For several days the B. & M. folks did an immense business in passenger traffic to the Knights Templar convalescence at Denver. Specials were run on the evening of the 7th every 30 minutes.

Miss Addie Reigle who has been attending college at Beatrice is home, where she will remain for a few days preparatory to take up her duties at Hebron as one of the instructors in the public schools of that place.

Blakeslee & Kaley have greatly increased the capacity of their shoe store by running their shelving to the ceiling, thus making more room for their large stock and preparing a place for their fall and winter goods that are soon to arrive. The progressive firm are building up a nice trade by their square and honest dealing with customers and the uniform good quality of their goods.

"One of the most pleasing and successful musicales of the season was given at the First Congregational church, March 12, by the Adolphian Quartette of Doane college. This quartette is known all over the state, and was listened to with the deepest interest. They are young men of excellent character and their voices are rich and harmonious."—Daily State Journal, (Lincoln.)

ODDS AND ENDS

Mr. A. G. Willis and wife, are in Denver.

Mrs. R. M. Cochrane is in Ohio visiting.

James Swearingen has been on the sick list.

Mr. W. B. Roby has moved back to Red Cloud.

Geo. Barker and mother are home from Chicago.

Frank Hadley and R. M. Cochrane, were in Bladen this week.

Roy Hutchinson has been papering the interior of his barber shop.

Mr. A. G. Willis and Ernst Welch have tapped the city mains for water.

Miss Alice Garbar of Guide Rock, was visiting Miss Mable Day this week.

Samuel Miller of Amboy has some of the finest wheat raised in Webster county.

Bert Leonard, of Lebanon, Kansas, has added his name to the Great Family Weekly.

Frank Potter and Will McMillan, of the Argus are in the great west on pleasure tours.

Our street commissioner should cut the weeds, that have grown up in some of our streets.

Mrs. Topham and daughter have gone to England. They purchased their tickets through Andrew Berg.

Ward Hiatt, who has been in Lincoln for sometime to be treated for deafness is home again much improved.

Several families who moved away from Red Cloud to better their condition have returned, finding that Red Cloud was still the best place to live.

The school board have ordered the heavy growth of weeds in the school-house park to be cut down, and Janitor Seamon is fast demolishing the same.

E. C. Barnard arrived from Chicago Monday morning. He started for Denver this morning accompanied by Mrs. Barnard who has been visiting in the city for a few weeks.

The other night Rob Martin thought burglars had made an entrance to his store, but fortunately, if they did nothing was taken. Rob was quite badly scared for awhile.

Dr. J. S. Emigh while descending the back stairs of Cotting's hall, took a flying leap through mid air. When he stepped on the top steps they gave way and had he not fortunately had hold of the banisters he would have precipitated to the ground a distance of ten feet.

Mrs. L. H. Rust, has for sometime been aware that a tumor was growing on her right breast. This fact gave her great uneasiness, and one day this week she bravely submitted to the surgeon's knife and had the same removed. Drs. Damerell and Emigh of Red Cloud, and Dr. Chapman of Hastings, made the surgical operation Mrs. Rust at this writing is getting along very nicely.

THE CHIEF has a sad duty to perform in announcing the death of the little daughter of Mr. and Mrs. Vic B. Fulton, which took place on Thursday evening. The little child was about two years old and was one of the brightest jewels that was ever sent to grace the household of any parents. Its death was caused from drinking gasoline, and the heart-broken parents are paralyzed with grief over the demise of their little treasure. Truly the sunshine of that home has been obscured by the hand of death. The parents have the heartfelt sympathy of the entire community in their sore affliction.

THE GREAT WEST

As Seen by the Rev. E. L. Ely, of this City.

(Article 4.)

A certain writer on Utah starts out by saying: "No properly constituted man could ever expect to win fame as a successor to Ananias. And yet he who sets out to tell the simplest unadorned and unvarnished truths in regard to Utah as a farmer land, a home land, foredooms himself to go galloping down the crookedest byways of public estimation as a compeer of Sapphira's luckless spouse and all the other puissant liars of ancient and modern days."

