen, comes a story without s parallel in the recent record of human idiosyncrasics. The Galician millionaire, Casimir von Mioneczynski, was removed from his vast estates near Lemberg to an asylum for the insane in Dobling, at his own instance, about eight years ago. About five months later his death was announced. It was said that he died in the night, and the properly drawn certificate of the physiclan was to the effect that death was caused by heart disease. In the morning after the night when the death was reported the other physicians saw that the closed coffin was carried to the family burying ground and there interred, without having been opened in the presence of the millionaire's friends. The heir of the Mionezynski property, Count Nicodem Potocki, took possession of the estates. The departed pobleman left neither wife nor children. About the middle of December the

tenants of the Count were astounded at midday to see the bent figure of a man exactly resembling Casimir von Mionezynski pass along the road. The old man spoke to all in a voice that recalled visions of their former landlord. and most of the peasants fled in superstitious fright from the sound. Hardly less fright was caused at the castle when the old man sent in a card bearing the words "Casimir von Mionezynski." When Count Potocki met him the old man explained that he had given the physician who gave out his death certificate at the asylum and conducted the mock funeral five thousand dollars for his part in the plan and a promise not to reveal the fraud until after the physician's death. That event had been announced, he said, and he, therefore, had returned to his estate. The old man said he had taken securities for about fifty thousand dollars abroad with him and had lived on the interest. His object in all this remarkable performance was to discover, he said, how his heir would administer his property after his death. That story was treated rather gingerly at first by Count Potocki, but the discovery by disinterment that the coffin from the asylun had been buried empty increased the suspicion of truth aroused

by the old man's personal appearance.
The old man's story of his wanderings abroad is under investigation, and meantime he is inquiring into the management of the property, which he claims as his own. The editor of the Dziennik Polski is sure that the old man is Casi mir von Mionezynski, and many Lembergers believe so, too, but Count Potocki says that he will concede nothing until his tracing of the old man's wanderings is completed.—N. Y.

THE DISMAL SWAMP.

Conditions That Caused the Great Vir-

The Dismal Swamp belongs to that group of inundated lauds where the lack of drainage is due to an original deficiency of slope, combined with the flow retarding influence of vegetation on the movement of water from the land. "The principal determining cause which has led to the formation of the Dismal Swamp is found in the char-WASHINGTON, June 29 .- William J. acter of the surface on which the marsh Campbell, chosen permanent chairman accumulation rests. The whole of this coast from New York southward has born in Philadelphia, December 12, 1850. or less modified by river action, the state, since that time. He was edu- which the sea-flow has been elevated cated in the public schools of Illinois, above the level of the ocean and the the Lake Forest academy and the steepness of the slope toward the sea University of Pennsylvania. He studied In New Jersey the plain is tolerably law with Hon. W. C. Goudy, elevated and the slope from the interior of Chicago, and has been engaged in active practice there for many sure a swift discharge of the water. In president of the Illinois state senate the shore is still further lowered, the and was re-elected to the same office in incisive action of the streams having yet further reduced it, leaving parts of the surface in the form originally belonging to the sea-bottom. In this condition the surface for a considerable distance from the coast rises at an average rate of about eighteen inches to the mile. It is not a perfect inclined plane, for it is cast into slight elevations and depressions in a manner that reminds one of the ocean after a time of great atorm when the waves have fallen to a height of two or three feet, retaining at the same time their original horizontal attitude.-Goldthwaite's Magazine

Oldest Seaworthy Craft Affoat.

John Beattie, of New Haven, claims to be the owner of the oldest seaworthy craft in the world. The vessel is the Wasp, a schooner purchased by Mr. Beattle in 1870. She was built at Cohoes, on the Hudson river, in 1812. The Wasp is older than the whaleship Stonington, that is to be taken to Chicago to the world's fair. For years after being launched the Wasp ran as a Hudson river packet and between points on the sound. Once, when lying in the North river, her crew mutinied and murdered her captain. The murderers were hanged. The vessel is now employed in carrying granite to the breakwater off the mouth of New York harbor .- N. Y. Sun.

-It is stated that the only woman freemason in the world is Mrs. Salome Anderson, of Oakland, Cal. The account says that she learned the secrets of the order by concealing herself in a room in her uncle's house where the lodge met. On being discovered she was made a member of the lodge to prevent her from publishing their seerets. Mrs. Anderson has served on the board of trustees of the Masonic temple. She is also a charter member of Golden Gate chapter, No. 1, Order of the Eastern Star, and is a member of Oak Leaf chapter, No. 8.

The Only One Ever Printed—Can You Find the Word?

There is a 3 inch display advertisement in this paper, this week, which has no two words alike except one word. The same is true of each new one appearing each week, from The Dr. Hartor Medicine Co. This house places a "Crescent" on everything they make and publish. Look for it, send them the name of the word and they will return you book, beautiful lithographs or samples free.
