Henry Hon; W. E. Andrews of Hastings, republican candidate for congress, we have been quick to take up these reports and glory in them as showing the salamity of a protective tariff. But the day has gone by when lies of this soit can be fool the people. The country is not prepared to judge finally on the merita of the strikers' quarrel at Homestead. But the twages they are offered are such as would leave them in the helplees and post that the wages they are offered are such his campaign, if the people would his campaign, if the people would leave them in the helplees and post to get the people would him. In Mr. Andrews, we have elect him. In Mr. Andrews, we have the properties of the strikers' quarrel at Homestead. But the thing the tribe the properties of the strikers' quarrel at Homestead. Demagogism is all well years. In that time ten or eleven sores as enough in its place, but it should not be displayed in the halls of congress. Mr. Andrews' opponent is a man of just one idea and that is free trade, and the rest of his ability is wound up in demagogue oratory that is used to win votes. Of what benefit has Mr. McKeighan been to the district? Will some one answer?

The result of the Cowles convention of the independent party, is having a desultory effect upon the members of on account of sickness. I bettere the disease that organization. Austin Riley, am in good spirits and have a good appetite, while he may be all right as a man, is I am now 27 years of age and sea walk as well while he may be all right as a man, is not fitted for a legislative candidate as any one, except that one limb is a little and is absolutely valueless as a legislator representing a county as impor-tant as Webster, and his own party does not generally endorse him. His record in the last legislature is blank,

independents, who have found out in the last two years that his knowledge of law is as slim as hair is on a chicken. During his incumbency of the office of county attorney he has not won a case for the county although quite a number of important ones have been up for trial. If he is

Hopkins has to have help from attorneys when he has cases coming up and as a con-sequence the county has to pay extra for it, when the presecuting attorney should be able to do the work for which he is paid a good salary. Think of two years and not one successful case of his own efforts.

The nominations are poor and we have no doubt but what the people of whatsoever party will condemn the Supt. A. nominations.

The above are the identical words used by Mr. McKeighan in his speech when nominated.

Wages at Homestead.

The Democratic House sent a committee to Homestead with the hope of making a showing of distress and poverty among the laborers in protected industries get no benefit from a protective tariff. But they will not show that.

What they found was workmen getting from \$1.40 a day (the lowest rate, and that only to a few) up to as high as \$16 per day. There were men offerd \$1,000 \$2,500, \$3,600 and even \$5,000 per annum and working about 270 days in the year and yet they had learned to feel and believe, under the experience of a protective tariff, that they ought to have more. No wonder Congressman Bynum. Demotive tariff, that they ought to have more.
No wonder Congressman Bynum. Democrat, of Indiana, and a member of the committee inquired with some show of eagerness whether there was a chance for him to secure a position in the works.

When Hugh O'Donnell, the leader of the strikers, was on the stand, Mr. Boatner, (Democrat, of Louisana) asked him:

The idea of a banker's relative being picked out from among a whole lot of intelligent farmer boys who ought to have had the position, but were kept out by a big fee charged for that purpose by some one.

The independent crowd over the state are having a regular pow-wow in their camp. They all want office and how in the mischief to get it is a question of great import to them. Just now their papers of state repute are pounding that wiley old gentleman; known as Crazyhorse, (Van)

With as good a show as the republicans have this year to elect their men, it will be their own fault if they do not do so. The independents have made fatal mistakes from Weaver down to county -attorney, and the republicans should profit by it. The

In July I read a book, 'A time I was there. In July I read a book, 'A Day with a Circus,' in which were statements of cures by Hood's Syraparilla. I was so impressed with the success of this medicine that I decided to try it. To my great gratification the sores soon decreased, and I began to teel better and in a short time B was up and out of doors. I continued to take Hood's Sarsaparilla for about a year, when, having used six bottles, I had become so fully released from the disease that I went to work for the Fint & Walling Mfg.