Then this writer whose sensitiveness in regard to being called a prevaricator is so great, goes on with his description as follows:

"Lift New England and New York a mile above the sea level, add 5000 ft to Mt. Washington and 7000 to Mt. Mitchell. Throw in a dozen other peaks as high as all, punching holes in the sky with their snowy crown. Send cataracts and cascades leaping and foaming down a thousand dizzy precipice channels. Toss in promiscuously, parks larger than whole states in the same small notched east gardens of giant statuary, statues of gods and gnomes. Titans, Centaurs and unnamed monsters thousands of feet high, hewn by ages of winds and waves of whirling waters. Fill all the valleys with trees bending beneath the burdens of their own fruitage, and dot the horizon, bounded pasture lands with flocks and herds waist deep in the very wantonness of plenty. Underlay the whole vast area with gold and silver, zinc, copper and lead ores, coal, salt, sulphur, soda lime and gypsum.

Smite the rockribbed laboratories of Omnipotence and let unnumbered healing floods gush forth rich in miracle working virtues. As the dazzling bosom jewel of the whole transcendent scene spread out the 2500 square miles of that majestic and mysterious lake whose waters hold in solution wealth enough to pay all the national debts of the world and leave a fortune for every man, woman and child, from Cape Cod to Yuba Dam. And over all throw the glory of a climate unsurpassed under heaven since sin and death climbed into Eden and the translucent splendor of skies more radiantly Sapphira than ever bent their crystal arches above the far famed beggar hemmed, sea girt Bay of Naples or the Lake of Como, and you have a poor, faint, puny approximation to an idea of Utah."

I have great sympathy for the writer in his feeling of inability to do the subject justice without being accused of trying to compete with Ananias but have great admiration of his attempt. As this description of the territory is so eloquently and truthfully put, I will dismiss that part of the subject with only saying that I never saw such delightful valleys surrounded by so much to make farm and village life happy and desirable as in Utah and were it not that no description that I could give would equal that already given, I would be tempted to say more. Salt Lake City is said to be the only city where baby wagons are imported by the train load and where they have the right of way over even the electric cars, and that a not uncommon sight is to see "extremes meet" in the form of a seventy year old papa trundling a baby carriage along the street as gay and lissom as a spring chicken.

Salt Lake City is situated about 18 miles from the lake and has about 50,000 population. It was settled by Mormons under Brigham Young in 1847. It was laid out in blocks each containing 10 acres and with streets 132 feet wide. The center from which the streets are numbered is the one containing the temple and Tabernacle.

The streets are lined on both sides with magnificent trees many of them being fruit trees. There is also a little ditch on both sides through which flows a stream of pure mountain water.

The city has over 65 miles of electric street railroads, 20 miles of 20 feet sidewalks, 38 public and private schools, and 35 churches of various denominations.

Of course the most interesting sights to the stranger from the east are the Mormon buildings.

The Temple block covers ten acres and is surrounded by a stone wall 15 feet in height and 5 feet thick evidently built to defend the Temple against any attack from the outside.

The temple is said to be one of the grandest and costliest ecclesiastical structures in the U. S. except one in New York City.

It was begun in 1853 and is not yet finished and has already cost nearly \$6,000,000. It is 200 feet long 100 feet wide 100 feet high, with a tower at each corner 220 feet in height. The walls are 10 feet thick and the whole structure is built of a beautiful granite found about 18 miles from the city. It being located on

an elevated point can be seen 50 miles away.

The Tabernacle situated in the same square is one of the most remarkable buildings in the world. It is the shape of an egg cut in two length wise and is built wholly of iron, glass and stone except the interior finish.

The seats are of the extreme old fashioned pattern. The walls are 12 feet thick and there are 20 huge entrances. It is 250 feet long 150 feet wide and 100 feet high in the center and there is not a single post or support under all this vast roof making a wonderful display of architectural skill. Its seating capacity is often given as from twelve to fifteen thousands, but the man in charge gave it as 8000. Of course many more can be seated in the aisles by the use of chairs. Its acoustic properties are wonderful and we were treated to a test of them by being seated in the farther end while the man in charge dropped a pin on the altar rail which we could hear quite distinctly and also his voice as he spoke in a whisper. It contains an organ built by Mormon workmen at a cost of \$100,000. It is 58 feet high has 57 stops and 2648 pipes. The choir consists of from 200 to 500 voices and is said to be very fine. In the same enclosure with these buildings there is also the Assembly Hall seating about 2500 which is also used for religious services the Tabernacle not being sufficient to hold the people who attend.

East of the Temple square is another which contains the Tithing House, Brigham Young's residence, the Lion House and Bee hive house, where 18 of his wives lived. In my desire to see, I opened a gate in the wall in front of the Lion house and started in when I was met by a relic of the sainted Brigham whose countenance caused me to make a sudden stop as it seemed to say "what are you here for," and as she didn't invite me in, I—well I didn't go in but I went out. I was told that all of these poor lone widows of the great prophet now receive a pension of \$40 per month.

Across the street is the schoolhouse where Brigham's little happy family of 78 children went to school. Across the street south is the Amelia Palace which Brigham built for his favorite Amelia Folsom, his 19th love. It is now turned into a Keely Institute.

The great mercantile institution in the city is the Zion Cooperative store where the Mormon can buy anything from a toothpick to a threshing machine. Its business runs from \$4,000,000 to \$6,000,000 per year.

I should also have mentioned the little graveyard about a block from the other buildings where the body of the great apostle of polygamy is resting and where his wives are ultimately to be buried to

keep the poor old man from being lonesome after enjoying domestic bliss in so large a measure in this life.

I was very fortunate in having such friends in the city as Mr. and Mrs. Walter Jones and Howard Cather and wife who are very nicely located there and spared no pains in making my visit enjoyable and succeeded grandly.

We went together out to Great Salt Lake and all but one of the party soon had on a bathing suit. That one wasn't me, for I think I was the first one in and the last one out. In describing this experience I think I will again quote "A first bath in it is as good as a circus, the bather being his or her own trick mule. The body will not and can not sink in it. You can sit down in it perfectly secure where the water is fathoms deep. Man lie on their backs and smoke cigars or read their newspapers." All one has to do is to wade out where it is three feet or more deep and gently tip over backward and float. To get on your feet again isn't quite so easy, for the moment you try it, there seems to be a tussle between your feet and your head to see which will stay out of the water. I think that in the first two attempts I made the feet won and after I had succeeded in getting myself right and up I was very busy for some little time in getting the brims out of my eyes so I could see. The third time I got my head under and my eyes full, it was caused by coming in collision with an elderly lady who evidently like myself was floating with her eyes closed and letting the waves carry her ashore. The water happened to be pretty deep right there and I was pretty well salted both inside and out when I finally regained my equilibrium and my breath.

However, I soon learned how to keep my head out of water and greatly enjoyed it. It is the ideal place for sea bathing and in all that great sea there is nothing that "lives, moves, swims, crawls or wriggles," no form of life whatever.

During the summer, the lake is visited by hundreds each day and the lake in the vicinity of the bath-house seems fairly alive with bathers. Its water not only furnishes amusement and pleasure, but has many medicinal qualities.

I left Salt Lake City for home via the Rio Grande, the great scenic route of the west, and will try to say something of the scenery in my next.

It is with regret that we record the fact this week of W. B. Roby's departure for the east. He has resided in these parts for some six years and is proprietor of two of the most desirable farms in this part of the state. These he has leased to reliable parties and he will reside in Red Cloud where his family now is. Mr. Roby is a citizen that no community would want to lose. He is honorable and upright and liked by everybody which is proven by the fact that he was chosen by the people for county commissioner of this district, which office he filled in a manner satisfactory to everyone. The Tribune wishes him success wherever he may go.—Haigler Tribune.

Several young ladies of this city have decided to organize a band and have raised about \$100 towards getting their horns.

Program.

All workmen to assemble in opera house 10:45 sharp, each master workman taking charge of his lodge. Procession to start for the grove 11 o'clock sharp, marching numerically, the highest state number taking the lead. The entire procession to be under the command of J. C. Warner, marshal of the day. Brass bands present will be arranged in the lead of their home lodges.

After arriving at the grounds the procession will be seated.

Music by brass bands.

Singing—Opening Ode—Workmen.

Prayer by Geo. O. Yeiser.

Singing—Duett—Mr. and Mrs. D. C. Gillespie.

Address of Welcome—Rev. E. L. Ely.

Singing—Welcome song.

Response to welcome C. C. Piansburg, Alma, Nebr.

Singing—Quartette—Mrs. Briggs, Miss Emigh, Cotting and Albright.

DINNER.

Music—By Brass Band.

Music—Male Quartette.

Toast—The Goat—W. F. Buck, Superior, Nebr.

Music—Trio—Gillespie and family.

Toast—The degree honor—H. I. Wetherell.

Music—Duet—Flow Gently Deva—Mrs. Briggs and Albright.

Toast—Our Beneficiaries—H. W. Cole of McCook.

Music—Male Quartette.

Address—Hon. J. G. Tate.

Music—Gillespie and family.

Electon of Annual picnic officers.

Singing—"God be with you till we meet again."

Every member of the A. O. U. W. in the county that owns or can get a two or three seated wagon are requested to be in town as early as possible picnic morning to help transport the visiting brothers from the trains to the town. Per order committee.

J. C. WARNER.

Ice Cream at Calmes.

ODDS AND ENDS

Mr. A. G. Willis and wife, are in Denver.

Mrs. R. M. Cochrane is in Ohio visiting.

I was very fortunate in having such friends in the city as Mr. and Mrs. Walter Jones and Howard Cather and wife who are very nicely located there and spared no pains in making my visit enjoyable and succeeded grandly.

We went together out to Great Salt Lake and all but one of the party soon had on a bathing suit. That one wasn't me, for I think I was the first one in and the last one out. In describing this experience I think I will again quote "A first bath in it is as good as a circus, the bather being his or her own trick mule. The body will not and can not sink in it. You can sit down in it perfectly secure where the water is fathoms deep. Man lie on their backs and smoke cigars or read their newspapers." All one has to do is to wade out where it is three feet or more deep and gently tip over backward and float. To get on your feet again isn't quite so easy, for the moment you try it, there seems to be a tussle between your feet and your head to see which will stay out of the water. I think that in the first two attempts I made the feet won and after I had succeeded in getting myself right and up I was very busy for some little time in getting the brims out of my eyes so I could see. The third time I got my head under and my eyes full, it was caused by coming in collision with an elderly lady who evidently like myself was floating with her eyes closed and letting the waves carry her ashore. The water happened to be pretty deep right there and I was pretty well salted both inside and out when I finally regained my equilibrium and my breath.

However, I soon learned how to keep my head out of water and greatly enjoyed it. It is the ideal place for sea bathing and in all that great sea there is nothing that "lives, moves, swims, crawls or wriggles," no form of life whatever.

During the summer, the lake is visited by hundreds each day and the lake in the vicinity of the bath-house seems fairly alive with bathers. Its water not only furnishes amusement and pleasure, but has many medicinal qualities.

I left Salt Lake City for home via the Rio Grande, the great scenic route of the west, and will try to say something of the scenery in my next.

It is with regret that we record the fact this week of W. B. Roby's departure for the east. He has resided in these parts for some six years and is proprietor of two of the most desirable farms in this part of the state. These he has leased to reliable parties and he will reside in Red Cloud where his family now is. Mr. Roby is a citizen that no community would want to lose. He is honorable and upright and liked by everybody which is proven by the fact that he was chosen by the people for county commissioner of this district, which office he filled in a manner satisfactory to everyone. The Tribune wishes him success wherever he may go.—Haigler Tribune.

Several young ladies of this city have decided to organize a band and have raised about \$100 towards getting their horns.
